

\$13 million bill for clean air

Several industries in this district were named in an air pollution abatement progress report from the Ontario Department of the Environment.

Minister's Orders were issued to nine companies in Halton, Peel, York and Ontario including Beardmore and Co. in Acton, Domtar Fine Papers, Georgetown and four refineries along the lakeshore including BP Refinery, Gulf Oil, Regent Refining and Shell Canada as well as Monsanto Canada Ltd., at Oakville.

Beardmore is required to control odorous emissions by January 1, 1972 and Domtar in Georgetown is required to control odors from waste water lagoons by July 1, 1972, while the four refineries are required to control emission of malodorous and sulphurous gases by phased programs which extend to December 31, 1972.

\$13 million bill

All told, an estimated \$13,120,000 will be spent by 1975 on equipment to control industrial, commercial and institutional sources of air pollution in the four counties. Of this amount \$3,500,000 has already been spent.

Since the Department's air management branch offices were opened in Oakville to serve Halton and Peel, and in Toronto for York and Ontario, almost three years ago, more than 3,000 complaints have been received and investigated. About 600 of the complaints were cleared up by simple measures—stopping open burning or making minor changes in processes or material handling.

The remaining 2,400 complaints involved major sources of pollution for which formal control programs have been developed or are being developed.

Five hundred and fifty schools were surveyed in this region in the past two years and it was found most met the requirements of the Environmental Protection Act of 1971. But seven schools have converted from coal to a cleaner fuel and eight others are scheduled for conversion. In addition, 20 schools have stopped using inefficient incinerators.

Cleaner fuels

Surveys of 32 Federal buildings have been completed and four of them, including Acton post office, are converting to a cleaner fuel from coal as a result.

Air Management Branch personnel have also spent a good deal of time dealing with waste disposal problems from farm operations. Main concern is one of offensive odours which arise from intensive animal farming such as piggeries, poultry farms and veal calf operations.

Advice has been obtained from the Ontario Department of Agriculture and Food to assist in reviewing specific situations. A voluntary code of practice for farms and disposal of animal

waste is easing this problem as farmers revise their operations. And Branch personnel are still working with the Department of Agriculture and institutions such as the University of Guelph to find answers to farm odor problems.

3f

THE 3-F CLUB for young girls is a popular part of the Y.M.C.A.'s new fall and winter program. Under the direction of Mrs. Donna Aiken the girls take part in fun and games every Saturday morning. Floor hockey (top left) and billiards (above) are always near the top of the popularity list. Frances Barons lines up a shot as 1. to r., Janice Ellerby, Barbara Turkoz and Roseanne Nicholls look on. (Left) Mrs. John Turkoz and Mrs. Lloyd Broadst watch as 1. to r., Judy Sheddell, Anne Doumans and Gwyneth Gibb test their skill at a miniature soccer game. It's a goal (below left). Gwyneth Gibb, Susan Muckle and Vickie Bristol celebrate. Taking aim at the rack (below) are 1. to r. Barbara Turkoz, Jenny Graham, Frances Barons, Roseanne Nicholls and Janice Ellerby. —(Staff Photos)

Ebenezer

U.C.W., anniversary

By Mrs. Ron McLean

Willie Wild and Rob Munro had charge of the opening exercises in Sunday School, while Ken and Hoss Hewer accompanied the hymns on their guitars.

The choir's carol concert is planned for Dec. 19, while the Sunday School concert is to be on the 22nd.

Best wishes to Mrs. Florence Diamond, who is celebrating her 90th birthday. A party was held at the home of her son and daughter-in-law, Arthur and Marion.

Hall full

Brookville Hall was bursting at the seams when Mabel and Bill Frank celebrated their 25th wedding anniversary. Relatives and friends enjoyed an evening of dancing, and many lovely gifts were presented. We wish them many more happy years together.

A large attendance enjoyed the U.C.W.'s December meeting at Bezek Centre. Mrs. D. Joss and Mrs. J. Kitching were in charge of the program, which consisted of cassettes of Christmas plays, which were followed by discussion.

Michael Woloshyn and Sandra Ashton lit the second Advent candle in church.

Voice of God

Mr. Finley's sermon dealt with the joy of Zechariah, at the birth

of his son, John, the Baptist. Zechariah was a part-time priest, a direct descendant of Aaron. Lots were drawn to decide who was to take a week per year, in the temple service. The voice of God came to him. Zechariah spoke at the ceremony of the circumcision of his son. There was joy because of a boy child, especially born to be a prophet to prepare the way for Jesus.

Sir Walter Scott dearly wanted to be a soldier. Poor health confined him to the house for weeks, where he learned the love of reading Scottish history, which prepared him to fulfill God's plan for him.

Christmas is heralding that God loves you personally. The God of terrible judgment has become the lover of men's souls.

Will be missed

Ebenezer U.C.W. did a rushing business at their booth at Greggs' sale. Mr. and Mrs. Gregg will be missed in the neighborhood.

AL'S SPECIAL THIS WEEK

Value is a Woman's Word

COMPARE YOU'LL BUY Westinghouse

DUAL AGITATOR LAUNDROMAT MODEL LA580
When it comes to hand washing, hand it to Westinghouse. Here's one automatic which will wash any washable, even washable cashmeres and the most delicate negligee safely, gently and thoroughly. Of course it will handle big, heavily soiled loads up to 16 lbs. too. Just select the right agitator for the job: Regular or Hand Wash. It's very versatile; with five push-button water temperature selections (three for permanent press), two speeds, three timer cycles including "Stop 'n Soak" for use with pre-soak stain removers. Water Saver control.

DELUXE HEAVY DUTY AUTOMATIC DRYER MODEL DE480
Four pushbuttons put three temperature selections (Reg., Low, Air Fluff) or Auto Dry (perfect for permanent press) at your fingertips. Three cycle selections on timer. The new Cross-Vane tumbling system tumbles clothes over and over and back-to-front to guarantee perfectly even drying. Balanced Air Flow System. Auto Call signal with adjustable volume, tells you when clothes are ready.

CHRISTMAS VALUE \$529⁰⁰ FOR THE PAIR

THE SANTANDER MODEL ST1008
A triumph of miniaturization for music lovers who have space problems. It's so compact—only 28 1/2" wide and 9 1/2" deep—it will fit anywhere. The attractive slim Mediterranean style cabinet includes an AM-FM-FM Stereo radio tuner-amplifier and eight track cartridge tape player. You have 4 speakers for full-range sound reproduction—and if you want more stereo separation, speaker enclosures lift out, can be placed up to 12 feet apart.

ONLY \$289⁰⁰

WESTINGHOUSE CUSTOM FROST FREE IS MODEL RT158
It isn't just the space you have in a refrigerator—and this 15.0 cubic foot model has plenty—it's how the space is put to use. Five snap-in half shelves fit in flat or tall items without waste space. Five separate cold zones: (1) extra cold 17 lb. 7 day meat keeper; (2) 3-temperature butter conditioner; (3) twin porcelain enamel crispers; (4) big 124 lb. freezer with flip-up shelf and ice cube caddy; (5) refrigerated storage. All cold zones are frost free—no defrosting needed ever. Full-length woodgrain handles and custom door trim. Cheese compartment, removable container for 22 eggs. Fits flush to wall, projects only 27 inches into kitchen and can be built in. Efficient, compact forced air cooling system with 5 year warranty. Pulls out on adjustable rollers for cleaning.

Winter works include Limehouse

The Credit Valley Conservation Authority has received approval of its \$70,000 winter works program which should employ 30 extra personnel on the staff. Four supervisors, one typist and 25 laborers are to be employed through welfare and manpower offices.

Projects planned include constructing 20 privies for use at Limehouse, Meadowvale and Orangeville Conservation Areas, demolishing the old barn and clean up debris around the Orangeville reservoir, renovate the old concession booth at Terra Cotta for use as a machine workshop, cut dead trees and improve woodlots in Limehouse and Terra Cotta Conservation Areas.

Repair, paint or stain trash barrels and picnic tables for all areas, build 200 picnic tables, construct and paint signs for scenic route and conservation areas and install markers for snowmobile trails, remove debris and general clean-up of Authority-owned land at Limehouse and Fletchers Creek.
