## Watch for floods George Kerr warns

Energy and Resources Management Minister George Kerr has warned all municipal councils to be on the alert to watch for possible flooding along streams and rivers in the province, because of the heavy snowfall recorded this winter.

Persons responsible for emergency flood action should maintain a careful watch on daily weather forecasts for information on the development of adverse weather conditions. More detailed information on both weather and streamflow can be obtained from D. N. McMullen, hydrometeorologist, Conservation Authorities Branch, at 365-6292 and 277-8818 after office hours, Saturdays and Sundays.
