## Hoover has a way through washday.

### A way to wash.

Hoover washes with an exclusive side-mounted pulsator that gently but thoroughly surges suds through all clothes. And now we've improved the washing action by adding a lint filter. It's very gentle because nothing touches your clothes but soap and water. You get a very clean wash very quickly—just four minutes for a full wash load.

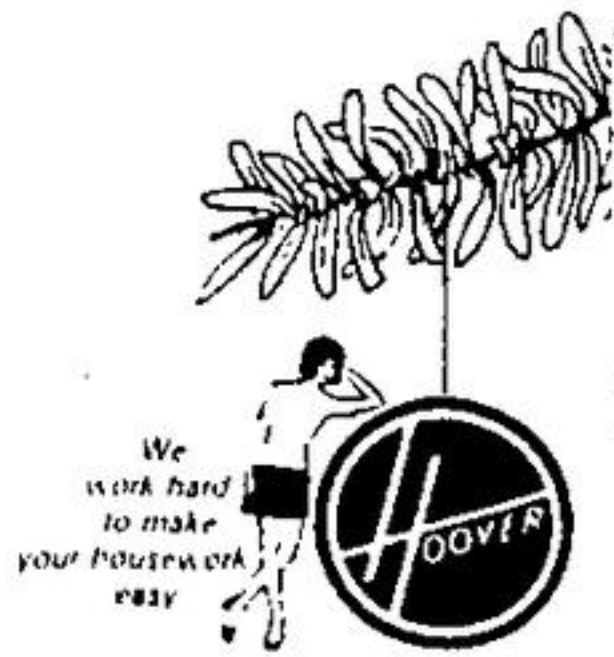

### A way to rinse.

While the pulsator is thoroughly washing one load of laundry, the spin dryer is thoroughly rinsing and spin-drying another load. Because it washes and spin dries at the same time, the Hoover rinse-o-matic can breeze through a family-size wash in about half an hour. And with the new automatic rinse cycle, the job is easier than ever.

### A way to save.

Besides saving you time, the Hoover saves money. It needs no special plumbing or wiring. Needs less hot water and soap than the big automatics. You save space, too. The Hoover tucks away neatly in the corner when not in use, and has a serv-a-top lid that gives you extra counter space. See the Rinse-o-matic at your Hoover dealer's now. In white, coppertone, avocado, and harvest gold. Model O630 white

### and sells.

The Hoover Floor Conditioner is a revolutionary new appliance. It does amazing things on house floors. And on sales floors. On house floors, it dispenses detergent. It power scrubs. It picks up the water, leaving floors clean and dry (something no other floor conditioner can do). It applies wax. It polishes to a bright, hard lustre. It damp mops. It even shampoos rugs. On sales floors, the new Hoover Floor Conditioner is equally amazing. A simple demonstration is so powerful that it takes little more to convince the housewife to buy. Are we saying the new Hoover Floor Conditioner practically sells itself? You bet. Ask your Hoover representative to drop by, so you can take one out for a spin.
