\$60,000 Addition for Administration Building

Once Lived in Town William Anderson Dies

William Robert Anderson, Guelph, died suddenly on June 13 at St. Joseph's Hospital, Guelph.

Mr. Anderson was born in Eden Mills and had been a resident of Guelph for the past 45 years. He had been employed as a route salesman with Imperial Oil and had retired May 1 after serving with the company for 33 years.

He had been a member of Guelph Lodge, No. 258 and the Guelph Lawn Bowling Club. Mr. Anderson had also served as an elder at Knox Presbyterian Church for a number of years.

He is survived by his wife, the former Pearl Frank, a son William R. Anderson Jr., of St. Catharines, three sisters, Mrs. Sada Gilbertson and Mrs. Kate Gilbertson, both of Eden Mills, Mrs. Norma Wylie of Guelph and a brother Elmer Anderson of Toronto.

Also surviving are four grandsons, Michael, James, Peter and Billy.

Construction has begun on a \$60,000 addition to Halton County Separate School Board's administrative buildings.

The project was approved a month ago by the board despite objections by the finance committee.

Space in the present building, formerly offices of the old Burlington Separate School Board, is too cramped for the larger county wide staff.

Several trustees have claimed the educational system will suffer if proper accommodation is not provided for the administration, while others warn the board should cut expenditures where possible.

Michael Noonan, chairman of the finance committee, had warned trustees that Ontario's new county boards have been advised by the deputy education minister not to "try and do everything in the first year."

He was predeceased by two sisters, Mrs. Ella Noble, and Mrs. Irene MacPhail.

Funeral service was held at the George Wall Funeral Home, Guelph.

Burial was in Woodlawn Cemetery, Guelph.

It's good as far as it goes....

The new restraints in 1969 automobiles are designed to reduce injuries due to rear-end collisions. Restraints should help minimize some of the unpleasant effects of these all-too-common crashes, but their causes can be dealt with only by drivers. There are a number of things you can do to help prevent rear-end collisions. Here are some of them.

Don't let yourself be crowded by the driver behind. If someone follows you too closely for safety, encourage him to pass — by pulling off the road if necessary. Signal your intentions — to make a turn, change lanes, or stop suddenly. Signal an intended stop by pumping your brake pedal to flash the brakelights.

Don't crowd the driver ahead — leave at least one car length for each 10 miles of speed. And remember that high speeds and poor weather conditions demand extra

stopping distance. At night, or in rain or fog, allow for reduced visibility or decreased traction.

Limited-access highways have made higher speeds common. As a result drivers need to be especially wary of slow-moving or stopped vehicles. Stay alert — be particularly attentive near controlled intersections where vehicles ahead may be slowing, turning, and stopping. Watch for slower-moving merging traffic. Use acceleration and deceleration lanes to change your own speed when entering or leaving a high-speed highway. Prevent secondary collisions at an accident scene by getting off the roadway quickly if you decide to stop.

Be a defensive driver — constantly watch the traffic around you and plan for any foreseeable emergency.
