

# New Plan Will Raise Building Fund Money

Ralph Hawes

Were you aware that friend Harold Henderson who has been supervising the \$0-50 Draw for quite some time, has come up with a new idea for 1968.

Harold tells us he absolutely guarantees three winners each month. He looks to all members to help him with this new venture. As most members know, the proceeds of Harold's efforts go into the Building Fund.

If any of you are interested, drop in at the Branch on each Monday or Tuesday at the "Officers of the Month Club."

It behooves all Branch members to read "letters" in this month's Legionary. On page 4, there is a letter written by Branch 120's Padre, the Rev. Kelvin Johnston.

The Padre's letter should cause all of us to take a look at ourselves and ask "Am I in the Legion to give or to get?"

The Branch's crack marksman, Gord Browne was explaining to us the other day how keen he and his fellow riflemen are to have a shooting match with the Lorne Scots Regimental Rifle team, which according to Gord, is a real hot team, but he feels, can be beaten.

Gord has spoken to one of the top brass of the team on two occasions but had no reply. Maybe after what happened to the Lorne Scots Local team at the hands of the Legion, they are a little wary of the Branch 120 team.

Thursday evening, January 20th, will see the Branch executive members conducting the Election of Officers for the Ladies Auxiliary.

Offices to be filled are President, Two Vice-Presidents, Sec-

Of interest, no doubt, to all Herald readers will be the donation by Dominion Seed House of several thousand bulbs for planting on Hospital grounds.

Anyone who has visited the Hospital, must have been impressed by the wonderful display we have each year in the various seasons from early in the spring until late autumn. This floral display would not be possible of course, if it were not for the efforts of our gardener, Mr. John Schenk, who certainly spends countless hours working on the grounds. Without the material to plant, however, his efforts would be severely curtailed, and so we owe a large vote of thanks to Dominion Seed for their tremendous gift.

Early in November, Mr. Schenk tells us that he planted the following bulbs, all donated by Dominion Seed: 1,000 Iris species; 1,000 Muscari; 2,500 Crocus; 2,000 Chionodoxa Lucilla; 400 daffodils, of several varieties; 750 Carnation Tulips; 250 Peacock Tulips; 200 Black Parrot tulips; 500 Lily flowered tulips; 350 Turkenstanica; 250 Marjoleit; 250 Kaufmaniana; 700 Scilla Siberica; 500 Crocus (Snowstorm); 500 Snowdrops; 1,000 Iris Reticulata; 750 Muscari . . . another item also replaced by the company were two of our Golden Junipers.

This very impressive donation will certainly add to the attractiveness of our grounds . . . and certainly the cost of this type of planting would be far above anything the Board could contemplate.

So to Mr. Vannatter, the general manager of Dominion Seed, and all associated with the Company may we say thank you.

With the holiday season over, occupancy once more is starting to mount. Many patients were discharged for Christmas, and, of course, there were many who waited until after the holiday season.

## Authorize Solicitor Close Cedarvale Purchase Deal

Monday night, Council authorized the town solicitor to close the deal for the Cedarvale School property right away. However, they refused to share the \$3,268 cost of maintaining the property for the year of 1965, as the owners, the United Church had suggested.

The mayor pointed out that it was clearly understood that the property could not belong to the town until all approvals were given, so he did not feel the town should share the cost of the year's operation.

Mr. Smith agreed, saying, "We only got O.M.B. approval in the middle of December 65. In attempting to find out if the town's offer had blocked the sale to other potential buyers, Coun. Hyde asked the solicitor if the property had ever been put up for tender. "Not to my knowledge," replied the lawyer.

"Then the United Church could have sold to someone else if they had the opportunity," concluded Coun. Hyde.

The motion to authorize the purchase at \$80,000, without any extra for maintenance costs, passed unanimously.

As far as the sharing of the maintenance cost, F. A. Nelson described it as a matter of horse trading.

The solicitor, F. A. Nelson, pointed out to council that the deal was originally supposed to be closed in January 1965, and the owner felt the cost of holding the property should be shared. They also asked for some adjustment on the unpaid taxes for 1965 amounting to \$2,900. Mr. Nelson expressed the opinion that an adjustment of the taxes should be made, since the taxes would not have accrued to the town if the deal had been closed.

Strange how time slips by! It seems only a short time ago since we held the last annual meeting in Wriglesworth Auditorium, and here it is again, only a few weeks away. Let's hope that THIS YEAR, there will be a real turnout. There are at present, we believe, roughly 1,000 life members, all of whom have donated over \$50. It would seem to us, that if people had a proportionate amount of their money invested in a private enterprise, they would be an annual shareholders' meeting. We would urge that as many as possible attend, ask questions, and in general find out how their money has been invested. This year, the meeting will be held in the Hospital itself, and we hope that this in itself will bring a larger turnout.

On the agenda is the annual report to the association, and the election of directors for the ensuing term. Refreshments will be served, and an opportunity to look around for anyone so desiring. The Herald will carry full details at a later date. Anyone wishing to become a member can do so by getting a membership card anytime before the meeting. They are available at the Hospital at all times.

The Fund for the late Dr. Bebenek Memorial Fund has had a number of donations, and it is hoped more will be coming in. We believe a 'cut-off' date for this will be implemented (probably mid-February) so it is hoped that anyone wishing to contribute will do so in the next few weeks.

Speaking of donations, there are still a few donations trickling in from industry and individuals. We hope to be able to list these in next week's issue. We might also point out at this time to our residents who have moved to town since our financial campaign to build the hospital, that a donation from you would be greatly appreciated, if you feel that you can do so. Certainly any amount, no matter how large or small, would be greatly appreciated. In the past year we have had considerable, and totally unexpected expenses, of which none is recoverable from the Hospital Commission. Anything toward this would be a great help.

We trust the writer will be forgiven for pointing out too, that since the original financial campaign, a number of industries have located in town. To the best of our knowledge, they have not been approached for funds. However, anything they should feel like giving towards the Hospital would be greatly appreciated.
