

THE NEARBY CHELTENHAM brick yards provided a realistic setting for World War I shots in the current popular TV series Whiteoaks of Jalna. Director John Trent discovered the location while he searched for land in this area.—(Staff Photo)

Jalna war scenes shot nearby

Residents of this area who thought they recognized familiar places in the TV special series, Whiteoaks of Jalna, were correct. First World War scenes in the second instalment were shot at the Cheltenham brickyards. Standing in ruins for years the

brickyards made an authentic backdrop for the battle scenes which were supposed to be taking place in France or Belgium. The series' director discovered the abandoned brickyard while he searched for personal property near Cheltenham.

The war scenes were filmed during the summer. Stakes and barbed wire still stand on the hill overlooking the yard.

Chinguacousy township fire department stood by to contain any fires that got out of hand. Actonians have a special interest in the series because the Jalna books, were written by a former resident, Mazo de la Roche.
