EDITORIAL COMMENT

Ino Champions

Georgatown has more than maintain-I Its reputation as a hockey town this win-

On Sunday, a packed arens cheered as first one and then a second Onterio champlonship was won by a town where this is nothing new.

. It was the third straight year for the Georgetown Midgets as they finished their series with Cobourg, and coach Gerry Ingits was understandably jubilant as he received congratulations for his achievement, No less excited was brother Blake Inglis as the PeeWee team won provincial bonours for the first time against Bowman

While the demise of intermediate ho ckey is still regretted by local sports fand, there had been a good season this year ewith a junior team filling the gap left by the Raiders, and the OMHA groupings active in all classes,

. The celibre of hockey exhibited by these youngsters speaks well for the future of hackey here. Junior coactes, will be casting an eye on the young players in these series. And it is not unlikely that in enother season or two, Georgetown will be able to ice one of its major teams which always was in the running in past years and brought more than one OHA victory to

No Easter Parade

It was one of the oddest Easters on record.

With the holiday later than usual, It was naturally assumed that bright, warm weather would be the order. Instead, an unusual snow storm on Saturday made the landscape more like Christmas-Nme.

The Easter parade was nil.

Those who planned to show off their spring wardrobe donned winter garments soein when they attended church. There was a minimum of promenading later that day and town streets were relatively deser-

The traditional first look at the garden sprouts, the first raking over to remove winter debris, was skipped by most that

week-end. The fireplace, pipe and slippers was more in keeping.

Did we say no Easter parade? We meant, of course, the traditional display of finary. The actual Easter perade of Christians to their churches was perhaps more pronounced than ever.

Local churches were well filled, not only for the Sunday services, but for the special is as it should be. Easter is the focal point of the church year, a time of sadness and a time of rejoicing. It celebrates the culmination of Christ's life on earth, the very root of the Christian philosophy, renewing hope for mankind." It is a more logical time for new year resolutions than the year-end.

Assist for Garbagemen

An experiment with plastic garbage montainers in Millon has been specbaseful and the county town has ordered a supply of begs which will be sold to bouseholders for their convenience.

The new idea is a disposable bag which is next, trape obnoxious odours, and seves the blowing garbage which is bound to litter streets, no matter how much care the collectors take. 4

It is more sanitary. A householder soes not take a metal pail back Into his house, the bottom soggy with left-over

liquids, and it speeds up the collectors' lob to single celled animals which exist only to all seross the pre- Rev. Bruce A. Woods, paster considerably.

The price is fairly reasonable - \$2.25 for fifty bags.

100 bags a year. The system is not obligatory and imposes no hardship on any per son who does not wish to use it.

Towns like Georgatown will be following the Milton experiment with Interest and it is possible that similar action may be taken here at a later date. Anything which can improve such a civic service, and help make a town more tidy is worth investigating.
