The evening closed with all singing "For they are Jolly Good Fellows."

Union Head Accuses County as Being Unreasonable

The 14,000 members of the District Labour Council have thrown their weight behind the Halton County Public Health Nurses who are involved in conciliation efforts with county council.

In a letter to Warden William Coulter and the reeves and deputies of Halton, G.G. Heym, president of the Labour Council said there had been an "unreasonable tactic" by county officials.

He urged that county officials use their influence to end the dispute as soon as possible.

In his letter Mr. Heym said that removal of the grey-listing would have removed what "little bargaining power is enjoyed" by the nurses.

The dispute will now go before a conciliation board.

TO PARENTS AND STUDENTS OF Georgetown District High School

TO THE PARENTS OR GUARDIAN RE SUMMER SCHOOL . . . 1967

Central Peel District High School Board is starting a summer school this year for the first time at the Central Peel District High School in Brampton. The purpose of this summer school is to offer additional assistance to students who wish to improve themselves. There are three areas in which they are offering courses.

A. An enrichment course. The purpose of this course is for students who have done well in school but are not able to take the courses offered in their own program. This is an excellent opportunity for students in these fields.

B. Improvement courses are being offered to students who have been promoted but are low in one or two subjects. The students will find difficulty in taking these subjects next year, and are strongly advised to take these at summer school. This would give a firm background to start fresh in September, and the marks earned will be used to revise the student's promotion marks.

C. Make-up courses are offered for those students who are below promotion standard in one or more subjects. This is an opportunity to save a full year in the student's educational life. Marks from these courses will be counted towards raising the student's promotion standard.

The summer school at Central Peel is quite different from the summer school as previously held in other years in Toronto, where some of our students have attended. In Toronto, the purpose of the summer school was to train teachers, and as a result classes were taught by inexperienced teachers only. The Central Peel District High School Board has set this school up for the sole purpose of helping the students. As a result, they have only hired above-average teachers, and in most cases, department heads, to teach in this program.

I am very pleased to say that the Central Peel District High School Board has invited Georgetown District High School to participate in this program, and we have gladly accepted. The summer school will be from July 3 to August 11th inclusive. Examinations will be held on Friday, August 11th. The marks will be returned to this high school and we will inform the students of the results.

Our students attending the summer school must take two, and only two subjects, and the fee for this course will be \$30, payable to the Central Peel District High School Board on the day of registration at Central Peel District High School. Registration will take place at Central Peel District High School, Kennedy Road and Highway No. 7, Brampton, on June 28, 29, and 30. The student must have his or her report card at the time of registration.

The Georgetown District High School Board is offering free transportation to help the students. There will be a bus leaving the high school at 9 o'clock on June 28 to take students to Central Peel for registration, and will return as soon as the students are registered. Anyone wishing to register after that will have to find his own transportation to Central Peel.

The regular classes will be from 9 a.m. to 12.20 p.m. each day. Each class will be of 90 minutes duration, and will consist of 45 minutes of instruction, followed by 45 minutes of supervised study. The bus will leave every morning from the Georgetown District High School at 8.30, and will leave Central Peel District High School at 12.30 each day, and return the students to the high school.

I am confident that the parents and students will recognize the value of this summer school and will cooperate in taking the maximum advantage of this offer.

The following are the courses in the three programs offered.

I. Section A: Enrichment — Two subjects required per student.

The following courses will be offered to students who have successfully completed the year's work with better than average standing. The courses are offered for the purpose of adding educational opportunities not available in the student's regular school course, and for the extension of interests in a particular subject area:

1. Typing
2. Data Processing
3. Drafting
4. Electricity and Electronics
5. Machine Shop
6. Art
7. Music
8. Conversational French
9. Key Punch Operation

(No credits toward a diploma will be given for these subjects)

II. Section B: Improvement — Two subjects required per student.

The following courses will be offered to students who have been promoted, but who had low marks in one or two subjects. The summer course provides an opportunity for these students to improve their background and to gain confidence in the subjects. Examinations will be held at the end of the summer school.
