

MOORE PARK FROM THE AIR

THE GEORGETOWN HERALD
THURSDAY, DEC. 12th, 1968
PAGE 9

MOORE PARK, THE WIMPEY HOMES DEVELOPMENT on Highway 7 at Georgetown's western limits looks like so many HO scale houses laid out neatly on a table in this aerial view. The road cutting through the upper left corner is Highway 7. The small court in the foreground is Uplands Court. In the top right corner is the shell of Moore Park Plaza.

'Y' TALK

by Jim Egerton

As I said in last week's column I have more information on the Youth Council. The council will take the place of Youth-In. As most of you people know, Youth-In folded last June. Why? This is a question asked me by the teens in town. Why did it fold? Who is to blame?

Youth-In was an experiment. Could the young adults in town create an organization, have a drop-in centre and run it themselves? The answer was obviously yes! Well then, where did we go wrong?

COMMON SENSE

Care and common sense are essential for driving at any time of the year, but they are even more important in winter.

A hundred years ago, a Pilgrimage to a Turkish fortress in the Holy Land announced a new Revelation of God. His name was Bahá'u'lláh. His "Letters to the Kings" were, without doubt, the most remarkable documents in religious history. Several million people have now responded to His call.

HAVE YOU HEARD OF BAHÁ'U'LLÁH?

Local clergy of all faiths have just received an offer of Bahá'u'lláh's Message. We urge you to investigate it either through your clergy or by writing:

BAHA'I
Box 164
Oakville, Ontario

One word, killed Youth-In — responsibility. In a few years they will be forced to face with it—e.g. family, job. Ah, but I forgot — when you're a teen have fun and don't worry about anybody else. What do you think will happen when you become an adult? When you reach the magic number twenty one, do you think a lightning bolt will strike? Zap — you are a responsible adult. Why not learn how to accept some responsibility? It will be much easier as you progress.

To get back to the Youth

Council, we need your help. Georgetown will be in a district consisting of Brampton, Kitchener, Stratford, Galt and Guelph. There are six districts all combined into one area consisting of southern Ontario and parts of the northern States.

If the council gets off the

drawing board it will be a great honour for the town of Georgetown.

Youth Council will have a drop-in centre and will be involved in community and national work. I have been to one meeting of the regional council in Burlington, and was very im-

pressed by some of the ideas brought out there.

As I said before, and I stress it again, we need your help. Anyone interested in helping—teen or adult — and we do need adults, please contact me. My phone number is 877-6340. If there are any questions

about the Y in town, or complaints about programs, etc., or views on whether Georgetown should have a Youth Council, please write to the Herald's Mail Bag so everyone can read it.

Next week: The changing YM-YWCA.

Natural gas is exciting

at the Windsor Raceway.

Ever watch the trotters going through their paces down at the Windsor Raceway? What with the speed, the colour, the excitement, you may never have noticed that you stay completely comfortable. But you do. They've gone out of their way to ensure your comfort, winter or summer—and they've done it with natural gas. From the clean, fresh air you breathe, to the goodies on your dinner table, natural gas behind the scenes is quietly contributing to your comfort. In fact, the things that gas is doing at the Windsor Raceway can be as exciting to a home-owner as the race itself!

Look at the big Grandstand windows! Natural gas keeps the big 6,000 seat grandstand warmed with clean, filtered fresh air. The windows put it to the test: they stay clean and dry whatever the weather, because the gas heating system doesn't allow frost or frost build-up. No condensation can take place—because gas-heated warm air literally "scrubs" it off!

Look at the modern Kitchens! They're fully equipped with natural gas appliances. The chefs prefer them for speed, precision, economy. Most chefs do, as a matter of fact. Think of it this way: gourmet meals are easier to make with natural gas for cooking.

Glance at the Turf! From grandstand to stables to paddock natural gas heaters maintain an unlimited supply of piping hot water—gallon after gallon of it! Your home calls for only a fraction as much, of course—but gas will give you the same speed and dependability.

Windsor Raceway, like so many big complexes in South-Western Ontario, chose natural gas because only natural gas does so many things so well—efficiently, economically, dependably. And natural gas can do as much for you. Look into it. Talk to your contractor or United Gas.

UNITED GAS
Total Energy
for Total Comfort

ATTENTION HOME OWNERS

If you are located on the same side of the street as a gas line which was installed prior to April 1, 1967...

YOU MAY QUALIFY FOR A

25

ALLOWANCE

...if you change to automatic gas water heating now.

OR YOU MAY RECEIVE AN ALLOWANCE OF UP TO

50

...if you convert to a natural gas central heating system at the same time you convert

to automatic gas water heating. See your plumbing contractor, department store or call United Gas.
