Road Conditions Hazardous Huttonville Residents Say

The safety of some 45 families along River Road near the 4th Line West, Huttonville, is endangered by the road conditions there, a delegation of River Road residents told Peel county council last week.

"The completed construction of the new 4th line has caused it to block off the right ramp to River Road so all the traffic turning onto it must go to the left" said Rev. Manuel Marques 14 River Road.

"But along this part of River Road (the approach to the new 4th Line), conditions are hazardous because of a steep hill and a sharp turn, and it will be especially bad come winter."

Marques said that this is a dangerous situation for pedestrians, "particularly the children and mothers with youngsters who must walk along here to get to the shopping area."

County engineer Robert Knight said that though traffic on this part of River Road is "not very heavy, however, certain improvements must be made on this stretch of road, and they will be completed in about one month."

Marques had asked the council to investigate the road conditions. "We felt we had to come to you personally, because we don't believe our councillors have stated our case adequately enough," he said.

Warden Nance Horwood promised the River Road delegation that the road condition would be "looked into."
