**Snowmobile complaints**

Several complaints about snowmobiles have been received at the police office. Some concerned the way in which the motorized snow vehicles have been operated on the town streets and others were concerned about noise as well.

The police urge anyone who is not certain of the regulations concerning snowmobiles to drop into the police office and check them out. They intend to be more strict in their enforcement of the Motorized Snow Vehicles Act from now on.

When a snow vehicle is being operated on the roadway the driver must observe the rules of the road. He must have a license and insurance.

**Form snowmobile club to promote good will**

Snowmobile owners in Acton and district are holding a meeting at the grounds of the Acton district high school this Sunday afternoon at 2 p.m. to form a club.

A meeting last Sunday attended by 10 snowmobile owners elected Ron Holloway president and promoters hope to add many more names to the roster.

Idea of the club is to counteract some of the actions of a minority of snowmobile owners who are giving the sport a bad name and to promote good will. The club also hopes to be able to explain some of the laws and safety rules regarding snowmobiling.

Everyone interested in snowmobiling is welcome.

While conducting a class experiment under the supervision of Mr. Weiser, grade 12 industrial chemistry teacher, a sodium-peroxide calorimeter exploded and resulted in several stitches to the hand of John Beatty, formerly of Acton.

Two other students, Doris Dyson and George Metkibes of Guelph were treated for possible burns. However, there were no serious effects.
