Forecast Big Jump

(continued from Page 1)
a gymnasium. "We can't possibly justify a gym in every school," he explained "but one in a senior school would be in use most of the time."

Summing up, Trustee W. Lawson pointed out that it was the Board's duty to provide space for pupils. "An alternative would be erection of portable classrooms at a cost of ten thousand dollars each, which would have to be replaced by permanent buildings anyway". "This is completely new. We are asking approval for a master plan to create kindergartens and a Senior public school system in Esquesing," said Mr. Lawson. "In the long run there will be a saving," he contended, "since there will be no duplication of Grade 7 and 8 costs."

Only Deputy Reeve Wilfrid Leslie opposed the motion to approve the \$428,000 addition. Clerk K.C. Lindsay, questioned later, stated that the total outstanding debt for public school purposes over the last seventeen years up to now is \$445,019. "In other words," said the clerk, "in one fell swoop we are doubling our debt for public school purposes with this extra \$428,000."

WINTERIZE YOUR DRIVING

... as well as your car!

If you're heading home for Christmas this year try to do your driving during daylight.

However, if you do have to drive after dark, you'll be safer if you reduce speed ... leave lots of room between cars ... dim your lights when meeting or following other cars.

Published in the interest of your safety, with best wishes for a happy and accident-free holiday season, by your CIA representative ...
