Hallowe'en - A Time For Ghosts, Black Cats And Chico

"CHECO" THE CLOW!

for most people but for George Storey, 24 Park St., it's costume time all year round. George is a clown, not in the sense of popular slang, but a real life clown.

George or 'Chico' as he is better known started clowning thirteen years ago, when he decided to accompany a float he designed for Smith & Stone, in the Lions 1953 Christmas parade. He has been clowning ever since at all kinds of events. Such as company parties at Varain, the Paper Mills, Standard Products, Northern Electrie and Rambler, plus Lions, Kinsmen, Fire Department events, skating parties and Fairs.

The clowning virus has infected the rest of the family too, with son Steven and daughter Susan, sometimes getting into the act with dad. At this time of year, Hallowe'en, Mrs. Storey too, dresses up, and together they have won many first prizes at Hallowe'en costume dances.

"While he spends a lot of time "clowning" he augments his income designing posters, cartooning, and drafting. He designs posters for many an event, at which he turns up. later as a clown. Frequently be is called upon to design crests for sports clubs, and decorate halls for dences and banquets.

"CHICO" THE ROBOT
