Back from Thailand Starts Design Service

Georgetown has a new design service available to manufacturers and the business community. James Warren, recently returned from a United Nations assignment in Thailand, has opened an office in the Carleton Building, 116 Mountainview Road under the name James Warren Associates.

Service will include management consulting in the field of product development and marketing as well as the design of products, packages, trademarks, exhibitions and commercial interiors.

The first major project of the office is to advise and assist the National Design Branch in plans for holding an international design congress in Montreal in 1967 in connection with Design '67 programme of the Department of Industry. Mr. Warren will also be lecturing in product design at the Iyerson Polytechnical Institute in Toronto in September.

The new office is the culmination of nearly twenty years experience in the product, graphic and exhibition design field with such companies as Smith and Stone, General Steel Works, and the Robert Simpson Company.

Foreign assignments have included advisory work in product design and education with the governments of Thailand and Pakistan. Mr. Warren is a member of the Association of Canadian Industrial Designers, the Association of Professional Industrial Designers of Ontario, and is active in the International Council of Societies of Industrial Design which has its headquarters in Belgium.

We extend sympathy to the relatives of Mr. George Foster who passed away suddenly in St. Joseph's Hospital, Guelph.

Among these are "the need of a universal language, universal education, the duty of all faiths to unite in establishing universal peace, the moral responsibility to protect human rights and the obligation of all men to engage in useful work".

His martyrdom intensified his message among the people and even caused 20,000 of his followers to give up their lives for his cause. From Persia, his teachings were carried by loyal disciples to Baghdad, Palestine, Europe, the Americas and the Far East. Thus, all around the world Bahai's joined last week in commemorating the martyrdom.

As a fitting memorial to this heroic youth, a shrine is erected on the slopes of Mt. Carmel at Haifa, Israel. The late Mr. Sutherland Maxwell, a Montreal architect, was responsible for the design of this shrine and the work was carried on under his direction.
