Has No Utilities**

BERN (AP) — If you run out of gas on Switzerland's newest turnpike your only source of supply will be a police car—at a stiff price.

The 55-mile highway, leading out of this capital toward Zurich, has opened without filling public telephones.

stations, toilets, restaurants or "This is a solid Swiss work of quality without superfluous perfections," said Dr. Hanspeter Tschudi, the interior minister.

There are emergency telephones for reaching the police. If it's gas you need, police will bring you some — at 53 cents a gallon, almost twice the normal price.

"We're expecting at least 20 cases a week to start with," a police spokesman said.

THE STARS SAY

By ESTRELLITA

FOR THURSDAY

Stars continue to be generous and encourage almost any undertaking you may have in mind. Do not, however, consider plans made for the future as final. You may have to do a bit of re-evaluating, make some changes.

FOR THE BIRTHDAY

If Thursday is your birthday, your horoscope indicates the coming year should be marked by notable progress in all your affairs. This is truly a period for the gemini's accomplishment—if, of course, he puts his best foot forward and takes advantage of all the opportunities offered. Between now and the end of December you should be the recipient of many gains along monetary lines, but it would be wise to consolidate gains then and "sit tight" where fiscal matters are concerned until March 1, when you will enter another splendid four-month cycle for increasing assets. Despite such an excellent outlook, however, do avoid extravagance in November and December, and don't engage in risky ventures in early August of between Nov. 1 and the end of next February, or you could offset previous gains.

Occupational interests will be star-blessed for most of the year, but best months for advancement and recognition of past efforts will include September, November, December and next March. Those engaged in artistic or intellectual pursuits should also have a good year, with meritorious accomplishment indicated in early September and throughout December, March and April. Look for some unusually pleasant developments in romantic matters between now and late September; also in October and next April. Most propitious periods for travel: The next four months, also in December and January and April of 1968. Home and family matters should prosper for most of the year ahead, but do try to avoid friction on the domestic scene in early November.

A child born on this day will be highly imaginative and versatile; especially gifted along literary lines.

Becomes Mediator

CHICOUTIMI, Que. (CP) — Marcel Chaput, long-time Quebec separatist figure, has accepted the job of mediator in a proposed union of Quebec's two largest separatist parties. Mr. Chaput, one of the founders of the Rassemblement pour l'indépendance nationale, took the job at the invitation of Gilles Grogro, president of the Ralliement national and independent member of Parliament for Lapointe.
