

PAY THE PIPERS

LILLIAN CLAYTON, LINDA RUDIGER AND TRACEY PORTER, representing Georgetown Girls Pipe Band accept a cheque for \$75 from Lion Bob Clark, first prize money which they earned as the outstanding unit in the recent Lions International Parade in Quebec City. Tracey, at right, is the youngest member of the band at age 10.

Aircraft Guidance Lights Produced by Bliss Firm

A complete line of runway centreline lights, touch down lights and taxi way lights is available in Canada and commonwealth countries from E. W. Bliss Company (Canada) Ltd., in Georgetown. It was announced by Robert W. Yeager, Managing Director.

Bliss-Canada will manufacture these specialized lights at its plant on Guelph Street. The lights were developed by the Structural Electric Products Company (SEPCO), a subsidiary of Connecticut International Corporation of Windsor Locks, Connecticut, which has licensed Bliss-Canada to manufacture and sell the products in Canada and commonwealth countries. All products will be manufactured to Federal Aviation Authority optical specifications.

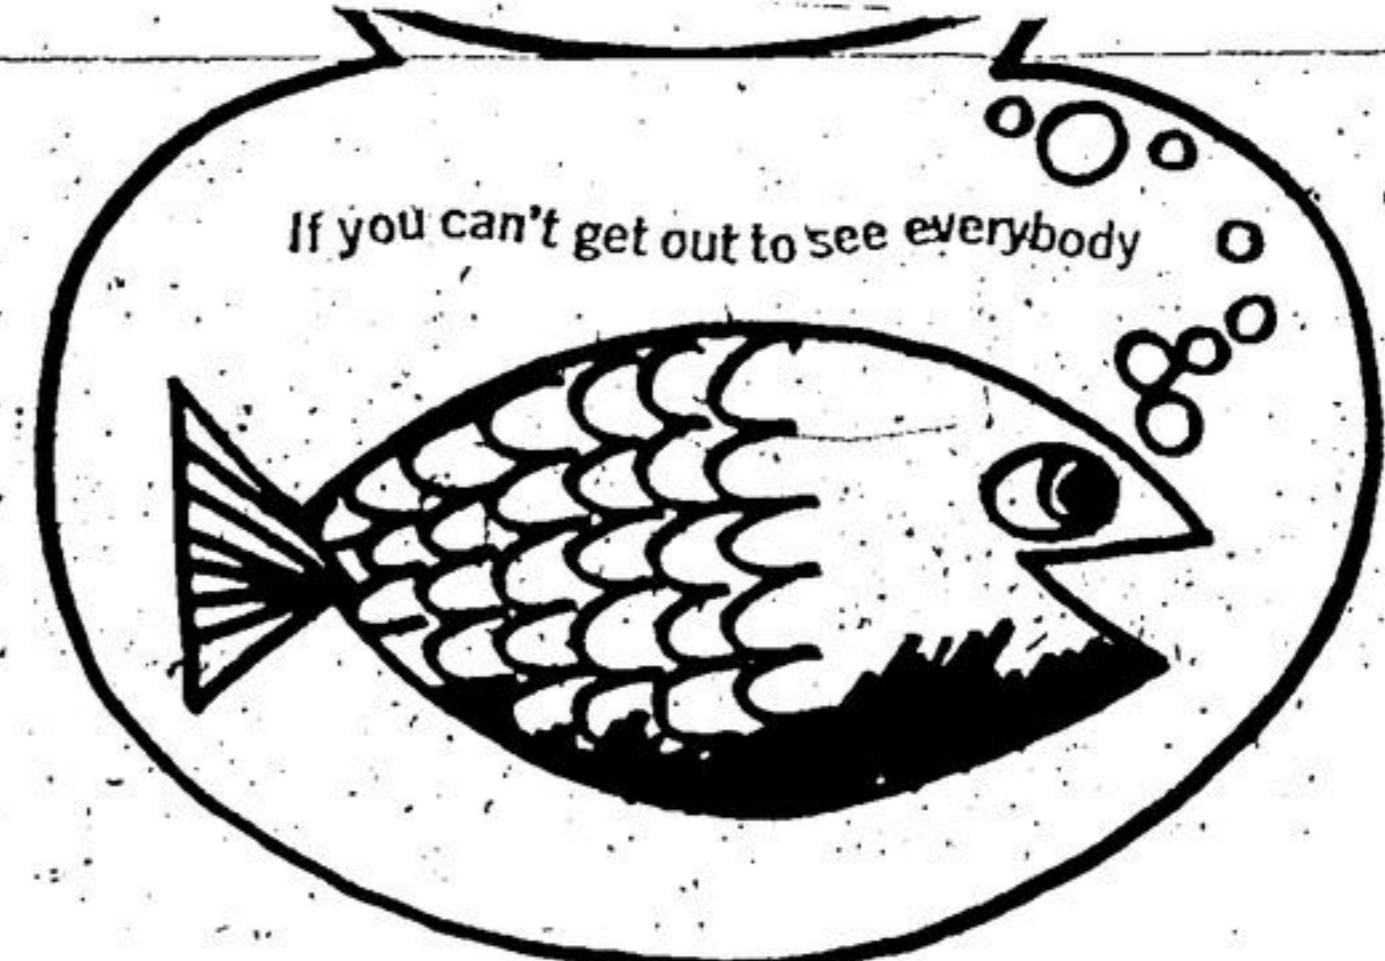

Some of the major world airports which use SEPCO lighting systems are Washington National Airport, Washington, D. C.; J.F. Kennedy International, Tokyo, Japan; Moscow International, Russia; John F. Kennedy International, New York City; and O'Hare International, Chicago, Illinois.

With only slight modification these aircraft guidance lights may be used for ramp parking, on access roads, in automobile parking lots, as lane dividers, and on tunnels and bridges.

Bliss-Canada, a leading manufacturer of municipal traffic control equipment, industrial timers and counters and Game-well fire alarm systems, is a subsidiary of the E.W. Bliss Company of Canton, Ohio, a Gulf Western Company. Bliss is a major manufacturer of metalworking

NORVAL

Many Activities for Norval School Children

The past week was a busy time for Norval Public School students and teachers.

On Tuesday, June 18 the Jr. Grades 1-4 accompanied by their teachers Mrs. McLean and Miss G. Robertson and several high school students had an enjoyable trip to Riverdale Zoo in Toronto.

On Wednesday, June 19 Grades 5 and 6 attended Esquimaux Field Day with Bob Cook and Steven De Sylva the only ones to bring home ribbons. Bob

came second in the Bantam shot put and Steven won 2nd in the Bantam high jump.

Thursday, June 20th Grades 5 and 6 with their teacher Mrs. Hillson accompanied by Mrs. Bushy and some high school students enjoyed a trip to Black Creek Pioneer Village.

The money for the trips was raised by hot dog sales at the school at noon hour about once a month during the year with Mrs. Fred Fendley in charge.

Ontario Hospital Insurance announces NEW BENEFITS

Effective July 1, 1968

In keeping with its practice through the years of increasing benefits wherever possible, the Ontario Hospital Services Commission announces new benefits for hospital out-patient services and essential ambulance services effective on July 1, 1968. These benefits are now available to all residents covered by Ontario Hospital Insurance for whom such out-patient or ambulance services are medically necessary.

New Out-Patient Benefits

In addition to out-patient hospital services already covered (emergency care; follow-up treatment of fractures; radiotherapy; physiotherapy; occupational therapy and speech therapy) the plan now provides further benefits for the use of hospital facilities in out-patient treatment prescribed by a physician. This means that many hospital visits not previously insured, such as use of operating room for minor surgical procedures and the use of hospital facilities in the treatment of medical conditions, will now be covered by Ontario Hospital Insurance.

X-ray examinations and laboratory tests listed as benefits under the Ontario Medical Services Insurance Plan (OMSIP) will not be included in the new hospital insurance benefits. However, these diagnostic services will continue to be covered in connection with emergency out-patient services within twenty-four hours of an accident or when part of hospital out-patient service to complete treatment of a fracture.

The new benefits will NOT cover any charges made by doctors or dentists for professional services rendered at the hospital; the use of hospital facilities for regular injections of drugs, or dental care normally provided in a dentist's office.

Essential Ambulance Service

Ontario Hospital Insurance will now cover, also, the major part of ambulance charges when an ambulance is necessary to take a patient to or from a hospital. The use of an ambulance must be considered necessary by a licensed medical doctor, a central ambulance dispatching service, a designated hospital official or another person authorized by the Commission. In the case of a road accident, a police officer may authorize the use of an ambulance. The ambulance must be supplied by a recognized ambulance service operator (municipal, hospital, and approved private and volunteer ambulance services).

Cost to Insured Resident. The amount payable by the patient for an authorized ambulance trip of 25 miles or less will be limited to \$5.00. For longer trips on land there will be an additional charge of 15 cents for each mile over 25 miles, but no more than \$25.00 will be payable by the patient for any land trip. Where use of an air ambulance is specially authorized by the Director of Emergency Health Services of the Ontario Hospital Services Commission or a person designated by him, the patient will not have to pay more than \$100.00, including the cost of any connecting land ambulance service.

Patient Pays Hospital. The patient will pay his share of the ambulance cost to the hospital which receives him or transfers him to a place of residence — not to the ambulance operator.

(An uninsured person will be liable for the full ambulance charges of \$25.00 for a land trip of 25 miles or less, plus 60 cents for each additional mile. Air ambulance will be charged at the usual full rates for this type of service.)

The Ontario Hospital Services Commission will NOT be responsible for operating or dispatching ambulances. This will continue to be the responsibility of the ambulance operators which, in some cases, will be public hospitals.

The new out-patient benefits are designed to close the gap in protection between insured hospital services and those of the voluntary ambulance services which are not covered by medical plans.

The ambulance benefit will not only ease the financial problem for the patient but will assist in the development of a well-organized ambulance service throughout the province.
