

Government order

# Must cover garbage at Esquesing dump

APPETIZING WIENERS roasted over the open fire were number one on the bill of fare as Acton Cubs and parents wound up the 70-71 Cubbing season Friday night. —(Staff Photo)

Esquesing Council must submit detailed plans of operation, including provisions for depositing waste at the bottom of the grade, to the Waste Management Branch of the Department of Energy and Resources Management by July 15, if they plan to continue to dump garbage at their present

dump site south of Acton. The Department issued the order in a letter, read at Monday night's council meeting. The letter explained that since plans for a central dump for Milton, Esquesing and Nassagaweya, on Milton Brick property, are not yet finalized, there seems to be no justification

for delaying improvements to the present dump.

**Open air dump**  
"It may be called a sanitary land fill site, but actually it is only an open air dump," the letter said.

Arrangements must be made to cover the complete face of the site, if use of it is to be continued and or abandoned, the letter stated.

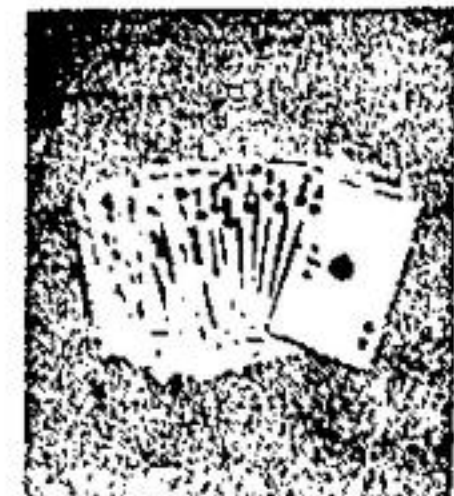

"We won't be able to leave it the way it is," Reeve Tom Hill told council, after hearing the letter read. "We'll have to cover it completely. How we're going to do that I don't know. I certainly would want to get Indusmin's permission before we start taking dirt out of the bottom," he said. The township leases land, on which the dump is situated, from Indusmin.

**Suspects complaint**

The reeve suspected complaints from some township residents prompted the department to inspect the dump.

"Somebody has complained about this, because they never stick their nose into this till somebody complains," he said. "Same as the elm trees down the Fourth Line, somebody complained about them, then they had to look into the complaint," Hill declared.

Council has been told to the proposed establishment of a dump on the Milton Brick land.

## Let's Play Bridge

by Bill Coats

Sometimes it's more important to allow a defender to ruff than it is to draw his trump. This can be particularly true if you need an entry to dummy and the trump suit provides the only sure entry. Just such a hand occurred at the Acton Bridge Club last week. West dealt with North-South vulnerable.

won in dummy with the carefully preserved queen. Dummy's last two clubs completes the contract.

If declarer had drawn three rounds of trump, he will be defeated. He will never be able to score dummy's long clubs because of a lack of entry to dummy.

**Winners**

Last week's winners at the Acton Bridge Club: first, Kay Campbell and Doug Campbell; three way tie for second, Betty Ashley and Duke Wilson, Cam Sinclair and Jack Coats, Ivan Harris and Bill Coats.

**NORTH**

Opening lead—Nine of hearts

North had a strong hand but it seems to diminish in value as East bid even after his one no trump. Having underbid slightly at one no trump, North pushed a little to raise his partner to three spades. South felt that he had just the right cards to carry on to game.

**Won lead**

Declarer won the opening lead with the ace in dummy. He proceeded to draw exactly two rounds of trump, one with the ace and one with the king. If trumps are split, he can finish drawing trump, concede a club and claim ten tricks. However, when East shows out of trump, declarer must leave West with two trump.

East is marked with both the club king and the diamond ace for his strong bidding. The only sure entry to dummy is the trump queen and it must be saved for that purpose. The club is finessed and as expected East wins. Declarer ruffs the heart return and leads club until West ruffs.

**Last trump**

West returns the diamond queen hoping that East has the ace jack, but East has only the ace. Declarer covers the queen with the king and East wins. Back comes another heart which declarer ruffs. His last trump is led, catching West jack and is

FIRE FROM MANITOU set off these flames at the wind-up wiener roast and skit night of 1st Acton Wolf Cubs last Friday. After repeated pleas from Baloo Joan Harrison and assembled cubs and parents, fire descended from a nearby tree and ignited two fires for the benefit of those assembled. It wasn't long until all were roasting wieners over the flames at the picturesque park point jutting out into Fairy Lake. Akela Forbes Cole engineered the fire trick. —(Staff Photo)

# Complains about blast at quarry

As a result of a complaint about a blast at Indusmin Quarries, Thursday, June 24 about 3.45, lodged by Fourth Line resident James Henderson, Esquesing Council will relay the complaint in writing to the company. Councilor Dick Howitt told council Mr. Henderson had also complained to him about the operation of machinery at the quarry late at night. Councilor Howitt suggested perhaps council should start considering a by-law to regulate hours of operation of quarries.

operation of any industry," he said. "Let's have the clerk write the Department of Labor to ask if they've specified any hours of operation for Indusmin Quarries," the reeve suggested. Council agreed with the suggestion, but the reeve had one last word of caution. "Maybe we're sticking our noses into somebody else's business. We might get it chopped off," he warned.

Reeve Tom Hill doubted council has any jurisdiction over hours of operation.

## Obituary

### Miss Coxe in 93rd year

Funeral service was held at the Rumley-Shoemaker funeral home for Miss Agnes Coxe of Halton Centennial Manor, who died in her 93rd year on June 4. Rev. Nicholson of Nassagaweya Presbyterian church conducted the funeral on June 7 and interment was in Fairview cemetery. Pallbearers were John Kerr, Bruce Whan, George Sargent, Grant Allan, Alex Job and Wilfred Kennedy.

Miss Coxe was born in 1879, daughter of the late William and Mary Coxe. She lived over 60 years in Toronto.

# Mixed feelings in survey on regional government

The people of Halton County have mixed feelings on the issue of regional government. In a riding-wide poll released Wednesday by Minister Without Portfolio and Halton East MPP Jim Snow, survey findings showed that of the 3,150 constituents who answered his survey, 1,213 were definitely against a regional government proposal, as opposed to 1,141 in favor and 787 Haltonians undecided.

Halton-only regional set up or a Halton-Peel get-together, 1,781 favored Halton-only, with 665 votes for the Halton-Peel unit.

**Not stalling**

Snow pointed out later that because the undecided vote remained so high on the regional government question, it showed that "many people still don't understand the complications". He also noted the regional government question would "not necessarily be a big issue in the upcoming election". He said the province was "not stalling on regional government, but proceeding the way a proper, thoughtful government would proceed—where it's most needed".

Snow had sent his survey to

approximately 25,000 homes and businesses throughout the riding and noted the 12 per cent response was "well above average for this type of survey".

**School support**

On the question of extension of public support for separate schools to Grade 13, 2,373 wrote back a firm no decision, while 451 agreed with public support for the schools. An overwhelming majority was also against government support to private schools for Ontario residents. The vote was 2,498 against, 521 for and 113 undecided.

On the question of the majority age (for voting, drinking, contracts) 1,351 favored the present age of 21; 1,117 wanted it lowered to 18; and 598 wanted 19-year-olds to have adult rights.

In another question, 2,353 constituents opposed legalization of marijuana with 367 favoring legalization and 329 undecided votes.

The survey was a highlight of Snow's acceptance speech.

# Red Spider Mites can be controlled

**By Burke McNeill**

Red Spider mites are one of the commonest sources of unthrifty evergreens at this time of year. Each summer we are often called to look at evergreens, particularly spruce and cedar, (although juniper is also affected), that are very unthrifty and brownish. In many cases, the plants are overrun with these mites.

The mites are quite small and hard to see with the naked eye but they do leave behind very fine webs that can be seen quite readily.

Red Spider Mite is particularly bothersome to the plants during hot, dry weather and will be more prevalent from now on. They are controlled by Malathion, a chemical readily available at garden supply stands that has a very low toxic effect on humans and animals. Its residual effect on the plants is about seven days so that it must be applied once a week until the mites are under control.

On large trees that are difficult to spray, the mites can be controlled to some degree by washing them down.
