

Band to compete at C.N.E. Sunday

Acton Citizens' Band is busy practicing for the band contest at the Canadian National Exhibition this Sunday, August 30 at 9:30 a.m.

The Band has played two Sunday concerts this past two weeks.

Sectional and full band practices have been held every night with the exception of Friday and

Saturday of last week. Extra practices also are continuing this week.

Contest number this year is the Arlington Overture and Six Bands are entered. They are Paris, Norwich, Port Colbourne, Delhi, Georgetown and Acton.

Acton Citizens' Band has placed third in the contest, the

past two years. Dr. George Elliott, Bandmaster, has been working hard to get the Band in its best form for the Competition. Band Members are also practicing diligently to play the number just right.

Bands entered in this class, and all other classes, will play in the big band shell this year as the north band stand has been demolished.

The bus taking the band to the C.N.E. Sunday morning will leave at 8 a.m. sharp, from the Acton Music Centre.

Award tender to erect Hornby Park pavilion

Esqueving Council passed a motion at their regular meeting Monday night agreeing that the building of a pavilion for Hornby Park is to be a joint project of Esqueving and Oakville.

Earlier in the meeting, council received a letter from Oakville Parks and Recreation Commission stating they had passed a

motion awarding the tender for the construction of the building to McArthur Construction of Georgetown for the sum of \$17,785.

The letter added McArthur Construction have been asked to supply an estimate of installing an additional pressure system for the building.

Georgetown benefits

Georgetown and Southampton were the first two municipalities in Ontario to apply for financing approved capital facilities under a new scheme worked out by the provincial government.

Provincial Treasurer Charles MacNaughton revealed this week that \$15 million has been allocated for 1970-71 to the Ontario Municipal Improvement Corporation to provide a guaranteed market for installment debentures for any approved purpose from all municipalities under 20,000 population.

The province is buying the debentures at a rate comparable to that secured by municipal credit on the public market. The first two applicants had their debentures purchased at 9.5 per cent.

Object of the program is to let smaller municipalities have the opportunity to finance capital facilities at a cost comparable to that achieved by larger centres. The 1970 Budget included an announcement that the government will help smaller municipalities with capital borrowing needs.

Municipalities are encouraged to secure capital financing from other sources if they can get better rates of interest.

OMIC, one of several corporations responsible to the Treasurer for financing municipal, school board and educational projects, was established in 1950. Since then, it has purchased almost \$100 million in municipal debentures under its previous limited authority.

ACTON FIREFIGHTERS used pitch forks as well as hoses, to bring a fire in a shed filled with straw, under control on the farm of Anthony Kri, Saturday afternoon. The fire occurred about 1 p.m. and the farm located on Highway 7 near the Fifth Line of Esqueving.—(Staff Photo)

Saturday fire destroys shed

Acton Firefighters were called to douse a blaze in a wooden shed filled with straw, on the farm of Anthony Kri, R. R. 1 Limehouse, Saturday afternoon about 1.

The fire destroyed the shed and straw and parts of a nearby tree, but Firefighters were prompt in preventing it from spreading and causing any further damage.

The Kri farm is located on the southeast corner of the intersection of Highway 7 and the Fifth Line of Esqueving. Cause of the fire is not known.

Asks Nassagaweya for aid to locate industry in twp.

Providing Nassagaweya Council gives them the necessary approvals Protein Food Corporation could be in business in their new proposed plant on the Fourth Line north of Highway 401.

An associate representing the firm described the business as "an intriguing operation." The firm will take portions of chickens rejected as uneconomical by major meat packers and separate meat from bone.

The meat will be packed in 40 pound boxes and shipped back to the packers for sale and the bone would be crushed and used for protein. President of Protein Food Joe Yarem said India might be a big market for the protein.

Everything is used including the fat. The fat is used for dehydrated soup. While the representatives said their machinery was actually elementary and uncomplicated they noted it was the first of its kind.

Mr. Yarem said the proposed building would be 10,000 square feet on a 15 acre parcel. About 15 people would be employed.

Mr. Yarem asked council to consider re-zoning the land and asked assistance in having Nassagaweya approved as a Provincial Equalization Area. Mr. Yarem said he would ask the Ontario Development Corporation for a \$100,000 loan and expected a total investment of

\$50,000. \$450,000 would be necessary to get the plant operating.

Ontario Development Corporation loans money to firms willing to invest in industry in areas where both the municipality and the province agree would be useful.

Members of council will tour a meat packing plant in Kitchener to see one of Mr. Yarem's machines in operation. The plant he proposes will use two of the machines council is to see.

Mr. Yarem said he was prepared to meet any restrictions council might wish to enforce and promised there was no need to fear any sort of pollution.

Anne says no to proposed Industrial Development Dept.

Nassagaweya Reeve Mrs. A. MacArthur told her colleagues on Nassagaweya council she would not support a move by Halton County to establish an Industrial Development Department.

"We have CORDC fulfilling this function and I can see no reason why Halton should go ahead and form a new department," she said, noting that from Nassagaweya's viewpoint it would be no good.

"It would probably be the same as roads—all in Oakville or Burlington," added Councillor Jim Watson.

"We get more back than what we put into the roads," challenged Deputy Reeve Gordon Agnew.

Reeve MacArthur charged that any money the county put into the

township for roads was only to service the quarries, anyway,

Assault charge

An assault charge has been laid as a result of an incident involving two women contesting the right-of-way over land between Elizabeth Drive and the park.

An Elizabeth Drive woman has been charged with assaulting another woman from Elmore Drive. Both are residents of Lakeview subdivision.

Disputed ownership of the land between the subdivision and the park has been the cause of many complaints to town officials,

and she agreed with Councillor Watson that over the years the township would put more into the county roads budget than they have taken out.

IMMUNIZATION NEEDS
International Certificates of Vaccination in the approved World Health Organization form are supplied free of charge to the travelling public. Yellow Fever Vaccinating Centres which are registered with the World Health Organization are operated at the expense of the Department of National Health and Welfare in 19 major Canadian cities. Information relating to immunization; requirements for international travel is available from the Department of National Health and Welfare.
