Water, sewage: facts followed by dissension

Rockwood

Many areas of contention contributed to the dissension last Thursday night at what was intended to have been a cut and third open Trustee meeting with two consulting engineers and an OWRC representative on hand to inform the cuirens of the progress and expected rates which would be the result of the managed metallation of the new water and sewage dispusal plant.

R. Barker, the consulting engineers working on the Rockwood project, and Charles Letman, the OWRC representative teamed up with tiustees Ken Murray, Bert Smith, and Hoyd Waddell, to answer questions and present the rate structure.

"The best that money can

board secretary, acting in the buy" is how Harry Jones canacity of chairman, described the sewage leiting introduced Harry Jones and D. treatment plant which will supposedly eliminate all bacterial growth and most nutrients effectively mehiding 95 per cent of the phosphates, and he proceeded to point out from an acreal map of the Rockwood area what course the pipe lines would take through the village.

According to OWRC

tepresentative Charles Letman, the sewage disposal system would cost the ratepayers an estimated \$840,800 of which 50 per cent would be paid by the Provincial Government. The cost of the water lines and system, a further \$551,000 of which more than \$264,000 would be borne by the government with the amount of momes left for the tatepayers, to be paid through their rates over a 40 year period. The proposal to install the

facilities was introduced three

authorities said that 27 per cent of the village wells were polluted and could result in health problems and, according to the Rockwood board of trustees, 44 wells in the village are producing water not fit for consumption. If the sewage and water plan

goes ahead, ratepayers will pay taxes estimated at \$80.27 per year for 40 years for the combined services, or \$38,40 for water and \$41.47 for sewage tacilities

has been extimated and an additional \$9 a month would be charged for sewers. Sewers without water would cost \$1.64 per foot frontage on each bill, "No water can be supplied opposition, should go into the first construction phase pext

Heated controvery ensued when Eden Mills representatives attending the meeting, vocally the proposals and to know why they Rockwood's effluence, Members wasn't the waste damped

without installation of sewer some other disposal method of about the plant and the Framosa facilities to replace the septic the liltered effluence, Members River about which, as one tanks now being used" Charles of the Board of Trustees tried resident said, "H's our river Letman told the village trustees, later to appease such dissenters, loo!" and the plan will now go before by pointing out that already in the Ontario Municipal Board for various ways the water was bring that, if the wwage system is not approval and barring future polluted and that the new installed as soon as possible, it

Concerned that the Provincial Government might withdraw its support if there was a delay in accepting the proposed plans, Trustee Board members rejected the consideration put forth by a newcomer to the village that it of a delegation from their might be were to hold off the go-Village had come to protect ahead on the proposal until after their interest and one of them, the Prenner John Robarts' suggested that, if the sewage report on the Covernment's farm land of Frank Ostrander, system was so near perfect as decision on the Metropolitan totally enclosed and housed Mr. Jones, the consulting Toronto and Region beyond the Conservation Park engineer had assured, why Transportation Study had been released on May 5 at which time it will be determined just where completed deal until the the Village of Rockwood will proposal has gone before the the City of Guelph. The which time any letters of larger areas and hig business.

A water rate of \$5 per month supstream of Rockwood as well? the decision for at least 15 days Other residents outside of so that we can all think about Rockwood, aronous about it" vaid one resident who also pollution problems in the felt that he would be very harmosa River said that they disappointed if Rockwood could foresee the death of a river citizens didn't care about those unless the OWRC reconsidered in Eden Mills and their attitudes

Trustee Hoyd Waddel said system could well affeviate would cost additional monies to problems rather than adding to thire another consulting engineer and also that such delay could, according to the Wellington County Hoard of Health, result in some type of epidemic

As it stands now, if the plans go through, Rockwood will have a prefabricated steel enclosed plant of which there is not another in Capada, as stated by consulting engineer Harry Jones, and it will be situated on the

It will not, however, be a stand in its relative proximity to. Ontario, Municipal, Board, at professional landscape planner desgreement from any source cautioned that, once the sewers will be read and hearings for the and water proposals had been dissenters set up and, not until accepted and installed, the Board establishes the Rockwood could, quite absolute necessity of the project conceivably be consumed by will the O.M.R. give its approval for the Village to have its new "It wouldn't hurt to put off sewage and water system.
