any size \$2.98

High School Briefs

Georgetown District High School Board invited members of the Advisory Vocational Commission to join them at the board table for what may have been their last meeting, Monday night, Dec. 14, 1948. The school's administration will officially become the responsibility of the new Halton County Board of Education.

At the meeting, the board: Accepted a building committee recommendation and chose to include a thrust type stage in the proposed school addition instead of proscenium type stage at a saving of \$40,000.

Learned from secretary, Ernie Forgrave that approval of the sketch plan drawings for the building project will likely be received from the Department of Education within a week, and that working drawings will be presented to the Department before the end of December.

Directed Barnett and Reid architects for the addition, to use windows from the 1932 wing to replace those in the 1936 wing which have become warped creating a draught problem there. The windows will have to come out of the newer addition where the proposed wing joins the present building.

Revised the transportation contract with Vern Kieby Transport to allow for an extra trip to the town's east end. The change became necessary when the combination of colder weather and continuing home building started a month ago to consistently produce more passengers than the bus could handle.

The revised contract includes three buses at a total daily cost of \$100; one station wagon at \$15 per day; taxi service for one student with a heart ailment at \$3 per day; one bus to Bramlea Secondary School one day per six day cycle at \$15 per trip.

Passed salaries and accounts for November totalling \$97,161.31. Salaries included \$3,572.65 for clerical staff and \$43,235.33 for other staff. Accounts totalled \$49,320.75.

Granted sabbatical leave to John Bellamy of the mathematics department for the 1969-70 school year.

Observed a tradition and presented a past chairman's Gavel to retiring board chairman T. H. Van Sickle, the last man to hold that office. The presentation was made by immediate past chairman E. H. Gorth.

NONE FOR THE ROAD  
Georgetown Police again advise motorists during the forthcoming Christmas activities to make it none for the road. When entertaining during the holiday season be "first a friend then a host."

SMILE  
A mother balancing the books for the school term, reports that her children left five dollars, a sweater and two caps at school, and brought home three colds, the measles and a tortoise.
