After some consideration a clause was added to the motion stating that the cost of the report would be shared equally by the town and the proposed builder Odorico - Pullen and Pilluti.

Cr. E. Hyde explained that the report had been requested by the planning board to help them in their decisions. He added that the town should have this information at their fingertips. When Cr. A. Speight contended that the builder should pay for the report, Cr. Hyde conceded it might be reasonable in this case to pay 50 per cent, only, since in this part of town this information was not as easily obtained as in the newer areas.

Cr. Speight agreed that the explanation was reasonable. Mayor Joe Gibbons asked what the planning board consultant R. Little does, as he felt this would be his job. Cr. Hyde replied he could do it but it would be cheaper and faster to have Mr. Carr.

"How much money are we talking about?" demanded Cr. Emmerson. "Approximately \$100" replied Cr. Hyde.

After the clause stating the cost would be shared was added, the motion passed with only the Mayor objecting.
