**Says Credit Cleanest In Industrial Ontario**  
 "When the Credit Valley Conservation Authority started almost 14 years ago, many people thought it was just another organization that could not get off the ground" Chairman R. K. McMillan said in his annual report to the Authority last week.  
 "This certainly was not the thinking of the dedicated, determined people who worked so hard to make sure this Authority would not fall by the way, but would do everything possible to preserve and bring back many of the things man has destroyed, for future generations."  
 "Many of those men and women have departed, others are unable to be with us tonight as we meet for the last time this year. We still have several of the original members with us and they must feel that their time and efforts have not been wasted."  
 Mr. McMillan went on to thank the members who would not be returning next year and to welcome any new members for "only as a team have we been able to achieve the results which I am sure you should be pleased to be a part of."  
 "It has been a long, hard fight to get our river control program on the way," he continued, "and only through the cooperation of the Conservation Branch of the Dept. of Energy and Resources Management of the Provincial Government has this been possible."  
 "The Credit Valley Conservation Authority is the envy of other organizations for the success we have had and the Credit River is the cleanest in Industrial Ontario. You should be very proud that you have been a part of this Authority."
