

"Arivederci Georgetown" Cattle Off to Sunny Italy

"Arivederci Georgetown, we're off to sunny Italy," was the good-bye farewell song of over five hundred Holsteins last Friday morning as they were loaded into cattle cars at Georgetown station.

"PEEK-A-MOO"

Committee of Adjustment to Deal with Land Separations

Mr. Harrop, Chairman of the Esquewaug Planning Board, came to Esquewaug Council for advice, Monday night and had the problem dumped right back in his lap.

An application had been made to the Planning Board for a land separation behind the existing business on Highway 25, near the 401 cloverleaf. "Had it been for a dwelling," said Mr. Harrop, "we would have refused outright, but we feel we need all the industrial assessment we can get."

He explained there was a right of way beside the garage, giving access to the property behind. The application states that a cement block factory will be built on the three quarters of an acre behind the existing garage.

"As soon as this separation is made we lose control over the land," continued Mr. Harrop, "and houses might appear."

The Reeve felt this would not apply to the lot he wanted to give to his family. "If you want to keep two houses that's all-right as long as you don't separate, and try to sell," he opined.

Again Clerk K. C. Lindsay read the section of the by-law giving the Planning Board the right to vary conditions when family gifts are involved.

Finally it was decided at Mr. Greig should come to the next Planning Board meeting.

Stop Both Ways When School Bus on Highway

Beginning September 1, motorists will be required to stop when overtaking and when approaching a school bus stopped with signals flashing when a school bus is stopped on a highway on which the maximum speed limit is greater than thirty five miles per hour for the purpose of receiving or discharging school children, the driver of a vehicle when overtaking a school bus on which the words "do not pass when signals flashing" are marked and two red signal lights are illuminated by intermittent flashes, shall stop the vehicle and shall not proceed until the bus resumes motion or the signal lights are no longer operating.

Likewise when meeting on such a highway other than a highway with separate roadways, a school bus on the front of which two red signal lights are illuminated with intermittent flashes, motorists must stop before reaching the school bus.

Two Priests Officiate

CATHOLIC-PROTESTANT WEDDING A FIRST HERE

FATHER JOHN McMULKIN OF ST. GEORGE'S Anglican Church (left) and Father Otter DeVent of Holy Cross Roman Catholic Church (at right) stand beside Mr. and Mrs. Ronald Lavell following the first Georgetown wedding ceremony in which both a Roman Catholic and a Protestant priest officiated. The wedding took place in Holy Cross Church, June 18th.

Three Argue Coverage Not Sufficient In Land Sale

With three councillors opposed to a sale of industrial land to Howard Tarzwell, R.R. 2, third reading of a by-law closing the sale was delayed a week by council on Monday.

Last week, council offered the 8 acre property to Mr. Tarzwell at \$1,000 an acre with the stipulation that he provide 30,000 sq. ft. of factory space in progressive stages to 1972.

Monday Mayor Gibbons and Cr. Hyde and Smith had second thoughts, saying that the town is not getting the building coverage which has been demanded by others.

Cr. Hyde pointed out that another firm has signed up for 125,000 sq. ft. on a similar property.

"Mr. Tarzwell only promises 8% coverage, less than a third of this," he said. "If we close this deal we leave ourselves open to similar 'uture deals.'"

Mr. Ding all, who appeared for Mr. Tarzwell as his solicitor, said his client is not prepared to negotiate. He wants to have his business interests in Georgetown, he said, but must make his plans and is looking at other locations too. No details of the proposed industry were revealed, other than it would be in the plastics field.

Reeve Hunter warned that other communities are industry-hungry and cited Collingwood where land can be bought for \$400 an acre, with 1/3 subsidy from the government. He said Mr. Tarzwell had looked at land here in 1960, and when he could not acquire it had built a 200,000 sq. ft. plant in Toronto.

Querying a land sale to the Simonyi Brothers which he had opposed, Cr. Harrison was told by Cr. Hyde that this had been arranged by last year's industrial commission and council had been obliged to finalize it.

Reeve Hunter pointed out that General Fireproofing is building 110,000 sq. ft. on 40 acres "with no strings attached!"

"successful conclusion. This is just a pilot plant to get going," he said.

"We're in no position to turn industry away. Sometimes we have to gamble," was Cr. Emmerson's opinion.

Cr. Smith said he could not support the by-law without knowing more about what the industry would be.

The by-law was supported by Reeve Hunter, Deputy Reeve Young, Crs. Emmerson, Harrison and Speight, with the mayor and Crs. Hyde and Smith opposing. (Cr. Ballentine was absent from the meeting).

"That wasn't a council deal," answered Cr. Hyde. "I'm just as anxious as anyone to have Mr. Tarzwell's factory here, but it is also my job to get the best deal possible for the town."

He said another firm which first talked of 27,000 feet ended in guaranteeing 125,000.

Cr. Speight said land had been sold to the Simonyi brothers on their past record and this is a similar situation.

"Anyone who knows Mr. Tarzwell knows that he sees a business deal through to a

Say Guelph Will Become Georgetown's University

At Monday night's meeting of the Rotary Club, members heard about future plans of the University of Guelph.

E.I. (Manny) Birnbaum, president of Hart Chemical Company and Murdo MacKinnon, Dean of Wellington College at the university, were guests.

Mr. Birnbaum is chairman of the Board of Governors and Guelph area chairman for a capital campaign for this local institution of higher learning and it was in this capacity that he spoke to the club.

The university is conducting a campaign to raise \$7,500,000 from industry, labour and residents of the area who will benefit from a full fledged university in Guelph. This includes the Georgetown area, and his comments were of great interest to the Rotarians.

Planned expenditure over a five year period ending in 1971 is \$55,500,000 of which \$48,000,000 will come from government grants. All but ten million will be used for educational buildings, the balance being for roads, utilities and auxiliary services.

The Rotary Club has invited Mr. Birnbaum and Mr. MacKinnon and other university representatives to a special dinner meeting which will be held at North Halton Golf and Country Club on September 27. This will be conducted as a regular club meeting, with some sixty invited guests from the community to learn more about the university which in the not-too-distant future will be called our "local" university.

The Rotary Club is not affiliated in way with the fund campaign, but is taking this opportunity as a community service to acquaint some of the local residents with what is being done on the Guelph campus, and future plans for educational facilities only 26 miles from town.

German Club Planning Big Hofbrauhaus For September 2 & 3

An ethnic-flavoured 'hofbrauhaus' celebration, a star studded stage show, and public dance, are being planned for September by the German-Canadian Club of Halton County.

The club has booked Milton Arena for Friday and Saturday, September 2 and 3, and promises two big performances and dances for local and district residents and visitors to the Steam-Era reunion.

Friday night is called "Bavarian Night in the Hofbrauhaus" and the entertainment includes the Shuhplatters dancing groups from German-Canadian club in Toronto and Hamilton, the "Funkengraje" (East York Precisionettes marching corps) and music by Walter Scholter and his Mus-makers.

The arena will take on the atmosphere of a German "biergarten" for the evening and the entertainers will perform throughout the dance.

The Saturday night dance is headlined by singing star Pat Hervey, a regular vocalist on the Tommy Hunter CBC TV show. Appearing with her will be singer Bruce Dorran, and Master of Ceremonies will be "the Happy Hungarian" Al Boliska, a Toronto radio announcer and TV performer. Music will be provided by Jerry and the Canadians, featuring bandleader and vocalist Jerry Stephens.

Fritz Schicht, who is organizing the dances for the sponsoring club, said admission tickets will be available within the next week from club members.

Family Picnic Ends In Tragedy

A happy family picnic at Cobourg on August 7th ended in tragedy a few days later for two members of the Gummer family.

Mr. Walter Gummer, 16 King St. E. attended the picnic. His deceased brother's wife from Sexsmith, Alberta, had come from the west to attend, as well as her brother and sister-in-law, Mr. and Mrs. Oscar Laver. Mrs. Laver was also a second cousin of Mr. Gummer.

On Wednesday, they were returning to their home near Campbellford when they were involved in a motor accident. The two seriously injured women died later in Peterborough hospital.

Fullard New Manager At Employment Service Office

Mr. H. W. Fullard, a native Montrealer, has recently been transferred by the Department of Manpower and Immigration from Windsor to manage the National Employment Service office serving the Georgetown area at Brampton.

He began his career in Government Service on discharge from the R.C.A.F. in Victoria, B.C. in 1945. He remained on Vancouver Island for a number of years serving at several locations there.

He has had extensive managerial experience in both B. C. and Ontario as well as inspection duties, working out of Ottawa. Prior to his appointment to Windsor, he was in Cornwall engaged in the manpower requirements of the St. Lawrence Seaway and Power Projects. At Windsor, he was active in the Insurance and Employment aspects of the U. S. Canada Auto Trade Agreement as well as extending the agricultural service of the area.

M. Fullard is married and has a son and daughter. His daughter, a graduate of Ottawa Civic Hospital, is presently working at Jasper, Alberta.

HEAT YOUR HOME!

... the modern way... with Natural Gas and Smart's Chinook Automatic Gas Furnace

Clear, silent-burning, dependable natural gas, with the automatic Chinook, will give you abundant heat for the most comfortable winter you've ever known.

The Chinook furnace's high efficiency means low fuel costs. Fully-enclosed, with two-tone-bronze and blue enamel finish, a good-looking unit you can be proud of.

BELL LINES

by Arnold Blachford
your telephone manager

Our Weatherman has certainly come up with a "real old-fashioned" Canadian summer this year. Plenty of heat, sunshine and the occasional thunderstorm. Although vacationers are smiling and it's been perfect weather for the beach or for camping, in most areas farm lands could have done with a few good rains for the thirsty ground and crops. However, for thousands of holidayers the weather has made trips much more pleasant. Just a stroll down Main Street in Georgetown gives an indication of the way Canadians are of the move... licence plates from many provinces are parked along with local vehicles.

With Labour Day weekend only a short distance away I imagine that many of us will again be on the move to enjoy the last long weekend of the summer months. You've a special servant to help make your trip the more pleasant... either long-planned vacations or spur-of-the-moment jaunts to a nearby beach or community. I've found it a good idea when going on a long trip to telephone ahead for hotel or motel reservations. That way, at the end of a day's driving many miles by car, I don't have to begin the search for accommodations. That can be a frustrating experience and can result in added miles of driving during the busy tourist season. Happy travelling — and do drive carefully.

You may have heard or read about our renewed effort to stamp out obscene and harassing telephone calls. I hope none of you ever receives such a call but if you do, here's what to do. DON'T TALK. This type of caller wants and needs an audience. With no response from you there's no encouragement to continue or to repeat the call. HANG UP. Put the receiver back in place quietly if the caller refuses to say anything or at the first obscene word. Nothing is to be gained by slamming the receiver down. In fact, by replacing it normally the caller gains no feeling of satisfaction that he has annoyed or frightened you. CALL US IF abusive or obscene calls persist. Our Service Representatives can call in people we have specially trained to help investigate, identify and work with police in the apprehension of these callers. We are as concerned as the unfortunate victim when obscene or harassing calls are received. It is our business to provide the best possible telephone service for our customers and we are determined to stop deliberately irresponsible and malicious use of the telephone.

In talking over the past few months with Georgetown readers of this column, it struck me that information about the Bell and our connections with other Telephone Companies across Canada might be of general interest.

Next month I plan to tell you the Trans Canada Telephone Story.
