## Modern Cardiac Treatment Here

### HEART STATION IS SMITH AND STONE, DUPLATE GIFT

A complete modern heart station was formally presented to the Georgetown and District Memorial Hospital by Smith & Stone Ltd. and Duplate Canada Ltd., Thursday. The heart station includes the latest equipment in the treatment of heart disease. The defibrillator is an electronic apparatus used to shock the heart back to an effective functioning; the Cardioscope and Synchronizer are elaborate electronic innovations which record the heart beat visually and audibly, which include an alarm to notify the nursing staff if a patient's heart rhythm alters radically; back to normal, and there is the Pacemaker is also used to change normal heart rhythm also a transdermal Pacemaker which can travel with a patient being transferred to another centre. In this photo taken during the formal presentation

## High School Trustees Say Go To Fourteen Room Addition

A planned fourteen room addition to Georgetown and District High School on Guelph St. has reached the tendering stage.

At a meeting of the high school board Monday, which lasted until the small hours of Tuesday morning, trustees discussed a healthy list of minor adjustments to be made to the final detailed plans with Mr. O. Barnett, and Mr. W. Martin of the firm of Barnett and Rieder architects, and Mr. W. Ross, a mechanical consultant.

The adjustments and additions to the detailed plans were considered at a special meeting of the board's building committee Saturday, another lengthy session called for 9 a.m. which concluded at 1:30 in the afternoon.

Board chairman W. H. Carr is also building committee head. His committee men are E. E. Hall, E. H. Gorth, D. G. Lawson of the board, and J. McCaig of the Advisory Vocational Commission.

The board and architects poured over the plans for another three and a half hours Monday night before trustees gave them final approval.

Because of the fine tooth comb treatment given the plans the meeting went approximately 6 hours, from 8 p.m. until 3 o'clock.

Included in the addition will be four standard classrooms, an instrumental music room, a typing room, a business machine room, market merchandising room, two laboratories, boys occupational shop, a single gymnasium, and two drafting rooms.

## Concerned for Safety of Family in Pakistan

The Pakistani-Indian war is the personal concern of a local resident, Miss Iona Ghose, teacher at Holy Cross School.

The war has come within four miles of her family's home in Lahore, which is thirteen miles from the Indian border. She minutes walk from her house is the railway station, which she fears will become a target, as it is the communication centre.

After many futile attempts, starting Sept. 1st to phone and cable, she contacted the Red Cross. A few days later, on the 23rd, she heard through the Red Cross that her family was safe. However, with events changing

rapidly, she has no idea what has happened since then. She has been trying to phone constantly, but as yet hasn't got through. However, she keeps booking calls, and hopes to hear this week.

One bright spot for Miss Ghose, was the arrival of her sister Dorath, on the 14th. She left Pakistan Sept. 3rd, on one of the last civilian planes still operating.

Dorath, who was employed as a secretary in Pakistan, hopes to find similar employment here. She is staying with Iona in an apartment on Edward Street.

Police said Barry Shortall, 15, of 45 Maple Ave. W., the passenger on the 1965 Suzuki motorbike, was the most seriously injured with a broken leg. The driver, Rinko Dulker of Acton, sustained foot injuries as well as scrapes and bruises.

According to police, the youths were riding east on the bike when they collided with a 1965 Chevrolet driven by Grant Baker, 23 Bairdow Cresc. The Baker car was westbound on Guelph St. and about to make a left turn onto Water St.

Both motorbike riders were launched into the air by the impact and landed on the pavement opposite the Canadian Tire Store.

Cpl. Ted Scott said damage to the car was \$300. The motorbike was a complete wreck.

Police logged the time of the collision at 12:25 p.m.

## Boy Breaks Leg in Motorbike Accident

Two teenagers were taken to Georgetown Hospital after the motorbike they were riding on ran into the front of a car at the intersection of Guelph and Water Streets at noon yesterday.

Mary Evans, a second year student at McMaster University, Hamilton was one of several students announced in a scholarship list issued by the university this week.

Miss Evans was awarded a Municipal Chapter, I.O.D.E. scholarship valued at \$75.

Daughter of Mr. and Mrs. James F. Evans, Valleyfield Rd., she is taking an honours history course. She is a graduate of Georgetown and District high school.

Varian Associates, the parent company of a Georgetown firm Varian Associates of Canada Ltd., recently announced the merger of Eitel-McCullough Inc. into Varian. Eitel-McCullough

## Reception at St. John's For Tom Forgrave, Bride

Friends numbering over a hundred attended a reception in St. John's United auditorium Friday for a recent bride and groom, Mr. and Mrs. Tom Forgrave.

The evening was planned by Mr. and Mrs. Ernest Forgrave as a welcome to the former Margaret Andrews of Thorby Alberta. Their marriage took place in Thorby on September 6 and they are living in town at 14 Union St., while Mr. Forgrave completes the last year of his theological course at Emmanuel College.

The United Church Women catered for refreshments. Graham Farnell was master of ceremonies for an informal

hospital board chairman John T. Armstrong (left), Brigadier F. C. Wallace, chairman of the board of Smith & Stone and Duplate; Dr. C. Allan Thompson, the hospital's chief of staff, and Mrs. M. Manning, the hospital's director of nursing. — Peter Jones Photo

The long discussed exchange of parcels of land between Georgetown Public School Board and Georgetown High School Board is moving faster toward a conclusion today. The high school trustee voted unanimously Monday to instruct their solicitor to prepare the necessary documents for the transfer of titles to the 2 parcels of land.

The swap involves 1.4 acres of high school property and 1.8 acres of public school property fronting on Maple Ave.

Rob Webster emerged the Directors' Trophy Winner taking Jack Kemshead 3 and 2.

Chuck Thomas was conceded the B Flight title by Stan Binsell, who was 9 holes down with 9 to play.

Because Jack Kemshead was also a finalist in C Flight, this round was played earlier in the week with Chuck Vallance, a 3-up winner on Kemshead after 36 holes.

A special certificate of recognition was awarded Duncan Thompson, who in addition to being president of the Barbershoppers, has long been active in the Rotary Show.

Mr. Thompson has been transferred to Canton, Ohio, and will move there shortly.

In Mr. Thompson's absence the award was accepted by David Morgan, a member of the Barbershoppers executive.

## Rotary Auctioneer Becomes Honorary Member of Club

In recognition of his years of service to the local Rotary Club, Frank Petch, well known auctioneer, was made an honorary member at this week's meeting of the club. Mr. Petch has acted as auctioneer at their annual spring auction for the past several years.

In thanking the Rotary Club for this honour Mr. Petch said it was gestures such as this that makes life worth living, and that he was deeply touched by the privilege bestowed on him.

Also honoured for both their service to the community and to the Rotary Club were the Barbershoppers who were presented with a certificate of re-

ognition. Accepting the award for the Barbershoppers, who have entertained at many of the Rotarian-sponsored Senior Citizens Dinners, was Steamer Emmerson.

Tom Trouton of Burlington, returned to the town for the reception, and sang Wedding Prayer among other numbers. Kenneth R. Harrison and Mrs. James F. Evans played piano duets and Barbara Evans and David Farnell sang some duets.

The evening ended with a sing-song, and words of appreciation from Mr. and Mrs. Forgrave to those who had attended the reception.

# Iowa Firm To Build Canadian Plant Here

## Races, Midway, Exhibits Fall Fair A Meeting Place

All the flavour of an old-time fall fair has been retained in the show which will jam Georgetown park a week from Saturday, October 2nd.

Now in its second century, the fair presents a full program of trotting races, including the popular ponies, a horse show for hunters and jumpers, and some of the best livestock on the North American continent.

Handicraft, baking, flowers, and school exhibits fill the armory.

There is a gay midway, plenty of refreshment booths, exhibits of farm machinery and cars. Women's Institute exhibits in the hall, and the calf club showmanship classes are always highlights of the fair.

And, aside from all these attractions, there is the pure joy of spending a few hours with a happy crowd, meeting friends who return from other towns for the day, and sharing in the excitement which the fall fair always engenders.

Friday evening, the hall is open, and it is a particularly good time to see the exhibits at their best. The midway operates that night, too.

Mark Saturday, October 2nd on your calendar for a visit to Georgetown Fair.

Construction of a 25,500 square foot factory will begin October 1st on an 11 1/2 acre site in the Delrex industrial area. It will be on the north side of Todd Road, just off Mountain View.

The 160 x 340 building will house the first Canadian plant of Economy Forms Corporation, a Des Moines, Iowa firm supplying steel forms for the concrete industry. Until now the firm has been importing from the States to its Canadian warehouses.

The firm will manufacture a standard line of steel forms, plus a special line for major products.

Ian G. Beattie, who will come from Toronto as plant manager, told the Herald Wednesday that it is hoped to engage most of the initial 75 employees locally. A number of key personnel will be sent to Des Moines for training courses.

The company has sales offices and warehouses throughout the States.

The new factory will locate on an 11 1/2 acre site which is part of the 175 acres which the town is in process of purchasing for \$100 an acre under an agreement signed a week ago with Delrex Developments.

A deposit cheque from the town for the purchase was received by the development firm on Monday, Sept. 20th.

Meanwhile, is a letter signed by Rex Healey, president of the firm, and dated Sept. 17th, the firm requested that council waive their option to purchase on the 11 1/2 acres. A clause in the agreement provides that Delrex may repurchase any of the 175 acres at the \$100 per acre purchase price, provided industrial construction starts within six months and is completed within twelve months from the repurchase date.

The letter, read to council in Monday's correspondence, asked the waiver in order for Delrex Developments to accept a purchase offer dated Sept. 12.

"We have had to accept the offer on this date as the acceptance date could not be delayed beyond the Monday night council meeting," the letter said.

The letter said the selling price of the land is \$1,000 an acre and a condition of the offer is that the vendor rough grade the property prior to Oct. 1st. Estimated cost of this is \$4,500, which will be paid from the proceeds of the sale.

## Plan 75 Employees For Economy Forms

Construction of a 25,500 square foot factory will begin October 1st on an 11 1/2 acre site in the Delrex industrial area. It will be on the north side of Todd Road, just off Mountain View.

The 160 x 340 building will house the first Canadian plant of Economy Forms Corporation, a Des Moines, Iowa firm supplying steel forms for the concrete industry. Until now the firm has been importing from the States to its Canadian warehouses.

The firm will manufacture a standard line of steel forms, plus a special line for major products.

Ian G. Beattie, who will come from Toronto as plant manager, told the Herald Wednesday that it is hoped to engage most of the initial 75 employees locally. A number of key personnel will be sent to Des Moines for training courses.

The company has sales offices and warehouses throughout the States.

The new factory will locate on an 11 1/2 acre site which is part of the 175 acres which the town is in process of purchasing for \$100 an acre under an agreement signed a week ago with Delrex Developments.

A deposit cheque from the town for the purchase was received by the development firm on Monday, Sept. 20th.

Meanwhile, is a letter signed by Rex Healey, president of the firm, and dated Sept. 17th, the firm requested that council waive their option to purchase on the 11 1/2 acres. A clause in the agreement provides that Delrex may repurchase any of the 175 acres at the \$100 per acre purchase price, provided industrial construction starts within six months and is completed within twelve months from the repurchase date.

The letter, read to council in Monday's correspondence, asked the waiver in order for Delrex Developments to accept a purchase offer dated Sept. 12.

"We have had to accept the offer on this date as the acceptance date could not be delayed beyond the Monday night council meeting," the letter said.

The letter said the selling price of the land is \$1,000 an acre and a condition of the offer is that the vendor rough grade the property prior to Oct. 1st. Estimated cost of this is \$4,500, which will be paid from the proceeds of the sale.

However, they did not inform Esqueasing Council, or even the Parks Board, on which there are three Esqueasing members.

In a letter from Oakville, the council admitted they were in error in not conferring with Esqueasing on the \$250 purchase, half of which was billed to Esqueasing.

It was decided to ask the opinion of the Esqueasing members of the Parks Board, before any action be taken. "This is what should have been done in the first place," opined Coun. Currie.

Council authorized the payment of \$230, Esqueasing's share of the operating costs of the Sunshine School, to the Esqueasing Education Authority for Retarded Children.

In a letter from Mrs. Sillars, Secretary-Treasurer of the Authority, she pointed out that 80% of the costs are paid by the Department of Education, and the remainder by the municipalities from which the children come. The balance left after the non-resident fees are paid, is by the resident municipality, in this case Esqueasing.

Of a total budget of \$21,100, the Department of Education pays \$18,902, concluded the letter.

Esqueasing Council had a colourful dilemma Monday night. The problem? What colour to paint the outside of the municipal building. Would it be brown or black?

Finally after lengthy discussion it was decided to abide by the architect's recommendations of chocolate brown, and will advertise for tenders on that basis.

When Reeve G. Lalle asked Council's opinion of the proposed \$1,000,000 regional jail, which Hamilton County would operate jointly with Hamilton and West-worth County, he got it.

They felt a lot more consideration should be given before making an expenditure of that size. "Even if the government does give 50%, it's still a lot of money," commented Coun. Currie.

Clerk K. C. Lindsay added, "Let the people who are being paid to conduct a \$65,000 needs study, tell us what they recommend."

## Vandalism at School, Offer \$50 Reward for Information

Break-ins at Holy Cross School on Sept. 11, and 12th were reported by Chairman R. Thompson at the Separate School Board meeting last week.

He told of books being strewn around and ink thrown over floors and walls. Since some keys were stolen, the Board decided to have all the outside locks changed. They also authorized the posting of a fifty dollar reward for information leading to the apprehension of the vandals.

Completion of work on the grounds was reported by Trustee Ed. LeBlanc, who also suggested that tenders be advertised for their maintenance. At his suggestion, also, Mr. Boyle, presently the caretaker of the Holy Cross Church, will also look after the bilingual kindergarten class, which is held in the church basement.

To ensure the safety of children going down to the church from the school, Trustee Roger Primeau suggested a stairway from the school down the hill. However, the other members felt it would be much too expensive. "We should ask the town for a sidewalk down this side of Maple Avenue," commented the Chairman R. Thompson.

Varian Associates, the parent company of a Georgetown firm Varian Associates of Canada Ltd., recently announced the merger of Eitel-McCullough Inc. into Varian. Eitel-McCullough

will be operated as the Elmec Division of Varian. Elmec serves a variety of industrial and military customers with its lines of power electron tubes such as, triodes, tetrodes and microwave tubes. The firm also manufactures telemetry transmitters and vacuum capacitors.

National Electronics, an Elmec subsidiary, produces ignitrons, thyristors, silicon control rectifiers for industrial uses, and gas readout tubes for visual display devices.

Elmec employs in excess of 1800 persons at its facilities in San Carlos, California; Salt Lake City, Utah; LaPox, Illinois; and Geneva, Illinois.

Varian is a producer of a diversified line of products including microwave components and tubes. The Instrument Group of Varian manufactures spin resonance spectrometers, laboratory and cryogenic magnets, graphic recorders, magnetometers and time and frequency standards. The Equipment Group manufactures high vacuum pumps, systems and instruments, and electron linear accelerators.

In addition to its headquarters and facilities in Palo Alto, California, Varian has facilities located in Massachusetts, New York, New Jersey, Kentucky, Oregon, Canada, Switzerland, Italy and France.

## Kin, Kinnettes and Kompany at Korn Party

Approximately thirty Kinnettes and their friends attended a Kin Korn roast at the home of Mr. and Mrs. Ken Milne, 5 Lyons Court, Saturday night.

The chairman of the affair was Kin Doug Ditchfield.

Present were Mr. Murray Beattie, Mr. and Mrs. Bob Collett, Mr. and Mrs. Art Ellis, Mr. and Mrs. Bob Hutchinson, Mr. and Mrs. Jack Lavale, Mr. and Mrs. Al Mahaffy, Mr. and Mrs. Ken Milne, Mr. and Mrs. Trev Moores, Mr. and Mrs. A. Murphy, Mr. and Mrs. Clark Rutherford, Mr. and Mrs. Bill Sumpucks, Mr. and Mrs. Herb Wilson, Mr. and Mrs. Glen Wright, Mr. and Mrs. Jerry Smith, Mr. and Mrs. Bob Gibson, and Mr. Roger Rybard.
