## We heard you were looking for a tough little car that'll flatten any road!

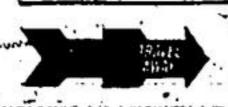

(the Tough Little Car from General Motors)

Yake the scenic route? Not in an ordinary little car. Not unless you have all the Instincts of a pioneer and the nerve of Buck Rogers. Many small cars just eren't built to take bumps. Notable Exception: Epic, the Yough Little Car from General Motoral The 1965 Epic travels rough winding country roads almost as smoothly as it travels highways, thanks to an unconventional and versatile suspension system. Epio's independent front suspension with transverse lest springs absorbs road shocks at each wheel, independently. So a bump under one wheel isn't catching.

And what do we mean by versatile? Simply this. Most small care send to pitch and yew with drastic changes in road and speed. sepecially when comering. Epic doesn't. Epic is characterized by variable springing . . . that is, soft springing for comfort on the straightaway, and stiffer springing to resist roll and sway under fast cornering conditions.

Visit your Chevrolet-Envoy dealer during Trade 'N' Travel time. and inspect the Yough Little Car from General Motors. Yake it out

on the road Any road.
