### NOTICE

### TOWNSHIP OF ERAMOSA

At the request of the Council of the Township of Eramosa, the Ontario Water Resources Commission has investigated the possibility of installing within the Police Village of Rockwood, a sewage works project, to be owned by the Province of Ontario, consisting of a collector system and treatment facilities which will provide a major part of the Police Village with sewage service. It is now proposed to construct such works at an estimated cost of \$890,801, with 50 per cent of the cost, or approximately \$420,400 being paid by the Province as a subsidy. For services provided from these works, it is proposed to impose an estimated service rate of \$1.13 per 1,000 gallons of sewage accepted from the municipality, frontage rates and a connection charge as shown in the third paragraph hereof.

The project will consist of the following works initially: The installation of sanitary sewers to be constructed as follows:

	SANITARY SEWERS

together with sewers from the main sewers to the lot lines, a sewage pumping station on the west side of Valley Road approximately 300 feet south of Highway No. 7, a sanitary forcemain and trunk sewers to convey sewage to a 200,000 IGPD sewage treatment plant providing secondary and tertiary treatment to be located in Lot 6 Concession IV of the Township of Eramosa.

For provision of services from these works, it is proposed to raise the necessary annual revenue as follows: a frontage sewer rate of 40 cents per foot per annum on all lands which abut on or connect to the sewers described above, a connection charge of \$15.07 per annum on owners or occupants, of lands for which a sewage service connection to the sewers is provided, a 180 per cent surcharge on the water bill of domestic users of the system, a surcharge of not less than 180 per cent on the water bill of commercial and industrial users of the system. In instances where there is a connection to the proposed sewage works but there is no connection to the water works, the charge for sewage service normally recovered by the water bill surcharge is to be recovered by the imposition of a foot frontage rate of \$1.64 per foot per annum on the owners or occupants of such lands. This foot frontage rate does not reduce or eliminate any other frontage rates imposed on properties for sewage or water works.

In computing the frontage charges, provision shall be made for the exemption or partial exemption from a foot frontage rate and for the determination of such exemption or partial exemption in the following manner:

(a) A reduction in the case of corner lots at the junction or intersection of streets of 100 per cent of the flankage and a reduction or increase in the case of triangular or irregularly-shaped lots may be made in the foot frontage rate that otherwise would be chargeable thereon, sufficient, having regard to the situation, value and superficial area of such lots as compared with other lots, to adjust its frontage charge on a fair and equitable basis.

(b) Where a lot is for any reason wholly or in part unfit for building purposes, a reduction may be made in the foot frontage rate that otherwise would be chargeable thereon sufficient to adjust its frontage charge as compared with that of lots fit for building

purposes on a fair and equitable basis.

(c) Where a lot, other than a corner lot, has two limits that abut on streets described above and the size and nature of the lot is such that any or all of the works in such streets are not required, a reduction in respect of the works that are not required, so long as they are not required, may also be made in the foot frontage rate that would otherwise be chargeable thereon, sufficient having regard to the benefit derived as compared with other lots, to adjust the foot frontage rate on a fair and equitable basis.

(d) In the case of lots that because of the nature of the terrain, or the elevation of the sewer, do not derive the same benefit as other lands abutting on the sewer, a reduction may be made in the foot frontage rate which otherwise would be chargeable thereon, sufficient having regard to the benefit derived as compared with other lots, to adjust the foot frontage rate on a fair and equitable

besis. (e) The reduction shall be made by deducting from the total frontage of the lot liable to the annual foot frontage rate so much thereof as is sufficient to make the proper reduction, but the whole of the lot shall be charged with the annual foot frontage charge as so reduced.

On the basis of these levies, a home connected to the water works, and having a frontage of 66 feet, would pay the following amounts annually after connection has been made to the proposed sowage works.

\$ 26,40

A home not connected to the water works and having a frontage of 66 feet would pay the following amounts annually after connection has been made to the proposed sewage works.

\$ 26.40 66 foot frontage at 40 cents 109.24 66 foot frontage at 164 cents 15.07 Connection Charge \$150.71 TOTAL.

Any ratepayer may, within twenty-one days after the first publication of this notice, send by prepaid post to the Clerk of the Township of Eramosa, at the address given below, a notice in writing stating his objection to such approval or to the imposition of the

sewage rates. This notice is to replace an earlier notice which was published in the Acton Free Press on the 19th of August, 1970, and the 26th of

August, 1970. The Ontario Municipal Board may approve the agreement between the Township of Eramosa and the Ontario Water Resources Commission with respect to the provision of the sewage service and the imposing of sewer rates, but before doing so it may appoint a time and place for a public hearing when any objections will be considered, but notice of such hearing will be given only to those persons who have given notice of objection as provided for above.

Plans and estimates may be inspected at the office of the undersigned during business hours.

and first

24th day of March, 1971.

DATED AT ROCKWOOD

Mr. L. T. Hindley, Clerk-Treasurer, Township of Eramosa, R. R. No. 1, ROCKWOOD, Ontario.

# NDP says Tories on the way out

Walter Mulkewich, Halton West NDP Provincial Candidate was one of some 65 candidates from across Ontario who met with Stephen Lewis, party research people and various party officials this past weekend at Bolton. The candidates discussed issues and plotted strategy for the forthcoming provincial election.

As the NDP candidates saw it an analysis of the current political situation in Ontario confirmed that the Conservatives were on their way out and that the New Democratic Party was the logical political alternative in 1971.

Gord Brigden, Ontarlo NDP Secretary reminded candidates that the NDP would have been the official opposition in 1967 but for 1,000 votes. In 1971 the aim of NDP organization and strategy is to win enough seats to form the government.

published this

Stephen Lewis, Ontario NDP leader, reviewed the issues at some length. Automobile insurance and foreign control of the economy were seen to be two of the major NDP issues in the forthcoming election. Recent government moves in the environmental field were seen as creating an impression of action while in fact little was being

Mr. Mulkewich will report the results of this weekend session as well as Halton West strategy sessions to the executive of the Halton West New Democratic Party Association at a meeting on March 31.

# Pollution expert

(Continued from Page 1)

How many? How many industries are using dangerous chemicals?" According to Dr. Pasternak,

information on water pollution can be more readily obtained than data on air pollution. "We don't know how much is being released into the air," he said. A recent test of rain water in the city of Guelph showed the water contained 18 parts per million of cadmium, a violent poison, he said. A test of air in downtown Kitchener over an 18 hour period, made up of both high and low density traffic, recorded a carbon monoxide content just two parts per million less than in New York city. Dr. Pasternak admitted results of the Kitchener

test shocked researchers. "What's going on around Acton is having an effect here, too," he warned. Are certain industries very difficult to charge for air pollution violations?

"It's not black and white", Dr. Pasternak replied. "It's all

Should publicize?

However, he claimed industries should publicize what they're doing to combat pollution. "We don't want dead babies to

be the criterion of what we have

done," he said. Dr. Pasternak confessed ignorance about industrial pollution problems in Acton, a subject which inevitably arose from the discussion.

Chamber president Roy Goodwin pointed out Beardmore and Company have been working with the Ontario Water Resources Commission for a good number of years and thousands of dollars have been spent on solving pollution problems.

Long time resident Fred Wright answered a comment by one Chamber member that "She will not accept the smell from Beardmore's" by pointing out he has lived here many years and has never known anyone to die from the smell yet.

Building Products staffer Kevin Conroy told the meeting his company was forced to spend thousands of dollars to install pollution control devices to combat dust.

Dr. Pasternak was introduced by Alan Eastwood. Past John Shadbolt president presented the speaker with a wine decanter and set of cups produced at White Oaks Ceramics just north of town, to the Chamber's show appreciation.

President Goodwin, a veteran Chamber member described the meeting as one of the most interesting he's ever attended.

### Wins role in Gazebo

Over 20 people tried out for parts in the next production for Georgetown Little Theatre, and Mrs. Pat Kentner of Acton was one of those chosen for a main

The next play is The Gazebo which will be presented in Georgetown April 21 to 24.

There are 10 people in the cast, with seven of them veterans with the Georgetown group. Mrs. Kentner had an important part iast year.

Rehearsals are underway already. It's the final production of the season.

## Accident Monday

A two-car accident at Church and Main St. S. was investigated Monday at 1.35 p.m. by Cons. Paul Brown. Drivers involved were Norman Marshall, Eden Mills, and Paul Forbes of Rock-

### TOWNSHIP OF ERAMOSA

At the request of the Council of the Township of Eramosa the Ontario Water Resources Commission has investigated the possibility of installing within the Police Village of Rockwood, a water works project, to be owned by the Province of Ontario, consisting of a distribution system and water supply facilities which will provide a major part of the Police Village with water service. It is now proposed to construct such works at an estimated cost of \$550,939, with 48 per cent of the cost, or approximately \$264,451, being paid by the Province as a subsidy. For services provided from these works, it is proposed to impose an estimated service rate of 44 cents per 1,000 gallons of water delivered to the municipality, frontage rates and connection charges us shown in the third paragraph.

The project will consist of the following works: The installation of water distribution mains to be constructed as follows:

together with connections from the main watermains to the lot lines, a drilled well and treatment facilities located approximately 27 feet southeast of C.N.R. right-of-way and 311 feet southwest of County Road No. 69 (Main Street), and water storage facilities consisting of a 525,000 gallon standpipe located approximately 350 feet east of Highway Number 7 and 650 feet south of Harris Street.

For provision of services from these works, it is proposed to raise the necessary annual revenue as follows: a frontage water rate of 40 cents per foot per annum on all lands which abut on or connect to the mains described above, a connection charge of \$12.40 per ennum on owners or occupants of lands for which a water service connection to the mains if provided, a service rate of \$60.00 per annum per domestic user of the water works system, and a service rate of not less than \$96.00 per annum for commercial and industrial users of the water works system.

In computing the frontage charges, provision shall be made for the exemption or partial exemption from a foot frontage rate and for the determination of such exemption or partial exemption in the following manner:

(a) A reduction in the case of corner lots at the junction or intersection of streets of 100 per cent of the flankage and a reduction or increase in the case of triangular or irregularly-shaped lots may be made in the foot frontage rate that otherwise would be chargeable thereon, sufficient having to the situation, value and superficial area of such lots as compared with other lots, to adjust its frontage charge on a fair and equitable basis.

(b) Where a lot is for any reason wholly or in part unfit for building purposes, a reduction may be made in the foot frontage rate that otherwise would be chargeable thereon sufficient to adjust its frontage charge as compared with that of lots fit for building purposes on a fair and equitable basis.

c) Where a lot, other than a corner lot, has two limits that abut on streets described above and the size and nature of the lot is such that any or all of the works in such streets are not required, a reduction in respect of the works that are not required, so long as they are not required, may also be made in the foot frontage rate that would otherwise be chargeable thereon, sufficient having regard to the benefit derived as compared with other lots, to adjust the foot frontage rate on a fair and equitable basis. (d) In the case of lots that because of the nature of the terrain, or the

elevation of the sewer, do not derive the same benefit as other lands abutting on the sewer, a reduction may be made in the foot frontage rate which otherwise would be chargeable thereon, sufficient having regard to the benefit derived as compared with other lots, to adjust the foot frontage rate on a fair and equitable

e) The reduction shall be made by deduction from the total frontage of the lot liable to the annual foot frontage rate so much thereof as is sufficient to make the proper reduction, but the whole of the lot shall be charged with the annual foot frontage charge as so

On the basis of these levies a home having a frontage of 66 feet, would pay the following amounts annually after connection has been made to the proposed water works.

\$26,40 66 foot frontage at 40 cents Connection Charge Service Charge TOTAL

Any ratepayer may, within twenty-one days after the first publication of this notice send by prepaid post to the Clerk of the Township of Eramosa, at the address given below, a notice in writing stating his objection to such approval or to the imposition of the water

# Pledges back marathon swim

Making a one-man marathon swim to raise money, Acton's Jim Buckland Monday completed 160 laps in Guelph Y pool for

about \$72. Sponsors backed him, most of them at a penny a lap, to raise funds for the Canadian Amateur Swimming Association and for the Guelph Y. Another district swimmer, Betty Lou Clark of Rockwood, also took this way of raising money.

Oldest swimmer Jim Buckland, who'll be 66 next month, is probably one of the oldest swimmers at the Y. He last June.

He swims at least once a week. His endeavor on Monday amounted to two and a quarter miles of swimming, which he coul kitchen range; 5 piece kitcompleted in one and three- chen set; studio couch; end quarter hours.

Only Actorian He undertook the swim during one of the free swimming periods in Guelph, and he was the only marathon awimmer in the pool at

the time. Quite a number of swim enthusiasts have raised money this way. He's the only one from Acton, however.

Taught swimming Among his sponsors were members of the Acton Y's Men's club and some of his former

swimming pupils. Mr. Buckland used to be chief swimming instructor at Acton Y. He taught at the lake here, and to groups of Acton children who used to go to Guelph Y by bus or

When he decided to seek sponsors for the swim, he had in mind all the co-operation he received over past years. He

About 35 young boys have been attending meetings of the new youth group in the Y.M.C.A. The boys, ranging in age from 12 to 16, need equipment such a table tennis, pool table and equipment, record player, rugs, couches and chairs, and games.

Anything to offer? Call Don Perry, 853-1190 days or 856-4423 evenings.

#### Choraliers on program

When the Toronto Welsh Club celebrated its anniversary two weeks ago, at the Dennison Armouries in Toronto, the Acton Legion Chorallers were on hand to put on the program, with Gil Malcolm as Master Ceremonies.

sing a few numbers at the Sergeants' Mess of the Governor-General's Horse Guards In another section of the Armourles.

## Urge council get in swim

Esquesing council received an invitation from the Georgetown Junior Chamber of Commerce inviting them to participate in a Krazy Boat Race, April 30.

The letter stated that "the scenery is a sight to behold" and urged council to "get in the swim" While Deputy-reeve Russ

Miller said he might enter in a canoe, Reeve Torn Hill flatly declined, saying "I understand the river's not fit to swim in the summer, let alone in the winter."

In the days of radio, we

frequently wondered what the

audience was laughing at, now

we can see . . . but we wonder

why?

would very much like to see Acton youngeters taking swimming lessons again.
