canvassers for the Canadian Cancer Society in this area attended Open House at the Princess Margaret Hospital, Toronto on Sunday. During the tour the use of the very large, very valuable machine used for Cobalt treatment and a number of research projects were explained. Films were shown depicting the progressive treatment of one patient from his first visit to his return home cured of cancer. One artisan showed his plastic replacements for facial parts removed in operations. The result was scarcely visible. All seemed spotlessly clean and comfortable.

The April campaign will help provide funds for further research in the treatment of cancer. No one knows who will need treatment in the future.

Communion services will be

held March 22 at 9.45 a.m. in Limehouse Presbyterian Church. About 70 including visitors from Fonthill and Toronto, toured Mr. and Mrs. Jack Roughley's recently completed

house on the sideroad on Sunday.

Mrs. Gisby is convalescing at the home of her sister, Mrs. Ieam, Terra Cotta. We hope she continues to improve in health.
