PROCLAMATION

Co-operating with the many people who devote much time and thought to the youth of this Community and who focus attention on the physical and character building benefits of hockey and to comply with a resolution passed by the Municipal Council, I hereby implement this resolution by declaring the week of January 21st, 1967, as

MINOR HOCKEY WEEK

in Georgetown.

Jos. Gibbons, MAYOR

by Arnold Blachford your telephone manager

Announcement was made a couple of weeks ago of Bell Canada's Centennial Fellowship Program.

For years our Company has been interested in educational projects, from the High School Science Programs to those at University level. And now, as a Centennial Year project, the Fellowship program has been established to support the further development of post-graduate education - one of the urgent needs of the Canadian educational

I was most interested to note that the fellowships will be truly a Canadian program. They are for exceptional Canadian students who plan to do graduate work in a Canadian University or college.

Beginning this year, 1967, this program will be admin. istered by the Association of Universities and Colleges of Canada and will provide four new fellowships each year to assist students to achieve their educational objectives at a post-graduate level. And, there will be no restrictions as to the nature of the studies the candidate may pursue. Preference, however, will be given to those subject areas which appear most directly relevant to the scientific, political, social or economic needs of Canada.

We, at Bell Canada, hope that by commemorating the past 100 years in this way, we are also assisting some of the young Canadians who are the future of our country.

After hearing a brief run-down on the bewildering variety of projects which will help celebrate Canada's Centennial, no one should be able to say "I've nothing tedo" during 1967.

The difficulty will come in trying to select the most interesting of the nation-wide projects in addition to our own local celebrations.

Already the Confederation Train has begun its coastto-coast tour to bring Canada's story to 63 cities and the Confederation Caravans, which tell the same story, will visit 657 more communities.

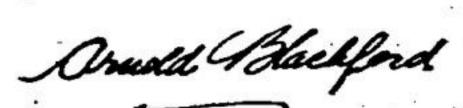

Ten teams-of hardy Voyageurs will follow the treacherous, 3,500 mile cross-country route of the original Voyageurs between Alberta and Montreal.

In the summer 13 teams of mountaineers will climb 18 of the highest unclimbed, unnamed peaks in the Rockles and name one for each province and the Northern Territories with the highest peak designated Centennial

For sports enthusiasts, the Pan-American games will be held in Canada for the first time - in Winnipeg, July 22 to August 7th.

The RCMP will stage special performances of their famous Musical Ride.

And, of course, there is Expo 67 - the fantastic spectacle of Man and His World being held in Montreal from April 28 to October 27. Expo people feel that all roads will lead to Montreal this year as millions of Canadians and their guests make a visit to Expo '67 part of their Centennial Year plans. While you are there, I hope you will also visit the Telephone Association of Canada Pavflion, which is even now nearing completion. There you will see an exciting film "Canada 67". I'll tell you more about that in another column. Sounds like a fascinating year to be a Canadian, and I hope you enjoy just as mahy of the celebrations both in your local area and outside it as you possibly can.
