County planning board sought by Acton council

Acton council's shortest meeting on record this year was held on Tuesday night when the complete agenda was disposed of by 8.45 p.m.

Mayor Les Duby was attending the CORDC meetings at Toronto and Reeve Frank Oakes in his capacity as warden was attending the Social and Family Counselling convention at Thunder Bay,

Major topic discussed at the meeting was the passing of a resolution asking the administrative committee of Acton council to confer with the Acton Planning Board to prepare a resolution to be submitted to Halton county council requesting the county to establish a Halton Regional Planning Board.

Halton region Councillor Greer speaking on the subject pointed out this would be a step toward the formation of regional government in Halton county. He was of the opinion each year additional steps in the field of assessment, police, and fire services could be taken toward a county regional form of government.

Councillor Marks' opinion that it was an admirable thought was tempered with the caution that the county may be too small in area for a regional planning

Deputy-reeve McKenzie said the formation of a Halton planning board would be a step beyond the present planning association "which meets once or twice a year and does nothing". (Lack of co-operation between

adjoining municipalities and their planning boards holds up development outside town

boundaries.) Adjoining zonings is sometimes not compatible and negotiations have been prolonged.

County representation

It was reported that the county committee had been established following the submission of the private bill to the legislature. The private bill has been withdrawn and deputy-reeve McKenzie reported the warden had appointed him to the county committee to make recommendations on restructuring of county representation.

Mr. McKenzie said Georgetown, Esquesing and Milton had indicated they were prepared for some change. He suggested the Georgetown proposal would "embarrass" Acton and Acton "would be in a sorry financial mess". He said it would be his objective to preserve a northern identity without a major change in the financial cost to the

community.

A committee will be meeting before the end of June and reporting to the county by September.

The public works and utilities committee reported to council that K. Hyde of R. V. Anderson Associates had reported on a phosphorous removal program at the water pollution control plant. Estimated cost based on present technology was \$60,000.

Ontario Water Resource had advised that all municipalities located in the Lake Ontario drainage basin will require 80 per cent phosphorous removal by Dec. 31, 1975.

Mr. Hyde recommended preparation of design report during the latter part of 1973, the design and approvals in 1974, and construction during the summer of 1975. He recommended providing a budget of approximately \$1,600 in the 1973 budget for the preparation of the design report.

at a cost of \$3,500. A possible bottleneck in the

Fox is shot suspect rabies

> George Lockrey, R.R. 2, Acton, is alerting neighbors in his area of the 4th Line, Erin Township, about possible rabies in wild animals. He shot a fox Tuesday, June 1, near his home about dusk after the animal attempted to attack his German Shepherd dog.

Mr. Lockrey happened to be around when the fox attempted to tackle the dog and he grabbed his rifle sitting next to the door, and hit the fox with his first shot. Although he has received no

confirmation from the lab where the fox carcass was sent for examination, Mr. Lockrey feels the animal had rables and he Is worried about the possibility of other animals, domestic and wild, being infected.

NOTE: Mr. Lockrey phoned the Free Press yesterday to say the lab report indicates the animal was indeed rabid.

Dedicate gates Decoration Day

BRIAN CAMPBELL

DIANE HOLLANDS

An Oakville native, who recently completed his first year in the General Arts course at Sheridan College, Brian was the choice of Parks and Recreation program committee members Peter Marks and Barry Inscoe to head up a new summer recreational program that will provide activity for citizens of all ages. In the past summer activities in Acton have been mostly

confined to children. While in Oakville, Brian was involved in youth council work. He helped organize a drop-in centre and arranged to have prominent guest speakers attend youth workshops. Brian was one responsibilities will be a youth centre, which he expects will open approximately June 17 in the Y.M.C.A. building. Plans call for the centre to be open to youth four nights a week, Wednesday and Thursday from 7 p.m. until midnight and Friday and Saturday from 12 noon until midnight.

A positive program of recreational activities is planned. Brian hopes to get an indication of the types of activities desired, during the first week, when the atmosphere will be informal. A board, which will have youth representatives, is to be set up to help Brian schedule activities

the youth centre. Firm believer A firm believer that experience is the best teacher, Brian would like to see youths get activities going on their own. "I'll leave the program up to them, as long as requests are reasonable,"

He'd also like to see youth from all types of backgrounds at the centre, when it opens. "We want to see all types of

people, not just those with serious problems; it'll be a wholesome environment," he explains. Jackie Lee, an Acton girl, who was instrumental in organizing a

moved to town for the summer. Miss Hollands, also a Sheridan student, intends to spend a great deal of her time at the youth

The children's playground program will operate at the two local parks each weekday afternoon, beginning the first week of July. Mary Ann Freuler and a staff of playground leaders will assist Brian with this phase of the summer program. Miss Freuler has four years' experience as a playground leader. Activities will likely be much the same as previous years, but Brian will be open to any new ideas that will improve

"I expect to have a weekly session with the leaders to discuss any changes or to hear

Swimming lessons

Swimming lessons will be provided for both children and adults by a trained instructor, 19 year old Wendy Bell of Etobicoke. Lessons for adults will be held at the Fairy Lake beach Wednesday, Thursday and Friday mornings. Children's lessons will be held at the wading pool in the afternoon on the same days. The wading pool will be available for open swimming each afternoon between 4 and 5. Brian is also eager to assist

senior citizens' groups with program organization. "If they need help I'll be

His goal is a well-balanced recreation program; something, he says, needed in every com-

munity. Brian will write a report on his assessment of Acton's recreational needs in September, at the conclusion of the summer program. He hopes to find a place to stay in town, but will commute from Oakville until he does.

Snow to attend Open House Hon. Jim Snow a provincial

cabinet minister and MPP for Halton East will officiate at the opening of the brand new Esquesing township works garage Friday night at 8. available to assist them in any
