THE ground soon soaked up Tuesday's downpour.

GRADUATION time! Please bring graduation pictures in to the Free Press for publication. There's no better news at this time of year, as our young people progress in their education.

# 200 hikers lost

Two hundred Toronto high school students were unable to manage the dense forests which surround Milton and ended up lost, report Milton Police. The journey took place on Tuesday, May 23.

The lost 200 were on a hiking expedition which was supposed to take them along the Bruce Trail from Rattlesnake Point Conservation Area in North Burlington to Hilton Falls in Nassagaweya. Instead of arriving at Hilton Falls, some of the students ended up at Kelso Conservation Area, while others landed in Milton. About 40 members of the student contingent knocked on the door of Mrs. Lise Fitzpatrick's home near Speyside in hopes of a glass of water.

"They kept coming and coming," says Mrs. Fitzpatrick who notified the Milton OPP. The police made bus arrangements and the lost adventurers were all picked up.

# At the Berkshire Nursery it's 34 genuine originals to 5.

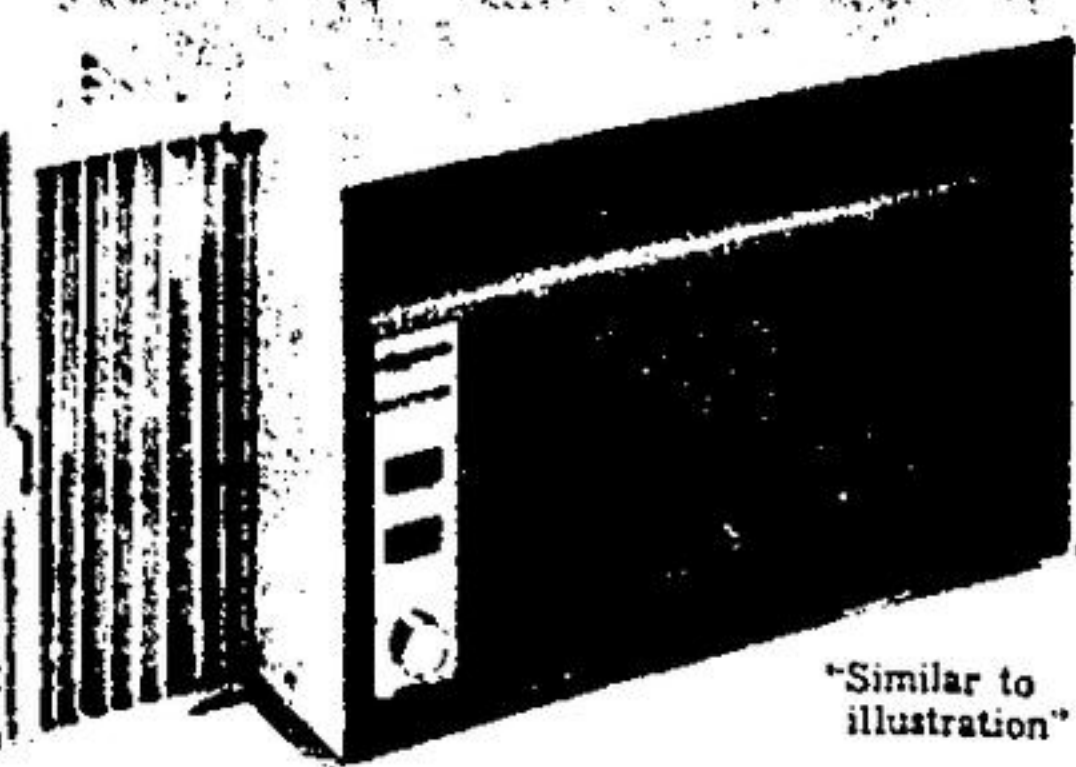

No, that's not a teacher's score. 34 out of 39 is really the number of nursery kids in Miss Dorothy's Berkshire Village Nursery who come from warm cosy homes heated by natural gas. And that's not far from the average for all the rest of London, too. Where 77% of all homes and apartments have clean efficient natural gas for heat, or hot water or appliances. And when you've been working with a paint brush all morning... that's important. **United Gas.**
