

'Not Scared' Says MPP Snow Regional Government Coming

The provincial government at Queen's Park has not been spooked out of plans for a regional super city in Halton-Peel by the recently public outcry over regional education boards, James Snow (PC Halton East) said this week.

Snow's comment came after Ontario Liberal leader Robert Nixon said that the public protest over regional education board spending "is scaring people away from regional government."

Public Fears

Nixon said: "The public fears, and rightly so, that regional government will be accompanied by its own tax increases."

He said that while his party supports the idea of local government reform through the regional concept, such a program cannot be carried out at increased cost to the public.

He said regional government will eliminate duplication of

administration and services, but it is necessary for the province to determine the cheapest form of regional reform.

Nixon suggested the metro-type regional government proposed for the Halton-Peel area is more expensive than setting up a single tier system which wipes out all lower levels of administration.

Metro System

Under the metro system (called the two-tier concept) the Halton-Peel super city would be governed by one regional council and seven borough units. The borough units would be set up by consolidating the existing municipalities in Halton and Peel into seven areas, one of which would be known as Oakville. The regional or metro council would be elected at large, with borough representation based on population and assessment.

Earlier this year municipal

affairs minister Darcy McKeough said he hoped to have the Halton-Peel regional government in operation by 1971. Officials from both Halton and Peel have held one preliminary meeting with the minister but there have been no further talks.

"There is no attempt to stall the Halton-Peel regional plan because of the heavy protest over regional school boards," said Snow.

Economic Study

He said at this time officials

are waiting for an economic study of Halton and Peel to be completed.

The purpose of this study is to show the effects of regional government on the various areas within Halton and Peel.

"We want to go into this program knowing exactly what costs are involved," said Snow. "Once the study is completed within the next few weeks, further progress toward setting up the two-tier regional plan will be made."

Planetarium, Legislature On Chapel Students' Tour

by Julie Goebel and Denise Reynolds
Grade 8 Chapel Street

On Friday, May 16, anybody walking down Chapel Street West would have been bowled over by a group of enthusiastic students racing for a bus. It was a good day for a school trip. The sun was shining, and although the nearest weatherman had predicted rain showers, there was no sign of them throughout the entire day.

We had been told to arrive at school at the regular time, hold our opening exercises as usual, and then the bus would come. The previously mentioned race occurred when everyone made a dash for the choice seats at the back of the bus.

Our first stop was at a car wash. You must be asking yourself, "Why on earth would they be stopping at such an odd location?" The reason was that we had missed the road we had intended to turn down.

As we proceeded along the highway, we passed a few Air Canada DC-8s. The airline was on strike at the time, and their planes were parked right beside the road at Malton.

When we arrived at the McLaughlin Planetarium, there was a brief wait, then the tour began. The exhibits were many and beautiful. There were exhibits of stars, planets, space capsules, and all the other things related to the universe.

The Star Theatre was fantastic. The show "The Sun and its Family" as shown on the domed ceiling of the planetarium was fabulous! In addition, those reclining seats in the theatre were really comfortable.

An added attraction at the planetarium was our fascination with the odd effect which the fluorescent lighting produced on the colours of our clothes.

Moving on, we ate our lunch in Queen's Park. Some of us were on the ground and some Mrs. Lay by Elizabeth Groszorth ate at the picnic tables. After one of the young students, on we had finished lunch, we had behalf of the pupils of the our free time. We could go anywhere we wanted, within a limited area, as long as we were back at the bus by two o'clock. Among the places visited were

the museum, the Colonnade and City Hall.

We now drove off for the best part of the trip, to my way of thinking — the Parliament Building. Before entering the legislature, we had our picture taken, and were informed that that photograph would be sent to our school within a few days. While outside, several students took pictures of the brightly coloured tulips near the building. We then had a guided tour of the building which lasted approximately one hour.

We then returned home, arriving at 4:40, after an enjoyable and very educational day. Toronto is a great place to visit, but I wouldn't want to live there.

Vickie Lay Students Pass Dancing Exams

Thirty-eight students of Mrs. Vickie Lay were successful in passing Royal Academy of Dancing examinations held in Georgetown on April 11.

Of these the following were Georgetown students:

Primary: Susan Callaghan, Laughtlin Planetarium, there commended; Michelle Ripley, was a brief wait, then the tour began. The exhibits were many and beautiful. There were exhibits of stars, planets, space capsules, and all the other things related to the universe.

Grade 1: Sylvia Savoie, highly commended; Marianne Nemeth, commended; Julie Dixon, pass plus; Kathleen Hewson, pass plus.

Grade 4: Veronica Nemeth, highly commended.

The end of year class demonstration for parents and friends was held on May 31 at Holy Cross auditorium, Maple Ave., conducted by Mrs. Lynn Morrison.

Flowers were presented to Mrs. Lay by Elizabeth Groszorth

Bonnie Bell, Donald Maveal Wed in St. John's Ceremony

A reception at the home of the bride's parents followed the marriage on Saturday, June 7 of Bonnie Susan Bell and Donald Fredrick Maveal. The bride is the daughter of Mr. and Mrs. Horace L. Bell, R.R. 1, and the groom, the son of Mr. and Mrs. Fred Maveal, Lorne Street.

Rev. Robert Scrivens officiated at the ceremony which took place at 7:30 p.m. in St. John's United Church. Organist Bernard Shrubsole played "O Promise Me" and "Ave Maria" while the register was signed. It was a double ring ceremony, with Mr. Bell giving his daughter in marriage.

The bride wore a full length gown of imported French crepe with three-quarter sleeves, shirred bodice and empire waistline with a front bow. Her gown had a cathedral train and she carried a cascade bouquet of pink sweetheart roses.

Mrs. Richard L. Bell, Clinton, was matron of honour for her sister-in-law and wore a full length organza pink printed gown. She carried a nosegay of white carnations and roses and wore pink carnations in her hair. The groom's sister Susan Maveal was bridesmaid, wearing a full length empire gown of pink crepe, a headband of pink and white carnations, and carrying a nosegay of pink and white roses and carnations.

Lynn Christie of Montreal, the bride's cousin, and Stephanie Rourke were flower girls. They were gowned in empire style gowns of white Swiss eyelet with pink sashes, flower headbands and carried nosegays of pink and white roses and carnations.

The bride's brother Richard Bell was groomsmen. Ushers were the groom's brother Bill Maveal, his cousin Jim Richardson and the bride's cousin David Long.

Mrs. Bell received wearing a shocking pink crimpelene coat and dress ensemble, white accessories and a corsage of champagne cymbidium. The groom's mother also received, wearing mauve crimpelene, ivory accessories and a cymbidium corsage.

For a honeymoon trip the bride chose a peach dress and coat ensemble, white accessories and an orchid corsage.

Mr. and Mrs. Maveal will be living in Georgetown where their firm, Maveal Motors. Out of town guests at the wedding included Mrs. H. T. Jolley, the bride's grandmother from Montreal, Mr. and Mrs. W. Maveal, the groom's grandparents from Erin, and friends and relatives from Montreal, Toronto, Acton, Clinton, Pickering and Cannington.

BELL LINES

by Arnold Blachford
your telephone manager

Eight young Canadian university students have been awarded Bell Canada Centennial Fellowships.

Patricia Pirie, Toronto, will receive a fellowship for the third consecutive year. She is working towards a Doctorate degree in Pharmacology at the University of Toronto. Rene Boisvert of St. Foy, Quebec, will receive his second successive Bell fellowship for studies towards a Doctorate in Civil Engineering at Laval University.

Receiving fellowships for the first time are: Miss Paige Holland of Preston, Ontario, working towards a Master of Fresh Literature degree at the University of Toronto; Sister Beverley Mitchell, Vancouver, studying towards a Master degree in Canadian Literature at the University of Calgary; Jean-Marc Rousseau, Montreal, working for a Master in Mathematics at the University of Montreal; Miss Helene Asselin, Montreal, studying at the University of Montreal for her Master of Psychology; David Black, Saskatoon, working towards a Master of Economics at the University of Toronto; and Ronald Wolff, Toronto, for his studies at the University of Toronto towards a Master of Science degree.

Bell Canada's Centennial Fellowship program was established in 1967 and is administered by the Association of Universities and Colleges of Canada in Ottawa, to foster university education at the graduate level. The program provides for up to eight fellowships of \$5,000 each, \$3,500 to the graduate and \$1,500 to the university.

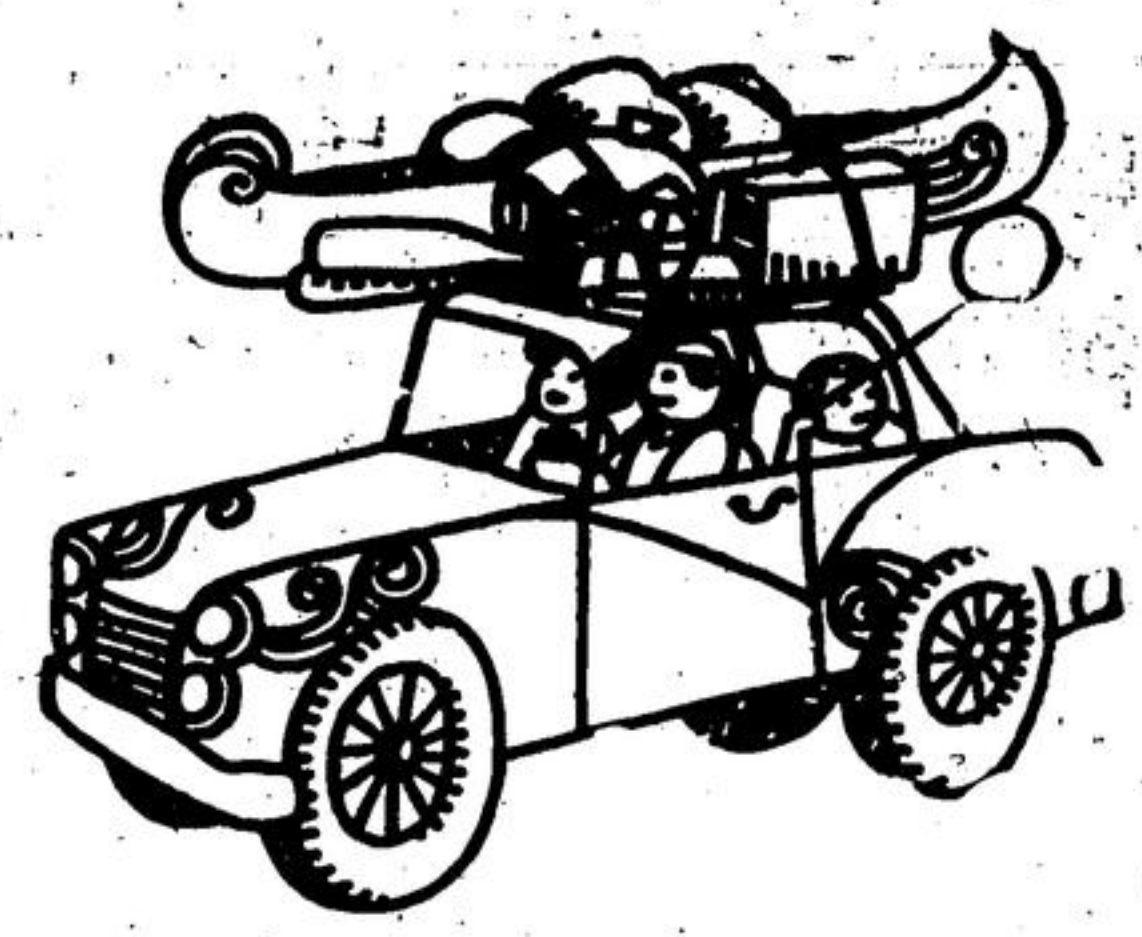

Did you know that of the total number of telephone calls made by Canadians... and we are the world's greatest telephone talkers... only two and a half per cent require a long distance charge. In the United States, the figure is four per cent, in the United Kingdom, 13 per cent, and in France 34 per cent.

Some homes have a "collision corner". That's an intersection where speeding bodies collide as they dash to answer the family's only telephone. Why not enjoy the step-saving quality of extension phones conveniently placed where people are.

Would you pay
\$1.75 a month
to never have to worry
about running out of
hot water?

That's all it costs you to rent a standard size Natural Gas Water Heater. Or, for \$1.95 a month, you can rent an even larger Natural Gas Water Heater.

And if renting is not your style, buying a Natural Gas Water Heater is as simple as making modest payments on your regular gas bill. Whichever way you choose, you're not going to have to worry about running out of hot water.

A Natural Gas Water Heater is easy to install and keeps your home in continuous, abundant supply of hot water because of its tremendously fast recovery.

For the low price you pay, it's difficult to think of an energy source that can heat water faster than natural gas.

If you want the assurance of lots and lots of hot water for a little, little amount of money, run out to your plumbing dealer, department store or United Gas right now.

And never run out of hot water.
