water heater. No one knows it's there, eviwhen a whole gang of girts decide to take showers and wash their hair and use hot water for all the countless things girls use it for. Then you thank heaven for it. Natural Gasrecovers hot water so fast you can handle the whole gang. Because gas goes to work instantly. There's no warmup time for a gas flame. It's as not as it can possibly get the second it's needed. So, the faster the heat, the faster your water heats up. And that's why your gas water heater delivers hot water at such an exceptionally fast rate. With a gas water heater, no one gets caught cold, Sogoahead Liveitup, with all the hot water you can splash in. You can buy or rent an automatic gas water heater. See your plumber dealer, department store, or gas company. UNITED GAS With natural gas. you can take hot water for granted.
