the Elgin St. storm sewer work and Mill St. reconstruction.

Agent here

An unemployment insurance commission agent will be appointed in Acton.

M.P. Rud Whiting made this announcement when he spoke to Acton Rotary club at their meeting last week. He said he knows many people here are experiencing difficulties in obtaining unemployment benefits, and he spoke to Labor Minister Bryce Mackasey about the problem.

He spoke informally of his life as parliamentarian adding he didn't think there'd be an election this fall. Rather, next year, when the government has fulfilled most of its program.

He pointed out most of his days are from 8 a.m. to 11 p.m. and stressed that duties are not just confined to attending sessions of the house.

\$80 million
 He urged Rotarian businessmen affected by the U.S. surtax to take advantage of the \$80 million available from the federal government.

He spoke on the new tax system as related to professional men. He was introduced by Scotty McCristall and thanked by Bill Pendleton.

A \$50 donation from the firefighters for scouting was reported.

read for the Golden Age Club accepting the \$150 grant.

A carload of councillors planned to meet to attend the Halton clerks' seminar at the Mohawk Inn this Thursday.

A letter from Hamilton Chamber of Commerce, outlining night courses in municipal affairs, will be circulated to all boards and commissions.

Elizabeth sidewalk
 Learning the Elizabeth Dr. would be surveyed this week for sidewalks, councillor Marks asked members of the public works committee of council "How come it has taken four or five months to get surveyors to look at it?"

Councillor Greer explained that this way "we are taking the bull by the horns." There were certain documents council was not aware of.

Said councillor McKenzie "When you see the stakes, you can anticipate problems." He added there has been a "tangle" since the subdivision started but the committee has had legal advice and is moving properly.

Car strikes guide posts

An Orangeville woman was taken to Georgetown District Hospital and treated for leg, arm and back injuries following a collision with two guide posts at the junction of Hwy. 7 and 22 Sideroad, Esqueving.

Sharon Smith, 21, of Orangeville was injured in the accident. Her automobile sustained \$600 damage. Milton OPP investigated.

Precision rider killed at Simcoe

Tragedy struck Friday night during the grand finale of the OPP Golden Helmets precision motorcycle team display at Simcoe.

Thousands of spectators, many of them children, watched in horror as two of the machines collided, killing one constable and injuring three.

Const. John Cameron Verral, 32, of 45 North Service Road, Oakville, was dead on arrival at Norfolk General Hospital.

Good condition
 Admitted to Norfolk General Hospital and reported to be in good condition this morning with head injuries is Const. Richard Coult, 28, of R.R. 1, Fort Erie. He is stationed at the Fort Erie detachment.

Also in good condition at the same hospital is Const. George Wood, 29, of Hawthorne Drive, Burlington, with a back injury. He is with the Oakville detachment.

Const. Dale Ryan, 25, of Cayuga, was reported in good condition with head injuries.

Last manoeuvre
 The accident happened as two groups of riders approached each other at considerable speed with their red lights flashing and sirens wailing. They were riding on a finely gravelled track.

This manoeuvre, which takes place at the end of the show, will be recalled by the many who saw

the performance at Acton fair last month.

Witnesses said at least one of the policemen were tossed several feet following the impact.

Two of the four motorcycles in the mishap were extensively damaged.

Here in OPP week

A native of Simcoe, Const. Verral, began his police career with the Simcoe police department several years ago and rode a motorcycle with the town force.

He is survived by his wife, the former Lynn MacNeil, also of Simcoe, two girls and a boy.

He was in Acton last spring showing equipment during O.P.P. week.

The squad was formed in 1963 and according to one policeman, it "was lucky to get through that first season" after an accident occurred in its first show at the Barrie Fair.

The squad was formed to promote public relations and was named the Golden Helmets in 1964 when gold-colored safety head-gear was adopted.

Commentator is Corp. Peter Campbell, formerly of Acton O.P.P.

The squad trains for two weeks every year to prepare for its fall exhibition circuit at numerous fairs in southern Ontario. The unit is also a familiar sight at Grey Cup and Christmas parades.

Credit regulations at problem areas

Fill, construction and water-course regulations have been enforced in problem areas of the Credit River valley at Norval, Huttonville, Terra Cotta, Streetsville and Cheltenham during the past few months by the Credit Valley Conservation Authority.

These regulations, registered under the Conservation Authorities Act, (Ont. Reg. 84-71) govern the placing of sand, gravel, garbage or any type of fill in areas designated by the Authority; building any type of structure in flood areas or below the high water mark (determined by a hurricane type storm) of any lake or stream; interfering in any way with the existing channel of the watercourse.

Should contact
 Anyone thinking of changing a

channel, building or filling should contact the local municipal office. Copies of the regulations and maps designating the regulated areas are available at these offices. If any construction work is

Driver injured

A single car accident at the corner of Highway 7 and the Fourth Line, Esqueving resulted in \$2,000 damage to the car involved and minor injuries to its driver.

Fred Brown, 29, of Limehouse suffered cuts to his head and hands in the accident.

North Halton OPP investigated the mishap.

planned in affected areas an application for a permit must be filed with the Credit Valley Conservation Authority at Meadowdale as per the regulations. A permit may or may not be issued for the proposed work depending on the individual case.

Many people in the valley are not aware that these regulations are enforceable. They have far-reaching planning implications in the watershed and provide the Authority with the means to cut down further potential flood damage in the valleys which are regulated.

Miss Elizabeth Laver, who lives on Highway 25 near Speyside, called the Free Press last week to say there was a bloom on a snowball bush near her house. Unusual for this time of year!

D. Darroch speaker

Don Darroch, a member of Fergus Rotary club, told Acton Rotarians about the Rotary Foundation Exchange at their Tuesday meeting. He gave information on his trip to Germany in 1967, including the differences between east and west Berlin.

Acton has been asked to nominate a person, between the ages of 20 and 35, to be a member of the exchange visit to Australia in 1972.

Plans are underway for the Christmas dance in December at Acton Meadows, with dancing to the Shynettes.

Rotarians will be assisting the Boy Scouts this Saturday with Apple Day.

Dutch Elm disease is spreading in Canada.

Construction all over town

Under construction are new houses in two locations in town. There are three homes underway on the lot left vacant by the removal of the town work building on Main St. S.

On Churchill Rd. South a row of houses is springing up on the east side.

The new town work building in the industrial park is not completed yet.

Although it was thought the reconstruction at the Mill-Park corner was finished, the sidewalk was found to be not according to specifications and had to be changed.

Several families have now moved in to the geared-to-income homes on Cobblehill Rd. There are no senior citizens in the new apartments there yet however.

During sewer line construction on Agnes St. a water line broke. A hole was dug to locate the break and repairs were made Sunday afternoon. Water to a few homes was cut off.

The new addition at Knox church still is at the foundation stage.

Bumpy going
 The major portion of highway No. 25 north of town appears to be down to its level now. It's bumpy driving there.

Newcomers at meeting

By Mrs. Reed

Wonderful autumn sunshine brought out a good attendance at the regular afternoon meeting of the Golden Age Club on Tuesday of last week. Mr. Warne gave a special welcome to Mrs. Edwards, the 90 year young member who has been missed at a few recent meetings and to two new members Mrs. Dennis and Jack Smith. It is rewarding to see so many men coming out and there is room and a welcome for many more.

One highlight was a cheque received from the town council which had been budgeted for the club earlier in their term.

Bus trip

Of course the annual bus trip to see the autumn glory of our countryside was the great interest and Mr. Hargrave trip arranger had arranged for a route to take in a view of Lake Huron and Owen Sound and many beautiful and interesting spots along the way, and a stop for a hot meal near Listowel before reaching home. As usual each takes their own picnic lunch and beverage. The ladies especially enjoy a hot dinner away from home that they have not had to work over.

Nine tables of euchre and three tables of crokinole were enjoyed, with a few looking on. Winners at euchre were ladies Mrs. Oakes.

Plan county awards night

By Hugh Cook

The Halton County 4-H Awards Night will be held in St. Paul's United Church on Friday, Oct. 22, 1971 at 8 p.m.

The awards night marks the end of the 4-H agricultural program for 1971. It is at this time that recognition is given to 4-H'ers who have completed their projects and special recognition is given to outstanding achievements.

All 4-H leaders, sponsors, parents and interested persons are welcome to attend. There will be lunch and refreshments following the program.

Mrs. Milne, gents, Mr. Fuller, Mrs. Shultis.
 Crokinole ladies' Mrs. Spears, Mrs. Warne, gents, Mr. Warne, Mr. O'Hara.

Birthday song
 Mrs. Fryer and Mr. Cutts were greeted with the birthday song. Mr. and Mrs. Cutts and Mr. and Mrs. Shultis were greeted with a happy anniversary song.

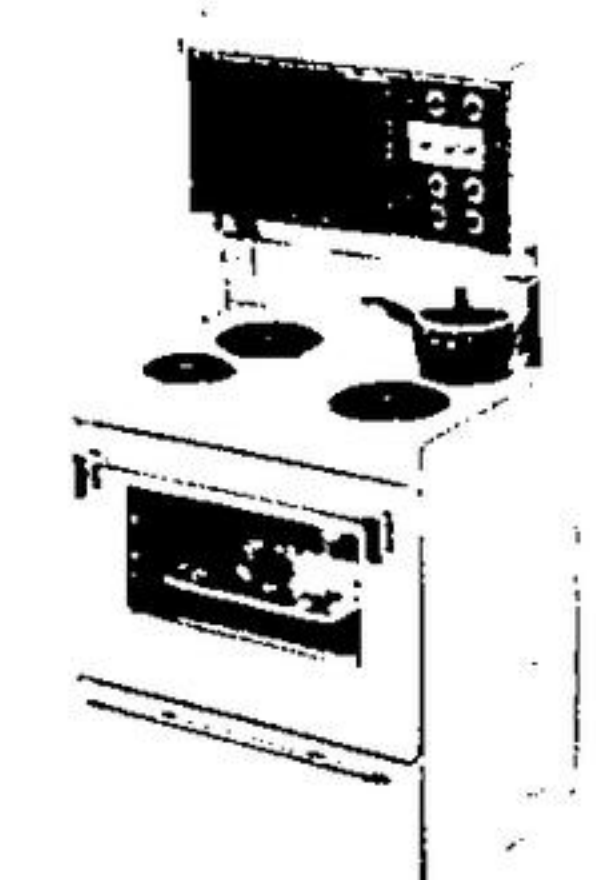

A delicious lunch of fruit bread and cookies concluded a very pleasant afternoon.

He's just beginning...

For the last two and a half years, George Kerr has served not only as the member for Halton West, but as the Provincial Minister responsible for the environment. We've come a long way in environmental conservation in that time. Charges have been laid against 142 companies for air and water pollution. We have spent \$437 million in Ontario since 1969 on the construction of sewage treatment plants and collector systems.

Cities like Hamilton are building secondary sewage treatment plants. An inspection program for summer cottages will ensure the preservation of our recreational lakes. The province is purchasing key tracts of Niagara escarpment and lakefront lands. Research is being conducted into the recycling of wastes. The new Environmental Protection Act deals with noise, litter, heat and radiation. George Kerr is working with Ottawa and neighbouring American states to maintain a high quality of life in the Great Lakes basin. Pollution is no respecter of political boundaries. As Minister of the Environment for Ontario, he will continue to press municipalities, industry and other jurisdictions to meet our clean-up deadlines. Keep Kerr working on your behalf.
