in the minimum number of

-Facing elimination, the Prestons put up a struggle that kept Georgetown at bay for the first ten minutes, but then Hay broke in to score from Wiles and Fowler at 10:15 to get the locals under way. It was the only goal of the first period.

the scoring this one from Fowler was Hay from Heppes, and then The Pontises won the series Heppes struck again from Fowler and Hay at 2:25 to complete the second period scoring.

Georgetown connected for three quick counters in the final period. Fowler from B. Neil at 8 minutes, Nash from Fendley and Foster at 10:05 and Fowler unassisted at 12:20.

Georgetown's next opposition will come from Winona.

PROFESSIONALS MAX FOSTER

SCHOOL

36 Queen St. E. (next Queen's Sq. Bldg.) 457-1901

Some lessons we've learned about making small cars for Canadians.

Lesson 1. Build them in Canada. That's where the rugged weather is.

Lesson 2. Watch your paint. Use 5 separate coats of Canadian primer and paint, after rustproofing the bodies 6 times.

Lesson 3. Offer something unusual. Like a small car automatic for around

Lesson 4. Make it good-looking. A small car doesn't have to be ugly to be well engineered.

Lesson 5. Give it a great independent suspension. Canadians have a knack for leaving the beaten path.

Lesson 6. Make the seats convertible to beds. A lot of Canadians are campers. Lesson 7. Put in 4-wheel disc brakes. and offer a 4-speed synchromesh gearbox. Canadians are a sporty groups

dollars worth of spare parts. And keep them available everywhere in Canada. Lesson 9. Put in an engine that likes to be driven hard. Canadian roads are long and Canadians like to move

Lesson 8. Keep at least a million

along. Lesson 10. Install a heater as large as most domestic big cars. Put in a booster fan and outlets for back seat

passengers. Canada is a frosty country. Lesson 11. Keep your prices down, and your engineering quality up. There's a lot of competition.

These are lessons we've learned in Canada. This is the Renault 10 Major.
