L. M. Brown, Director
Chairs Rose Society Meeting at Don Mills

A Georgetown optometrist, L. M. Brown, a director of the

Canadian Rose Society, was chairman of the program committee for the second meeting and rose show held by the Society in Edwards Gardens, Don Mills on Tuesday Oct. 4.

John Schlon of Elmsere Nursery, Brooklin, spoke on new mutations in roses by using X-ray.

Mrs. Audrey Harris, a noted naturalist and expert photographer spoke on how to photograph roses. She illustrated her talk with slides, and a light box demonstration on how to photograph roses indoors.

FIRE WARNING TO MOTHERS

Two of the most destructive fire hazards in Ontario homes are the careless use and storage of inflammable liquids, and the ignition of cooking fats and oils.

INFLAMMABLE LIQUIDS—Kerosene, paint, gasoline, naphtha and some cleaning fluids give off highly inflammable vapours; they should be used with caution and carefully stored. Keep a carbon dioxide, foam or dry chemical fire extinguisher near their storage area. Oily rags left in cupboards or corners can burst into flames spontaneously. Dispose of them immediately after use.

COOKING-FAT FIRES IN THE KITCHEN—You can reduce the danger of grease fires by keeping your stove clean. Don't let spattered fats build up. Don't leave hot frying-pans unattended. A grease fire can be extinguished with baking soda or smothered with a lid. Keep both handy whenever you're frying.

PROTECT YOUR FAMILY BY TAKING PRECAUTIONS!
