BELL LINES

by Arnold Blachford
 your telephone manager.

EACH YEAR ABOUT THIS TIME I ASK FOR YOUR HELP HELPIN' KEEPING TELEPHONE SERVICE UNINTERRUPTED TO YOU AND YOUR NEIGHBORHOOD

To protect our telephone cable from most hazards, we bury much of it underground. Some of it could be buried on your real estate. With the spring months, many of us start home improvement projects — planting trees or shrubs, erecting fences or patios. Before you swing into action with any such plans, could I ask you to give us a call at Bell Canada? We'll be happy to check, free of charge, to see if any cable is located on your property. Just give us a call at 114 and we'll get the information to you as quickly as possible.

If by chance, you should choose a spot above a buried cable all it takes is a hefty thrust of a shovel or a well-sent fence post to damage the cable. This damage could disrupt regular telephone service, long distance, data-sending facilities or even emergency communications lines.

Often in chatting to different subscribers in this area I am asked questions about telephone companies other than Bell Canada. Many people seem unaware that there are many independent telephone companies which serve thousands of subscribers within Ontario and Quebec. In fact, at the end of 1967 there were a total of 241 telephone companies or telephone systems other than Bell Canada serving 425,404 telephones in the two provinces. Largest of these is Quebec Telephone which operates 138 exchanges and serves 125,635 telephones.

Many of the companies are quite small. Indeed, we refer to them as systems, for they have their own lines and telephones but they terminate on the switchboards of other companies, including ours. Usually these small companies are systems serving fishing camps, game clubs, mining enterprises or lumbering camps.

In Ontario, there are 113 telephone companies other than Bell Canada. In Quebec, 129 such companies, included in the figures is one company in Labrador, Newfoundland, which serves 2,400 telephones.

Many Georgetown district residents will recall the Chinguacousy Municipal Telephone System which served about 1200 telephone users until May, 1958, when Bell Canada purchased the operation.

Too, there was the Bolton Telephone Company limited with about 1200 services until we commenced servicing the area in December, 1958, following our purchase of the plant.

As with Bell Canada, growth of the number of telephones served by the independent companies has risen greatly over the years. In 1945 there were 924 independent companies serving 180,343 telephones in Ontario and Quebec. At the end of last year there were 241 independent companies serving 425,404 telephones. We work closely with the companies which provide service within the two provinces in which we also operate. Through our association we all work to provide the best in communications service to our subscribers.
