

## Auxiliary Election, Choose Jean Lockhurst President

By Ralph Hawes  
A Christmas message from Reginald Hale, president Branch 1000.  
"At this holiday season, I welcome the opportunity of sending greetings to all members of the Branch and the Ladies Auxiliary. Looking back over the past twelve months, I think it can be said that the time has been kind to the Branch. The undertakings of the Branch have been highly successful. During that time the Branch has acquired an outstanding Pipe Band, has become the sponsors of a progressive Air Cadet Squadron, and has contributed much towards a better community. The extensions of the present building are on the way. I hope to see them completed by the fall of 1960. When completed, the building should be something for every member to be proud of.

To those members who have given so much of their time to the Branch I would say thank you. I know 1960 will be another challenging year but I also know you will all support your Branch as you have in the past. My very best wishes to you all for a Merry Christmas and a Happy New Year.

The services of members who own cars will be appreciated on Tuesday, December 24th when Christmas hampers will be delivered. The pickup place for the hampers is the Cedarvale school cottage. Report to Walter Gray any time on Tuesday and he will have a hamper for you to deliver.

Thursday, December 19th, is the deadline to return your annual Christmas draw stubs. The draw will be made after Santa has completed his ho ho ho's and handed a gift to every child there under ten years of age.

Wednesday, Dec. 18, is the next meeting date of the building committee and consequently we hope to have more information for the members in next week's notes.

The Friday Night Christmas Turkey dart shoot proved so successful and popular that the Ways and Means Committee have decided to hold another Turkey Shoot this Friday, December 20. Joe Poirier will be dashing around giving away turkeys to those lucky ones. The turkey winners last Friday were Miles Bastien, Bernice Dore, Tom Burgess, Gerry Archibald, Bob Nicholson, Doris McCartney, David Bell, Alva Grieve, Gerry Archibald and Floss Tracey.

As most of you are aware David Capperault was at Calgary on the 7th and 8th of this month as a member of the National Standing Committee of leadership and development. We were discussing the above with David earlier this week and discovered that out of the 48 hours he was there, he worked 36 hours. Briefly, this committee will introduce schools of instruction to all levels of Legion; however, the new name will be leadership development programs.

It seems that Ontario Command has little need for guidance for it was in this command the whole thing originated.

### Santa Claus Indiana Style

Two explanations have arisen for naming this small town near Evansville, Indiana, after the modified name of St. Nicholas. About 75 years ago this town applied for a post office and suggested the name Sant Fe. When it was learned that this name already applied to a post office in the state, the people decided to name it Santa-claus changing it in 1928 to the customary words.

A second version says that in 1827, on Christmas Eve, while some residents were discussing in the general store the naming of their town, Santa Claus walked in. Unanimously they called out: "Let's name it Santa Claus."

Whichever explanation is correct, the town has been celebrating in recent years. In summer, tourists stop in to see the museum, the original post office with its fine collection of toys of the past decades. A Santa Claus park, life size Mother Goose figures, Kris Kringle St., and a colored statue of the white bearded saint, twenty-three feet high, weighing forty-two tons - all these make it a rare attraction during the 10 months when Christmas mail is of secondary interest.

## Singleton Gets Appointment As Halton Education Director

Fred Armitage, chairman of the Halton County Board of Education, announced that the Board has appointed James W. Singleton to be the Director of Education for Halton County.

Mr. Singleton, a graduate of Toronto Normal School, the University of Toronto and the College of Education, has experience as a public school teacher and a high school teacher. He has been Director of Education in the Town of Burlington for almost ten years.

Mr. Singleton has held executive positions in many professional organizations such as the Ontario Secondary School Teachers' Federation, the Association of Senior Education and the Association of Senior Education Officials. In addition, he has been president of a number of community organizations.

His experience, over thirty years, has found him active on several special committees for the Minister of Education, as Dean of two of the summer schools for training secondary school teachers, and as an advisor to many educational groups.

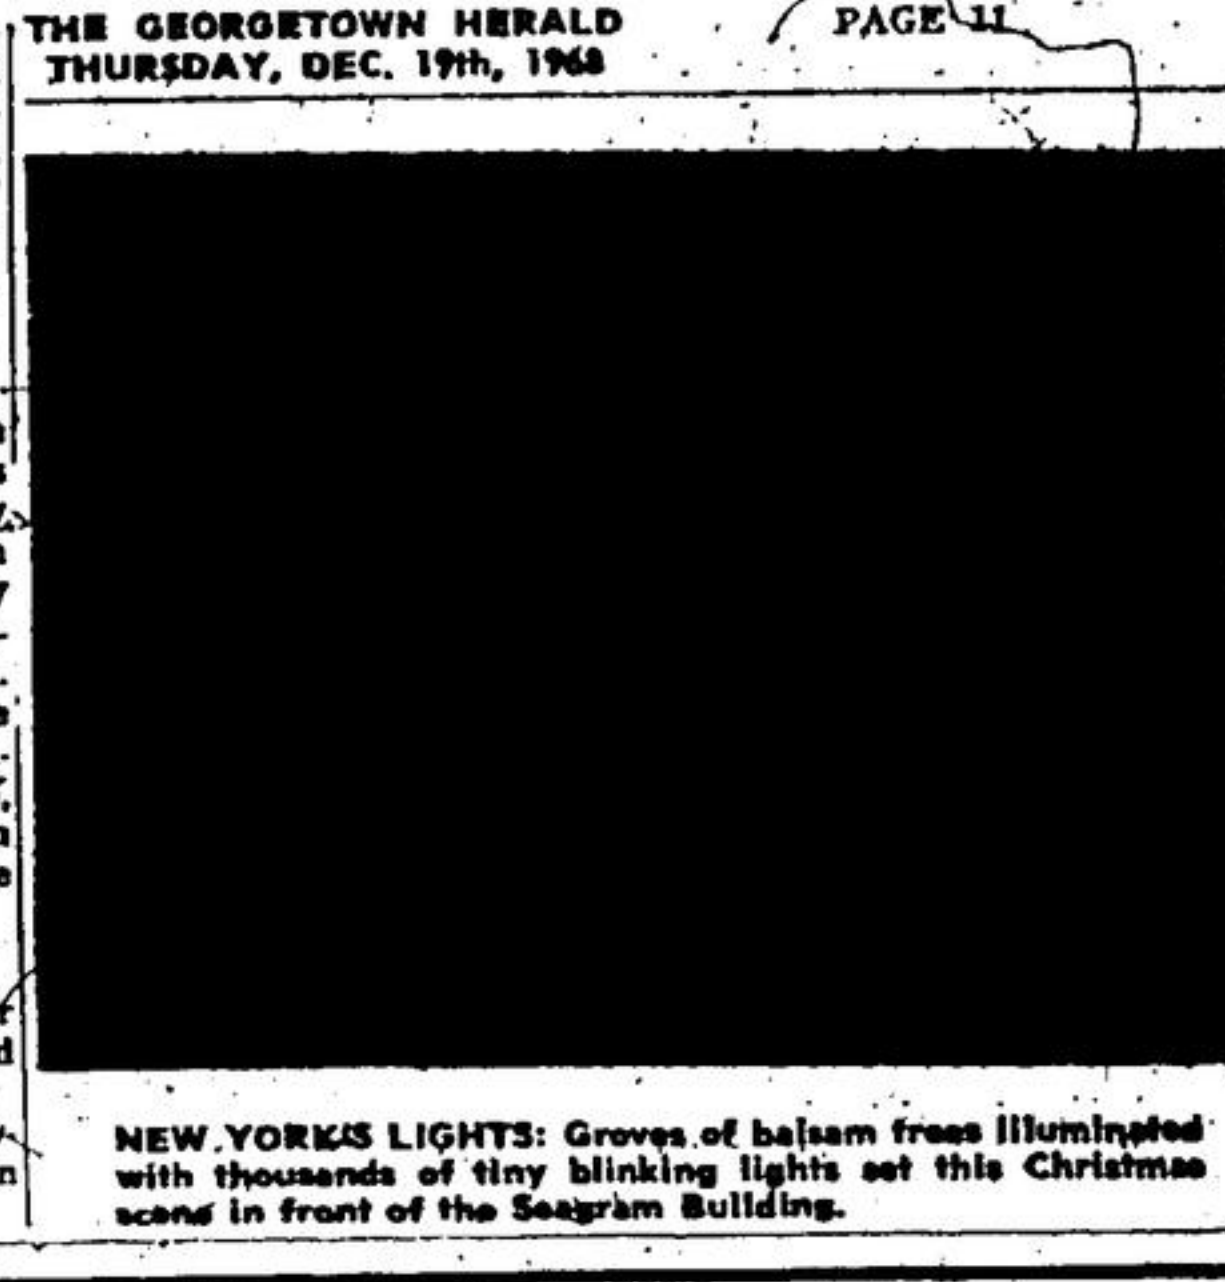

Mr. Armitage expressed the great confidence of the Board members in the new appointment and the hope that the organizational plans of the new Board will progress rapidly.

Mr. Armitage also drew attention to the presentations of Mr. W. L. McNeil of Milton and Mr. A. E. Robinson of Oakville. "We are extremely fortunate to have men of such ability in Halton County," said he chairman. "They will certainly be offered key positions in the new county structure."

## Christmas Trees More Safe, But Use Caution

Christmas trees have been a part of the season's festivities for centuries. Years ago they were lit by candles clipped on to the branches, and while they looked beautiful, they also created a very real fire hazard. Electric lights have made the Christmas tree even more beautiful and much safer. Even so, make sure your wiring is in good shape and you keep the tree supplied with water.

SMILE  
"Do you believe in clubs for women?" a friend once asked W.C. Fields.  
"Yes," replied Fields, "if every other form of persuasion fails."

NEW YORK LIGHTS: Groves of balsam trees illuminated with thousands of tiny blinking lights set this Christmas scene in front of the Seagram Building.
