

NOTES FROM ACTON HIGH

By Mary Ann Freuler
The grade 12 students are anxiously working to raise money for a geography excursion to Washington U.S.A. The trip is to take place during the month of April.

In order to provide such a tour, many activities have been planned to reduce the price. This Saturday, March 7, a car wash is going to be held in the High School Parking Lot. The time is from one o'clock until four. For just one dollar your car will be thoroughly washed and even vacuumed in the inside.

Paul Martindale, geography teacher, is to be raffled off for the occasion. For the price of 15¢ tickets can be purchased. Holder of the winning card will have his automobile expertly washed by this famed teacher of Acton District High School.

Ambitious students have consented to clean out lockers for the small price of 25 cents. I urge the kids who have books falling out every time you don't shut the door fast enough, to take advantage of this offer.

A hot-dog day and a penny sale are planned for the near future. On March 13, a bake sale will be held in Simpson's Sears to raise money for the cause.

The Stelco Steel plant of Hamilton was visited by grade 10 geography students last week. The pupils were divided into several groups and then guided through the main parts of the

factory. The blast furnaces, coking ovens, soaking pits, and stripper cranes were among the things impressive to the class. They were amazed to find that Hamilton supplied 60% of Canada's steel.

Upon leaving Stelco the students visited Dundurn Castle. On the grounds were caged animals and the Stoney Creek Battle Monument, both interesting to the group.

Then, going to Hamilton Hill, the class drew a sketch of the area from the mountain. This completed the students' return to the school.

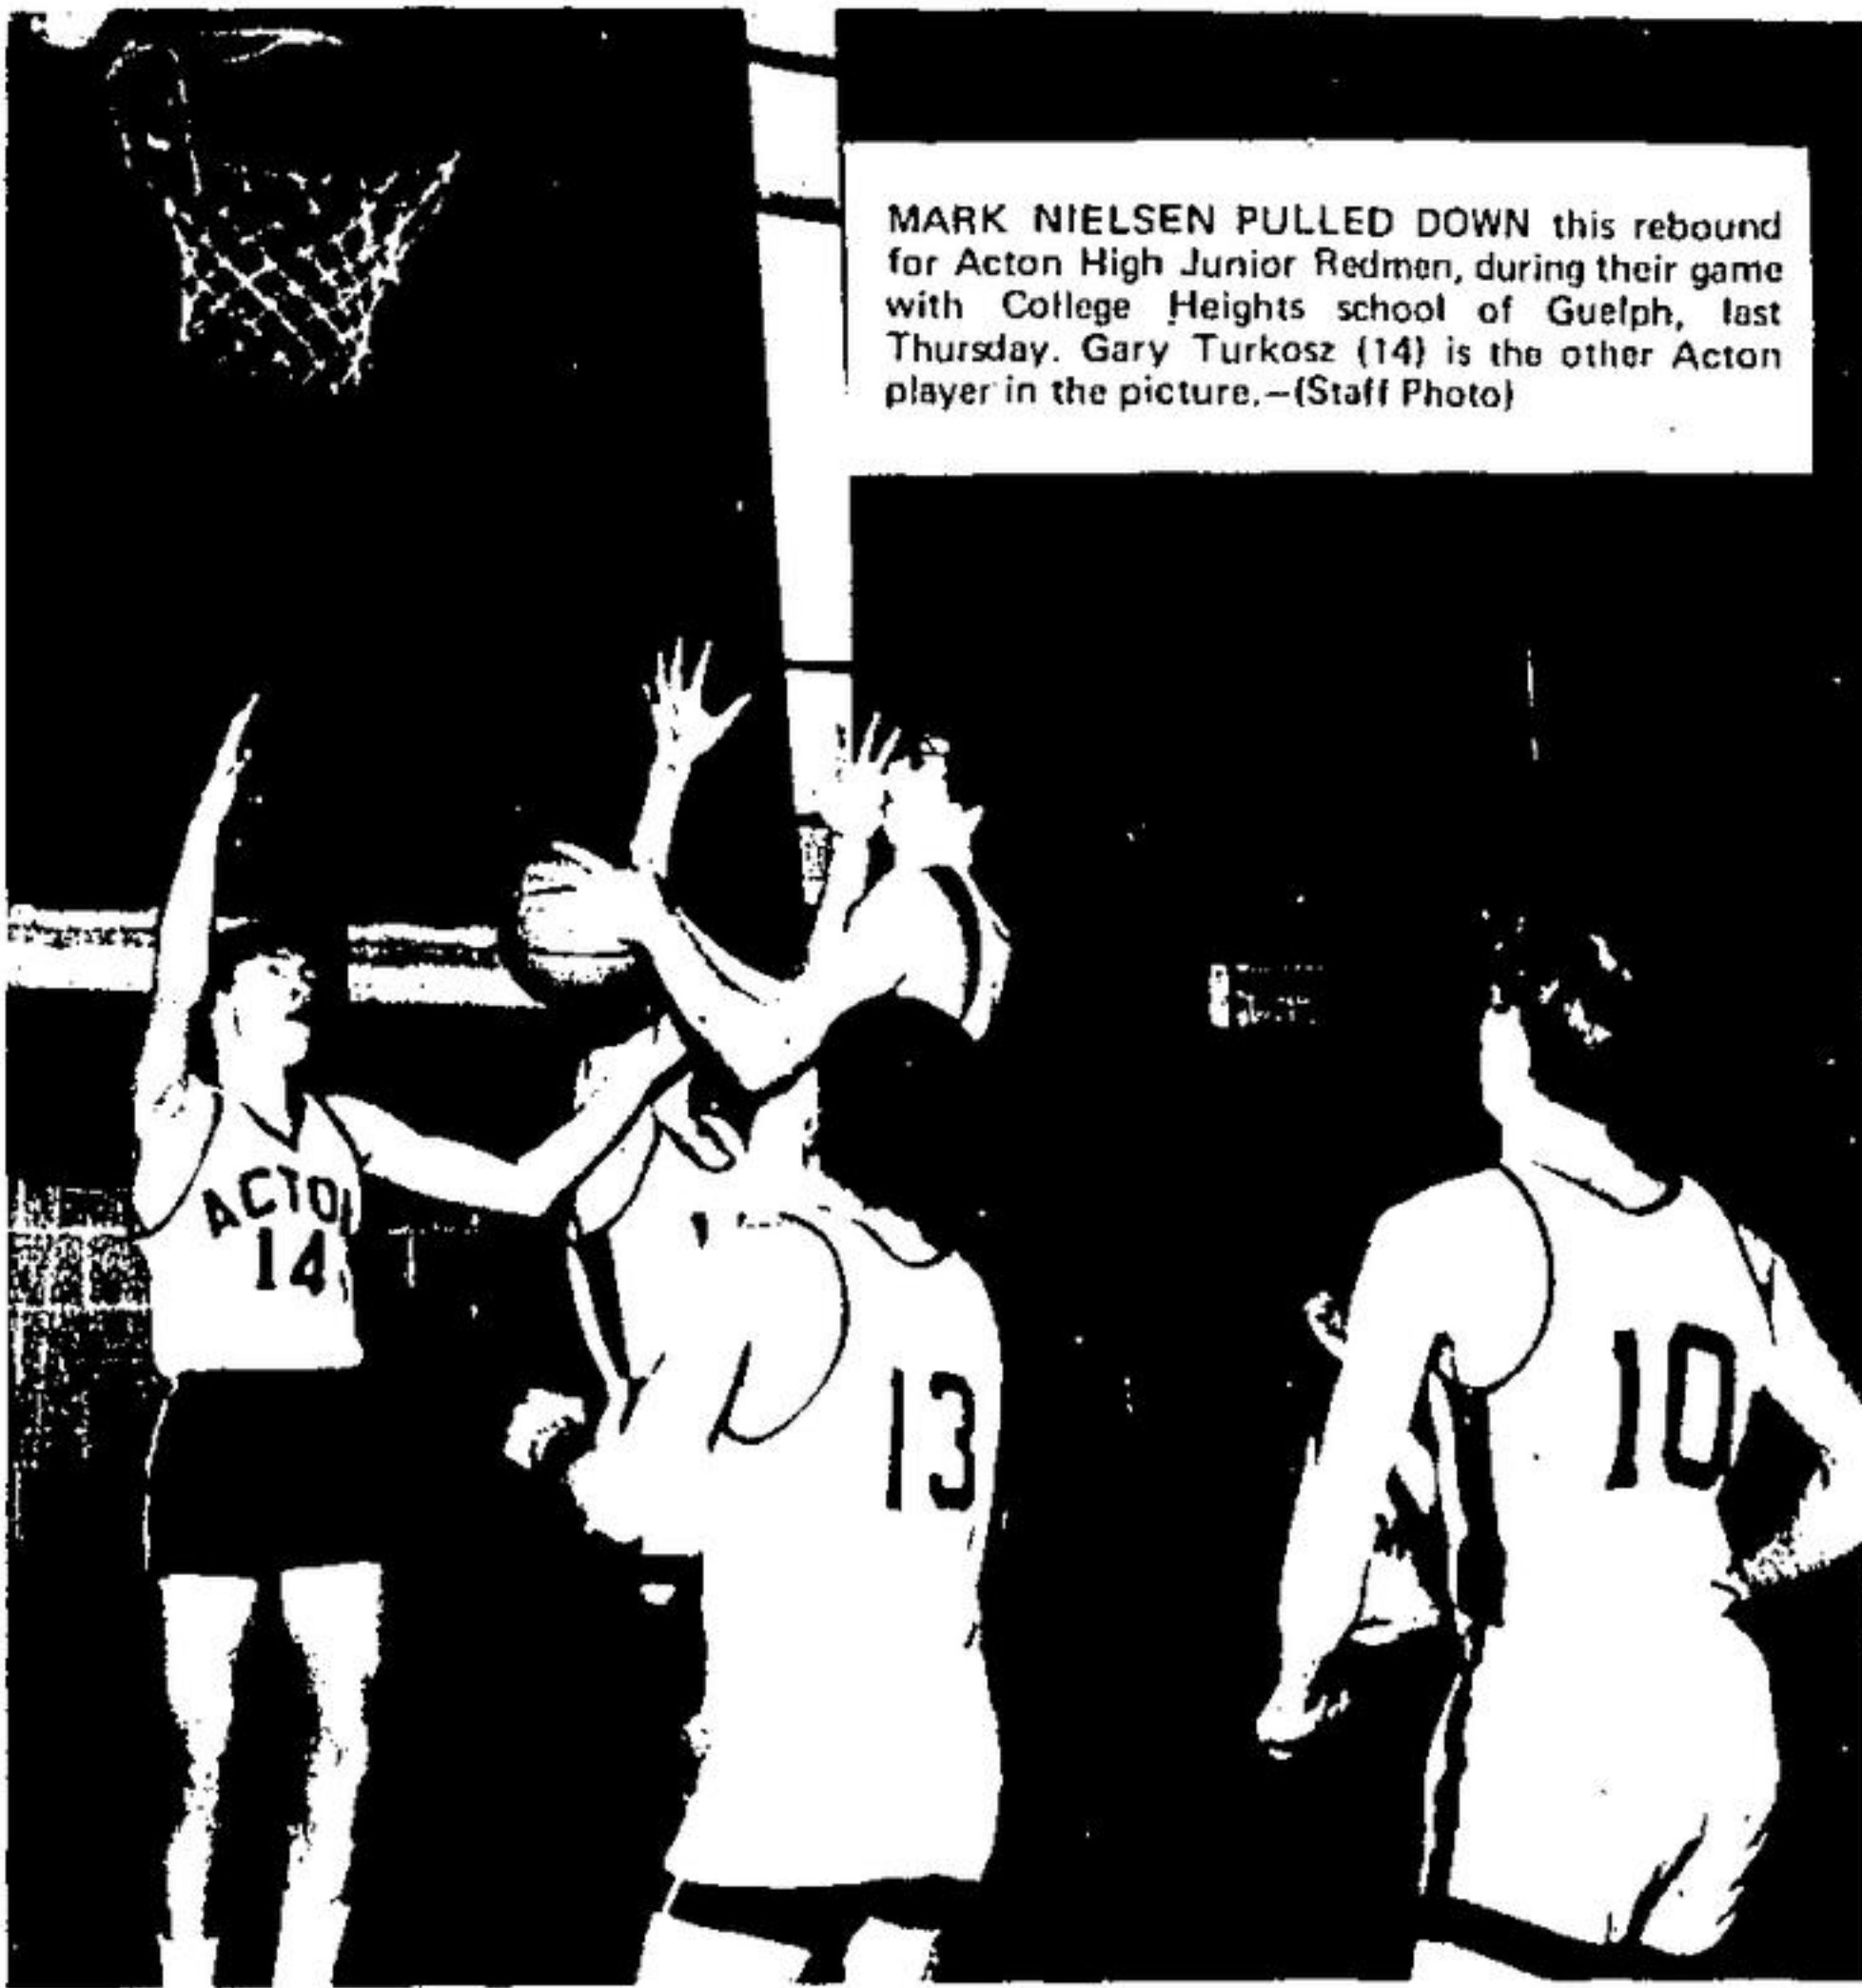

The grade 13 students toured the University of Guelph and University of Waterloo last week. Brian Skerrett accompanied them.

Our boys' Curling Foursome, consisting of Neil Anderson, Barry Buchanan, George McPhail and Rae Swackhamer were unsuccessful in defeating the John F. Ross rink last Monday. This results in the loss of its bid for the CWOSSA championship.

The final basketball game of the season resulted in a loss for both the Sr. girls' and Jr. boys' teams. They competed against the Ontario School for the Deaf.

The boys' hockey team defeated Arthur in a tight game last Monday. The final score was 10-8. If the boys win the final game against Arthur next Monday then they will return with the CWOSSA championship.

Best of luck to the team from all of the students.

MARK NIELSEN PULLED DOWN this rebound for Acton High Junior Redmen, during their game with College Heights school of Guelph, last Thursday. Gary Turkosz (14) is the other Acton player in the picture.—(Staff Photo)

\$1,339,000

Consider selling county administration building

Halton County could be selling its Base Line Rd. Milton

administration offices to the province for \$1,339,000 if a recommendation of the property and office administration committee is accepted by County Council.

Oakville's Deputy-Reeve William Gillies, chairman of the property committee said the provincial Attorney General's office occupies nearly 90 per cent of the space in the building at present and have indicated they want more space for the family and juvenile court.

"Since regional government is coming in," said Mr. Gillies, "we felt it was time to take some action on the building, which is now owned by Halton County. We would sell the province the building, the land it is standing on and one of the parking lots. The county would keep the other 10-15 acres of land it owns which surrounds the building."

"It could be an ideal location for a regional government centre since there is a lot of land there which will eventually be owned by the region," he theorized. The actual selling price of the building would be \$1,000,000 and the province would also assume payment of \$339,000 in debentures still owing on the building.

Built in 1962, the three-storey county building cost Halton \$1,200,000 to put up. About half of the 100 employees there are county employees. Mr. Armstrong defended the need for the third year in the program. He said many students were too young to get regular full time employment after the second year. He pointed out youngsters without full time employment or school facilities would be tempted to become "guests" of the government at a much greater cost.

The projected enrolment for General Brock in 1971 is 962. Dealing with the same subject, the Board approved resolutions urging General Wolfe Special Vocational School be opened in September of 1971. The Board will advertise for a principal effective Sept. 1, 1970 and a Technical Director effective Jan. 1, 1971 for General Brock.

Mr. Armstrong assured the board the teachers involved with vocations classes in the two North Halton Schools would have their services absorbed either in General Brock or in other Halton schools. "There is no intention to terminate employment for anyone," he said.

Students from Sheridan College, Brampton moved into their new quarters on Trafalgar Rd. in Oakville this week. About 400 visual arts students were moved over the weekend into the first phase of the community college's permanent campus at Oakville. Until now Sheridan's 1,300-plus students have been using a converted high school at Brampton. Second phase of the Oakville campus is under construction and when it is finished in September about 1,100 students will be attending classes in Oakville. There are five phases in the building program and eventually 6,000 students will be accommodated there, at a total cost of \$12,000,000.

Guest speaker sings solo at Brownie, Guide banquet

By Marion Patterson
The Brownies and Guides held a most enjoyable Mother and Daughter banquet at the Legion on February 24, guest speaker was Bill Middleton who gave us a terrific solo of "Happy Birthday" as a beautiful slab cake was lit and served and voraciously devoured with ice cream for dessert. This "masterpiece" was a copy of the new 60th anniversary badges that the girls are wearing so proudly on their uniforms in turquoise and white on a diamond-shaped crest. After this dinner, Mr. Middleton filled us in on the history of the Scout Hall and was enjoyed by everyone as usual.

Then during the brownies' brief entertainment, Mrs. Marshall lit a smaller cake which she had made in the same motif as the larger one. One group of brownies did a sweet little comedy skit on "School Days" and the other group sang songs including a well rehearsed version of M-O-T-H-E-R, which pleased everyone who heard it. They also did a very good job of explaining the Brownie Promise complete with Toadstool.

Next date to remember on the agenda of these busy women is our Daffodil Tea which will be held in the Scout Hall on April 25 from 1-4 p.m. and everyone is invited to come to welcome the season of spring flowers officially. At this time, a very beautiful battery-operated sundial type clock will be raffled off to some lucky person.

The "Mothers" would like to take this opportunity to publicly thank the many merchants of Acton stores who sponsored the very attractive page saluting Lord Baden Powell's birthday and the Movement as a whole. Your overwhelming generosity in this matter was deeply appreciated by all those concerned.

Move occupation students to General Brock school

Halton County students now attending occupation classes in Milton and Georgetown High

Schools will be transferred to General Brock Special Vocational High School in Burlington this September.

W. K. M. Armstrong, Superintendent of Special Education and Student Services, told the Halton County Board of Education that while their best efforts were made the two north Halton schools could not offer the variety in occupations classes with only 83 students in the classes. Mr. Armstrong said the two schools were too far away to co-ordinate any program between them.

The Board passed three resolutions that will terminate occupations classes in Halton High Schools this June and students in those classes now will be transferred to General Brock. Other related resolutions will extend the length of the course from two to three years and will allow Waterdown students to attend General Brock under terms of an agreement made by former boards in 1968.

Mr. Armstrong defended the need for the third year in the program. He said many students were too young to get regular full time employment after the second year. He pointed out youngsters without full time employment or school facilities would be tempted to become "guests" of the government at a much greater cost.

The projected enrolment for General Brock in 1971 is 962. Dealing with the same subject, the Board approved resolutions urging General Wolfe Special Vocational School be opened in September of 1971. Kerr on pollution

Pollution will be the topic when M.P.P. George Kerr is guest speaker at a special dinner meeting in the Music Centre Thursday of next week. He is guest of the Y's Men's club for the special and very topical evening.

A LITTLE snow, a little wind, muddling cold did March come in like a lion or lamb?

What develops

Depending on your point of view, Friday is either Professional Development Day or a school holiday.

It means the same thing. The teachers are off to the Ontario Science Centre for guided tours, and the public and high school students all get the day off.

Highway 7 contract

A contract for clearing, grubbing and fencing on Highway 7 between Georgetown and Acton has been announced by Highways Minister George E. Gomme.

It is estimated that Ed Johnston Construction Limited, Sarnia, will complete the \$62,660 job by the end of May.
