UNUSUAL AS TWINS are in the horse family, proud mare Velvet is just as concerned as any mother would be when Free Press columnist Wendy Thomson assists the smallest - a 30 lb. buckskin filly to her feet while her twin brother - a 30 pound chestnut joins the family circle for the camera. Read all about it in The Painted Box.-(Staff Photo)

When we started into the final week of my mare's pregnancy, I kept thinking that I should keep some kind of diary, but probably all I'd've got into it would have been "Velvet is getting pregnanter and pregnanter." If I had thought she was ready, last week, she was almost bursting now.

Every night, I'd check her over thoroughly, from one end to the other, sit on a bale of straw for half an hour and watch to see how she was settling for the night, then dash up to the house to call

her. To give her another boost,

Jenny ladled a few spoonfuls of

friend Jenny. And every night after listening to me spiel off all the clinical details, she's say (after a long pause) "Well, it COULD be soon".

Then every morning, 1'd dash down to the barn all expectant, but all there was, was Velvet saying she was hungry. One morning, Gord got there ahead of me, and stuck his head back out to ask if I'd brought Velvet in out of the pasture the night before.

I ran in, and to all appearances there was no horse! Then the dim flashlight caught a flash of white. She had been standing with her head in a corner, and her rump was so black that we couldn't see her till she looked around and showed her white face, wondering what all the fuss was about.

And so we passed the week. Every night there was further signs that that night MIGHT be the night, but every morning it was obvious it hadn't been. The proper due date came and went. On Sunday, worned more by size than lateness, I invited Mac and Jenny down to give me their unprofessional opinion. Jenny took one look, and said "Oh my gosh. Wendy. she's huge!! I don't want to worry you, but .

I sat and worried all through Monday and Tuesday. But when having people look, but just went to bed Velvet down. TV special starts drive

A two-hour T.V. special, designed to involve the home viewer, will be aired Saturday, April 4, from 8.30 p.m. to 10.30 p.m. on CHCH-TV 11.

The program kicks-off the Canadian Cancer Society's April campaign for funds. The special feature will be a panel of experts who will answer questions phoned in (during air time) from viewers who want to know about the cancer disease; symptoms, treatment, research and preventive measures, and the services of the Cancer Society.

There will be interviews with the Health Minister, the Honourable John Munro, and a number of cured cancer patients.

THE EMMAUS ROAD

Bowed down beneath their load,

About God's wondrous plan.

As we walked out upon the way,

With bitter and frustrated hearts,

A stranger who cared not to pass

He talked to us, in loving tones,

We cast aside our weary load,

Of how One, dying, took the blame

For all the sin of man.

On the Emmaus road

All unremarked the night came down,

We wanted to hear more from him,

So now we offered him a bed;

Then, silently as he had come,

And, with exultant hearts, again

To tell the others what we knew,

For we had seen our risen Lord,

Because a stranger, fleetingly,

Without a single star.

And we had journeyed far,

He stayed to break our bread.

He disappeared from sight;

That they might share it, too.

We sped into the night,

The way seemed now not half so long,

No heavy hearts did cloy,

And all was light and joy,

Joined Cleopas and me.

On the Emmaus road,

Joined me and Cleopas.

Sister group for W.I.

Mrs. George Wallace opened the meeting saying if each member of the Institute would contribute one article of clothing to the Unitarian service it would amount to 31,501. This is something each one could think about.

The opening Ode was sung. Mrs. Wallace read a very interesting letter which the members had hoped to have had for the previous meeting. It was from Sandy Point Institute, St. Kitts Island, British West Indies. It told of the formation of their W.I. 25 years ago and the work they do among their people. This, they were told, is not a group interested in farming as we are here. Members hope to be able to keep a correspondence with this sister group so far
