Roach-Fricker Wedding Vows in St. Paul's Anglican Church, Norval

In a double ring ceremony in St. Paul's Anglican Church, in Norval, on August 31st, Mary Kathryn Fricker and Victor Earl Roach were married. Rev. Richard Ruggie performed the marriage and Andrew Dowdham played the organ. White glads decorated the church.

The bride is the daughter of Mr. and Mrs. Gordon Fricker, Englehart, former resident of Georgetown, and the groom is the son of Mrs. Elsie Halliday and the late Leo Roach of Acton.

The couple are living on Longfield Road, Acton.

The bride wore a floor length A line gown of white peau de sole bordered with Chantilly lace on the hem, neckline and sleeves. Her chapel train was attached with a large, peau de sole and lace bow. The three-quarter length illusion veil was held in place by a crystal crown.

She carried a cascade of white cluster mums, white cattleya orchids and stephanotis.

She was given in marriage by her father.

Her attendants were Miss Susan Fricker, Englehart, her sister, as maid of honour; Mrs. Carolyn Langley of Brampton, another sister, as bridesmaid, and Miss Catherine Roach of Acton, sister of the groom, as junior bridesmaid.

They were dressed alike in A line floor length gowns of orange brocade with white and orange daisy trim around the hem. Their headpieces were white organza bows with streamers and flowers. They carried colonial bouquets of white shasta mums and tiny curls of orange chesilles. The bride had made the dresses for the wedding party.

Alfred Roach, brother of the groom from Acton, was best man; the ushers were David Langley of Brampton and Bill Fricker of Englehart.

The reception was held in the parish hall in the evening. The bride's mother wore an A line dress of gold Italian crepe with matching purse and chocolate brown accessories, with green and brown cymbidium orchids. The groom's mother wore a two piece green and gold knit dress with matching accessories and a corsage of golden yellow sweet heart roses.

The couple left on a trip to Montoulin Island and Sudbury, the bride wearing an A-line dress of imported linen in muted shades of gold and green with dark brown accessories and a gardenia corsage.

Guests were present at the wedding from Georgetown, Brampton, Innesville, Norval, Glen Williams, Fergus, Erin, Kirkland Lake, Englehart, New York, Toronto, Port Credit and Acton.

UNICEF CHRISTMAS CARDS HELP WORLD'S CHILDREN

On Friday, Oct. 11 UNICEF launched its greeting card campaign. In addition to being messengers of good will, UNICEF cards represent hope and help for the children of the world.

UNICEF Christmas cards will help needy children and their families face their problems with greater strength and confidence. Every one of the cards UNICEF expects to sell this year will help a hungry, sick or otherwise underprivileged child — somewhere in the world. UNICEF is dedicated to helping children, through their individual governments, in one hundred and twenty countries around the globe. UNICEF activities range from providing treatment for leprosy to establishing milk processing plants from helping to train teachers to equipping health and day-care centres.

This is why UNICEF, the United Nations Children's Fund, deserves all the help and support people can give it. UNICEF works with the government of the developing countries to help them provide milk for undernourished children, teachers to lift them out of illiteracy, nurses to cure their ills.

This year hundreds of millions of greeting cards will be produced, and mailed all over the world. But only some of them will have real meaning for both the person who sends it and the one who receives it.

Among these will be the cards produced by UNICEF, the United Nations Children's Fund. For in addition to being messengers of good will, UNICEF cards represent hope and help for the children of the world.

A UNICEF ad appears elsewhere in this issue.

Quasar..color TV that's worth looking into...

Quasar™ Color TV is the set with the "works in a drawer"

The works: 10 tubeless plug-in mini-circuits for solid-state dependability and fast at-home service. It's so dependable you get a two year guarantee.

Quasar is worth looking into because it's a different kind of Color TV. It's all solid state (except the rectifier and picture tube). That's different. Most of the components (or works) are in a drawer. In the form of 10 plug-in mini-circuits. And that makes Quasar different... because it's a snap to service in your home.

Quasar provides a difference in dependability, too. Because the mini-circuits are tubeless, solid-state devices, designed to work for years without burning themselves out. And that is a big difference. Tubes burn out as they work. In time, they just naturally go dead. Not Quasar! No tubes! But if Quasar should ever need service, there's a pleasant difference there, also. A serviceman can replace a mini-circuit in minutes in your home, not the repair shop.

If you've been looking for something different in Color TV... something better, stop and see the 25" in. picture (measured diagonally; 29 1/2 in.) Color TV. It's worth looking into.

All 82 channel UHF/VHF

Two Year Registered Guarantee | Original owner guaranteed against free exchange or refund of parts (not limited to normal use. Arranged through dealer. Labor and transportation extra.
