courtesies and a social time was Georgetown hydro commissions enjoyed with lunch served by and all others who contributed Unit One.

The 6th meeting of 'Norval' and "live better electrically." Sleepyheads' was held at the home of Ulrs. Bob May on Tuesday evening. November 14th. The roll call was answered by 'A finish I will use on my nightgown or pyjamas.' A discussion! followed on the Club exhibit for Achievement Day on January 20th. It was decided that Beth Laidlaw will give the 3 minute commentary and Heather Hyatti will give the commentary for the fashion parade. Leaders, Mrs. May, and Mrs. Harold Collins demonstrated how to make handwork buttonholes, sewing on lace by hand, and slip stitch hem. Lunch was served following the work meeting.

The 7th meeting was held on Tuesday evening November 21 at the home of Mrs. Bob May. The roll call was a suggestion for the Club exhibit or demonstration. The girls worked on their garments and lunch was served by Beth Laidlaw and Heather Hyatt.

Saturday morning November 25 a work meeting was held at the home of Mrs. Bob May and the girls continued work on their nightgowns and pyjanias.

The outdoor skating rink at Norval Public School is progressing nicely. Tom Pettingill and Norman Guthrie and some of the fathers of the school pupils assisted Fred Fendley in preparing the rink. The plastic ground sheet to hold the water from seeping away has been laid and covered with a load of gravel. Mere gravel is needed! before flooding is started but the rink should be ready for skating soon providing the weather will be cold enough. There was no plastic ground sheet used last year and the water seeped away every time there was a thaw. This year should prove to be more successful, especially if a good foundation can be established. Boys and girls are keeping an eye on the progress and the weather man in hopes: of trying out the rink soon.
