Pre-season workouts will get underway before the end of April.

Part of the directors' meeting dealt with the proposed lights for the park diamond. All agreed the lights will be advantageous to both the club and the public since many more fans would be able to enjoy an intermediate baseball game if it got underway at eight o'clock. But few are able to get to the park for a game that starts at 8:30. That's what starting time has been because of the absence of field lights.

Also talked over were various means of financing the club this season and it was felt the later-starting games would bring the crowd up to where gate receipts could cover normal game maintenance costs.

Residents will be asked to support the Giants by purchasing a one dollar honorary membership. A stag nite in the armory sometime within the next two weeks is also being organized. The annual poster schedule financed through merchants' contributions will also be undertaken.

Regular memberships in the club are being sold and interested parties can pick these up by contacting the president, Don Wilkes.

Registration Continues Saturday for Leagues

by Ivan Bird
Registration of players for the 1969 season continues on Saturday morning at the Legion hall.

Fewer boys than expected came along to sign up last week but this may have been due to

other activities in town. However, with schools back in session this week more registration forms will find their way to players and a heavy turnout is likely on Saturday. Prospective players should remember to get their form signed by one of

their parents.

There is to be a general meeting of the association on Sunday morning, March 30, in the Legion hall. All interested persons are invited to attend.

Arrangements for the forthcoming season are to be discussed at this meeting, so you have a point to raise if you wish to attend.

Tom James Takes on Giants Manager Post

Tom James will be the man behind the foul line when Georgetown Giants take to the diamond this spring.

At the second meeting of the club's board of directors Wednesday, March 19, James agreed to take on the team manager's job with the comment that he feels the Giants are better organized this year. "An important part of running a good ball club.

"There are numerous tasks that must be looked after be-

fore and after a ball game, which can't be left to the ball players themselves" James said "and I feel a strong executive is the soundest foundation of a good ball club."

The manager stressed that all positions on the team will be open and said there are players in town who would be an asset should they tryout and catch a berth with the team.

"The more prospective players, the better chance we have of fielding a good team" he said.

Because we don't have to spend a lot of time on this every year,

we can spend a lot more time on this.

Underneath the familiar Volkswagen you think never changes you'll find something quite surprising.

A Volkswagen that does. Over the years, we've made more than 4,500 changes to it.

Every one an improvement. But in spite of all those changes going on

inside, outside, the VW goes on looking pretty much the same from one year to the next.

Which, of course, was the whole idea.

Because that means that this year's Volkswagen won't be next year's has been.

And it also means that when you don't have to work on the way it looks, you can work that much harder on the way it works.

So even though the VW gets harder to improve every year, every year we try harder to improve it.

Which puts us at a bit of a disadvantage compared to the other car makers.

They just have to worry about out-doing each other.

We have to worry about out-doing
