### Association Will Help Learning Disabilities

One of the newest organizations in town, the Association for Children with Learning Disabilities will hold their fourth meeting December 11th, in the library of George Kennedy School. Up till now they have met in Park School, but hope to have a larger turnout to see a well-known film entitled "Why Billy Can't Learn." The association has the enthusiastic backing of the teachers of the auxiliary classes, who know of the work of the Ontario Association.

Through their connection with the large organization, the local one has access to speakers literature and help, much needed by the parents.

The parents of such children, some perceptually handicapped, some with minimal brain damage and other learning handicaps find out what can be done and where to take their children for help.

President of the organization is Doug Creswick, and co-president, Mrs. Amy Secord, secretary is Mrs. P. Yashiro.

### DIETERS DONATE

There are 325 calories in a bottle of blood. This is roughly equivalent to the caloric food value of: an average bunch of grapes; or half a grilled lamb chop; or three boiled potatoes; or six slices of bread; or two strips of bacon; or a herring and a half!

So, weight-watchers, on the day you give your next blood donation to the Red Cross, remember you can treat yourself to 325 more calories without disrupting your diet.

### GET ACQUAINTED
