Miss Jean Ruddell and Miss Jean Mackenzie reported on a conference they had attended

on Federalism. This is a project of the Canadian Federation with Miss Margaret Hyndman, QC chairman of the committee. This pilot conference dealt with the BNA act as it concerns pollution at the federal, provincial and municipal levels. The people taking part in the study groups were from very diverse fields and very knowledgeable of their subject.

Those attending were requested to go back to their clubs and businesses and study the subject and form small study groups and then hold a public meeting to make their findings available to the public. The Club plans to make a further study of the material obtained. The meeting closed with this

To Smoke, or Not To Smoke
Smoking causes air pollution
And makes one cough to death,
Fills our lungs with toxic agents
And brings unpleasant breath,
Affects our weight and appetite
And colours fingers, too,
Can shorten life itself too brief
At great expense to you.
To break the habit, will one needs,
And resolution made,
Not simply for one's own good health —
Think of the cash you'll save!
