# NOTICE

#### TOWNSHIP OF ERAMOSA

At the request of the Council of the Township of Eramosa, the Ontario Water Resources Commission has investigated the possibility of installing within the Police Village of Rockwood, a sewage works project, to be owned by the Province of Ontario, consisting of a collector system and treatment facilities which will provide a major part of the Police Village with sewage service. It is now proposed to construct such works at an estimated cost of \$890,801, with 50 per cent of the cost, or approximately \$420,400 being paid by the Province as a subsidy. For services provided from these works, it is proposed to impose an estimated service rate of \$1.13 per 1,000 gallons of sewage accepted from the municipality, frontage rates and a connection charge as shown in the third paragraph hereof. The project will consist of the following works initially:

The installation of sanitary sewers to be constructed as follows:

For provision of services from these works, it is proposed to raise the necessary annual revenue as follows: a frontage sewer rate of 40 cents per foot per annum on all lands which abut on or connect to the sewers described above, a connection charge of \$15.07 per annum on owners or occupants, of lands for which a sewage service connection to the sewers is provided, a 180 per cent surcharge on the water bill of domestic users of the system, a surcharge of not less than 180 per cent on the water bill of commercial and industrial users of the system. In instances where there is a connection to the proposed sewage works but there is no connection to the water works, the charge for sewage service normally recovered by the water bill surcharge is to be recovered by the imposition of a foot frontage rate of \$1.64 per foot per annum on the owners or occupants of such lands. This foot frontage rate does not reduce or eliminate any other frontage rates imposed on properties for sewage or water works.

In computing the frontage charges, provision shall be made for the exemption or partial exemption from a foot frontage rate and for the determination of such exemption or partial exemption in the following manner:

(a) A reduction in the case of corner lots at the junction or intersection of streets of 100 per cent of the flankage and a reduction or increase in the case of triangular or irregularly-shaped lots may be made in the foot frontage. rate that otherwise would be chargeable thereon, sufficient, having regard to the situation, value and superficial area of such lots as compared with other lots, to adjust its frontage charge on a fair and equitable basis.

(b) Where a lot is for any reason wholly or in part unfit for building purposes, a reduction may be made in the foot frontage rate that otherwise would be chargeable thereon sufficient to adjust its frontage charge as compared with that of lots fit for building

purposes on a fair and equitable basis.

(c) Where a lot, other than a corner lot, has two limits that abut on streets described above and the size and nature of the lot is such that any or all of the works in such streets are not required, a reduction in respect of the works that are not required, so long as they are not required, may also be made in the foot frontage rate that would otherwise be chargeable thereon, sufficient having regard to the benefit derived as compared with other lots, to adjust the foot frontage rate on a fair and equitable basis.

(d) In the case of lots that because of the nature of the terrain, or the elevation of the sewer, do not derive the same benefit as other lands abutting on the sewer, a reduction may be made in the foot frontage rate which otherwise would be chargeable thereon, sufficient having regard to the benefit derived as compared with other lots, to adjust the foot frontage rate on a fair and equitable

(e) The reduction shall be made by deducting from the total frontage of the lot liable to the annual foot frontage rate so much thereof as is sufficient to make the proper reduction, but the whole of the lot shall be charged with the annual foot frontage charge as so reduced.

On the basis of these levies, a home connected to the water works, and having a frontage of 66 feet, would pay the following amounts annually after connection has been made to the proposed sewage works.

TOTAL

66 foot frontage at 40 cents

Any ratepayer may, within twenty-one days after the first publication of this notice, send by prepaid post to the Clerk of the Township of Eramosa, at the address given below, a notice in writing stating his objection to such approval or to the imposition of the

sewage rates. This notice is to replace an earlier notice which was published in the Acton Free Press on the 19th of August, 1970, and the 26th of

August, 1970. The Ontario Municipal Board may approve the agreement between the Township of Eramosa and the Ontario Water Resources Commission with respect to the provision of the sewage service and the imposing of sewer rates, but before doing so it may appoint a time and place for a public hearing when any objections will be considered, but notice of such hearing will be given only to those persons who have given notice of objection as provided for above.

Plans and estimates may be inspected at the office of the undersigned during business hours.

DATED AT ROCKWOOD first published this and 24th day of March, 1971.

> Mr. L. T. Hindley, Clerk-Treasurer, Township of Eramosa, R. R. No. 1, ROCKWOOD, Ontario.

together with connections from the main watermains to the lot lines, a drilled well and treatment facilities located approximately 27 feet southeast of C.N.R. right-of-way and 311 feet southwest of County Road No. 69 (Main Street), and water storage facilities consisting of a 525,000 gallon standpipe located approximately 350 feet east of Highway Number 7 and 650 feet south of Harris Street.

For provision of services from these works, it is proposed to raise the necessary annual revenue as follows: a frontage water rate of 40 cents per foot per annum on all lands which abut on or connect to the mains described above, a connection charge of \$12.40 per annum on owners or occupants of lands for which a water service connection to the mains if provided, a service rate of \$60.00 per annum per domestic user of the water works system, and a service rate of not less than \$96.00 per annum for commercial and industrial users of the water works system.

In computing the frontage charges, provision shall be made for the exemption or partial exemption from a foot frontage rate and for the determination of such exemption or partial exemption in the following manner:

(a) A reduction in the case of corner lots at the junction or intersection of streets of 100 per cent of the flankage and a reduction or increase in the case of triangular or irregularly-shaped lots may be made in the foot frontage rate that otherwise would be chargeable thereon, sufficient having to the situation, value and superficial area of such lots as compared with other lots, to adjust its frontage charge on a fair and equitable basis.

(b) Where a lot is for any reason wholly or in part unfit for building purposes, a reduction may be made in the foot frontage rate that otherwise would be chargeable thereon sufficient to adjust its frontage charge as compared with that of lots fit for building purposes on a fair and equitable basis.

(c) Where a lot, other than a corner lot, has two limits that abut on streets described above and the size and nature of the lot is such that any or all of the works in such streets are not required, a reduction in respect of the works that are not required, so long as they are not required, may also be made in the foot frontage rate that would otherwise be chargeable thereon, sufficient having regard to the benefit derived as compared with other lots, to adjust the foot frontage rate on a fair and equitable basis.

(d) In the case of lots that because of the nature of the terrain, or the elevation of the sewer, do not derive the same benefit as other lands abutting on the sewer, a reduction may be made in the foot frontage rate which otherwise would be chargeable thereon, sufficient having regard to the benefit derived as compared with other lots, to adjust the foot frontage rate on a fair and equitable

(e) The reduction shall be made by deduction from the total frontage of the lot liable to the annual foot frontage rate so much thereof as is sufficient to make the proper reduction, but the whole of the lot shall be charged with the annual foot frontage charge as so reduced.

On the basis of these levies a home having a frontage of 66 feet, would pay the following amounts annually after connection has been made to the proposed water works.

> 66 foot frontage at 40 cents \$26.40 12.40 Connection Charge 60.00 Service Charge

> \$98.80 TOTAL

Any ratepayer may, within twenty-one days after the first publication of this notice send by prepaid post to the Clerk of the Township of Eramosa, at the address given below, a notice in writing stating his objection to such approval or to the imposition of the water

This notice is to replace an earlier notice which was published in the Acton Free Press on the 19th of August, 1970, and the 26th of August, 1970.

The Ontario Municipal Board may approve the agreement between the Township of Eramosa and the Ontario Water Resources Commission with respect to the provision of the water service and the imposing of water rates, but before doing so it may appoint a time and place for a public hearing when any objections will be considered, but notice of such hearing will be given only to those persons who have given notice of objection as provided for above.

Plans and estimates may be inspected at the office of the undersigned during business hours.

published DATED AT ROCKWOOD first 24th day of March, 1971.

> Mr. L. T. Hindley, Clerk-Treasurer. Township of Eramosa, R. R. No. 1, ROCKWOOD, Ontario.
