

ALL SHAPES AND SIZES ARE OUT for swimming lessons at Eden Mills' picturesque millpond. The lessons are popular attractions for residents of the village and district. (Photos by Lorraine)

Over 100 enrolled Eden swim classes

Pre beginners, Beginners, Juniors, Seniors, and aspirants in the Bronze Medallion Life Saving Course all line up with gusto every weekday morning at the Eden Mills River front swimming grounds.

"It's a wonderful place to teach," says Francis Morgan of Guelph who is the swimming instructor of the 5 star swimming course at The Guelph Y.M.Y.W.C.A., an assistant life guard at the Rockwood Conservation Park, and has been teaching at Eden Mills, under the sponsorship of the Eden Mills Community centre for the past three years.

Everyone gets in the aquatic act and Francis feels that the area lends itself exceptionally well to all types of instruction. One hundred and three students are enrolled at the Eden Mills sessions with costs set at only \$1 a head.

As young as two

Two year old babies are the smallest class entrants but junior types, young adults, and middle-agers are all part of the village scene with esprit de corps at high level and camaraderie part of the game. Mid week lunch sessions find the swimmers sitting about amiably eating and chatting under the hot sun. Bikinis, sunsuits, jazzy mod bathing suits and ordinary swimming apparel all decorate the river banks and instructor Francis is delighted at the friendliness of the community which provides immaculate garbage facilities for sandwich mongers, cups of coffee for swim session breaks, and generally all-round terrific communications between residents and lesson co-ordinators.

The instructor who has watched some of the kids develop

from non swimmers to industrious beaver types is excited about the Eden Mills program and he says, "It's the best one in the district." He enjoys the co-operation of the mothers in the village who assist him in his classes and for when he is busily engaged in special swimming projects have learned to take over.

Life saving

Also on the Eden Mills swimming agenda is another U. of G. student, Barrie Belchamber who instructs the life saving classes comprised of seven students who literally thrive under his instruction and diligently work in the water, knocking themselves out for achievement.

Afternoon sessions at the Village Beach are something else again. At that time all bathers in the district congregate to cool off in the Eramosa and this week's high rain spells, provided higher water allowance for enthusiastic aqua-athletes.

Sweep groups

Across the roadway on the other side of the bridge, the river picture shows another scene. That of the Governmental S.W.E.E.P. groups cleaning up a park area which will, on its two week completion be another scenic addition to the already aesthetically beautiful location. Contacted by the Eden Mills Community Club members the S.W.E.E.P. students are part of the Wellington County Group who feel that working in the village environment is one of their most ambitious efforts and enjoy applying their energies and abilities where it will be seen.

Ed Mitchell of Galt is the chemical technologist graduate of Mohawk College in charge of the 23 S.W.E.E.P. students

comprising the three district groups who work in the area generally from Luther Marsh to Dunnville. His entire staff is located at Eden Mills for the past two weeks and their accomplishments along the Eramosa River Banks in the village have been tremendous with brush and dead trees gradually melting into the environment.

Enjoy area

"We really enjoy working here" said the ambitious young supervisor who recognizes the need of maintaining such rural communities as Eden Mills and protecting their great wealth of natural surroundings.

Dips in the river?

Sometimes after hours the students take time for deep plunges but regulations are strict for the University workers as they have a tight schedule of jobs lined up for their summertime vacation and are slated to complete the Eden Mills project in short order. The final result will be a more park area along the side of the Eramosa opposite the one used for swimming. It will be another enhancement as far as the S.W.E.E.P. crew are concerned and visitors to the community can already see tremendous improvement and look forward to traversing its banks.

Visit

On Wednesday, July 5, the Halton 4-H Agricultural Club members travelled to the Ontario Science Centre, Toronto, for their annual bus trip. This trip is sponsored by the Kiwanis Club of the Kingsway in Toronto. At noon refreshments were provided by the Kiwanians.

New rules of procedure for Eramosa council

New rules of etiquette recently set for the Eramosa Township will alleviate extended meeting sessions as well as curtail unscheduled delegations, and residents appearing before Council will, in adherence to the new by-law provisions, find their length of speaking allowance time relegated to only 15 minutes.

Dealing mainly with council procedure, the by-law, numbered 15-1972, is one superseding the 1950 dated Rules of Procedure for the Township of Eramosa. The revised establishes up-dated controls on meeting time limits and makes new provisions of procedure for residents attending.

"If a quorum is not present within 30 minutes after the time fixed for a regular or special meeting, the clerk shall record the names of the members present and the Council shall stand adjourned until the next regular meeting" and, according to Paragraph 1 of the newly devised by-law, three members of the council, present in person, constitute a quorum.

Meeting dates

Regular meeting dates of the Eramosa Township Council are held on the first Monday of each month in the Council Chamber at the Municipal Building except however, in accordance with Paragraph 2, "When the day fixed for a meeting of the Council falls upon a legal holiday, the said meeting shall be held upon the next following day which is not a legal holiday, and the

Reeve, may, on two clear day's written notice, given through the Clerk's office, postpone any regular meeting of the Council to a day to be named in such notice and such postponed meeting shall be held at the time and place provided in Section 1 hereof."

Aiming at shorter meetings further inclusions were set into the by-law stating that no business could be transacted at special meetings other than those specified in the notice of such meeting and, in stipulating, Paragraph 4 states, "the head of the Council may at any time, summon a special meeting, and, upon receipt of the petition of the majority of the members of the Council, the Clerk shall summon a special meeting for the purpose and at the time mentioned in the petition."

Mostly the new By-law provisions are applicable to Council procedure however, one that most significantly affects township residents is one numbered Paragraph No. 9 dealing with the Order of Business and reads: "The Order of Business of all business to be brought before the Council at such meeting, and to enable the Clerk to do so, all documents intended to be submitted to the Council shall be placed in his hands not later than one o'clock of the day of the meeting of the Council and the business of the Council shall be proceeded with, according to its place in the aforementioned orders."

Deputations

Hearing deputations were also ruled on in the by-law where stipulations regulate the number of deputation spokesmen to not more than two and curtails their speaking time limits to fifteen minutes. In cases of points of order not provided for in the new rules, "Decisions," read the by-law, "will be made according to the Canadian House of Commons Parliamentary procedure."

Aimed at regulating lengthy council meetings, final quitting hours also came under the axe and, dealing with same, the By-law reads: "When at any session of the Council the hour of 11:30 o'clock in the afternoon shall be reached, the Reeve, or other presiding officer shall declare the Council adjourned and leave the chair unless the Council, by resolution, determines otherwise."

Clinic open

Glenlea Medical Clinic opened Monday, after hours of work on the weekend finishing the work on the new building.

THE GAL WHO'S BEEN answering contests for years but never won a thing in her life finally made it big time this week when she won the trip of the week to "Anywhere in Canada" after answering the skill testing question proposed by the Canada Dry Company of Canada. Grace Prior, wife of Ross Prior of R.R. 3, Rockwood, has been a seven year resident in the district. She first learned of her winnings via friends who heard her name broadcast a week ago. Official notification however, wasn't received until Tuesday morning. She was delighted. Where'll she go? "Can't say" says the pretty housewife, but it's a cinch that she'll keep on filling in contests with hopes of making another one again. Mrs. Prior's name was drawn when she sent six labels with her name and address to the Canada Dry competition a few weeks ago. (Photo by Lorraine)

Comin' and Goin's

Know what? Children time this week at the Eden Mills Community Centre will be the 3 p.m. presentation of The Golden Goose. Acted out somewhat in the manner of the famous T.V. "Storytime hour" this week's production with Rhonda Warlow directing should be a smashing success.

A 20 minute playlet "3 Billy Goats Gruff" will also be featured on the afternoon show to which district children and adults are invited. Last week's variety program was another successful venture of the youthful thespian instructors and their daily morning teaching programs are proving to be a highlight for many local youngsters in the district who "can't wait" to get to the hall to learn more about "hamming it" for themselves, bang together their own costumes, try their hands at painting sets and pasting together musical instruments.

Great project, tremendous effort by the talented young O.F.Y. instructors, and one of the best summertime programs for kids that the Eramosa district residents have ever seen. See you at the Eden Mills Community Hall Friday afternoon, you hear?

Hey now! Have you purchased your ticket on the Rockwood Lions Club Canoe Raffle? Beautiful, white, and fibre glass, the canoe tickets will be drawn at the Old Time Fiddler's Contest on July 22 and if you're a canoe happy friend of a Rockwood Lion you'll want to make certain your name's in the draw at the Lion tent next weekend.

Whatever it is they're trying hard and reports are that Real Estate agents are probing the neighborhood for prospective customers. Come on folks, rally around and don't let anyone talk you into selling. Rockwood's the greatest little community ever

and you know it so stick around for a few more years and let somebody else make a move but not you.

+++

Welcome special like to Anna Marie Bell's father who is visiting with her and her family in Eden Mills for a few weeks. Always great to see new faces, and Mr. Bourne has become a frequent visitor at the bathing front and already is fast making many friends in the village.

+++

It was great to see the Rev. Peter Tucker and his family in the neighborhood last week and sometime Rockwood should have an old home day when all the ex-residents could get back to the village and renew acquaintances. Something about a small town. We never forget our friendships and that's what life is all about.

+++

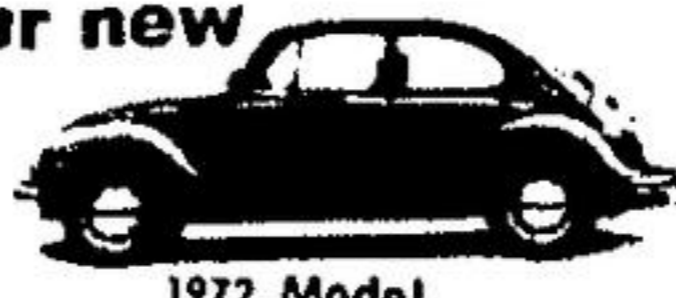

The lad who won the prize as the best junior N.C.O. of the year and received his trophy at the Annual Air Cadet Inspection held at Guelph Armories in June, left last Saturday, July 8 for a 6 week stint at Camp Borden. Corporal Jack DeVries, 16, of Main Street, is on a Band Course until July 18 and Rockwood is proud of their local representative Air Cadet. Have fun, Jack, and best of luck.

+++

Looks as if the Sy DeVries family have done it again and Cadet Eddy is stationed at Trenton Air Station for his two week training session. Terrific life, kids, hope you have fun.

EDUCATIONAL OPPORTUNITIES FOR SEPTEMBER, 1972

The three programs described below are being offered by Conestoga College, Guelph Centre in September, 1972. Graduates of these programs will find challenging and worthwhile employment in many related areas. Applications are still being received for a limited time in order to fill the few remaining vacancies. The requirements for admission is Grade 12 of any of the four or five year Secondary School programs, or equivalent education.

LIFE SCIENCES RESEARCH TECHNICIAN (2 Year Program)

Are you concerned about the health and well-being of people? Are you interested in research and the world of discovery or would you like to learn to be the eyes, ears, and hands of the research scientist? Perhaps working with microscopes, animals and sophisticated research equipment fascinates you. If this sounds interesting, then let us help you plan your future.

Employment opportunities exist in universities, laboratories of various government agencies, pharmaceutical houses, the larger food processors and in such specific areas as pollution control, public health, pure food and drugs and laboratory animal care.

WELDING TECHNICIAN (2 Year Program)

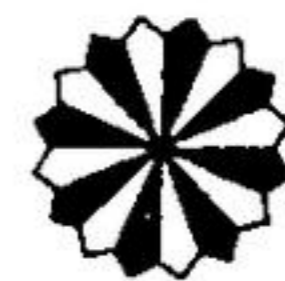

A Welding Technician is not a blue-coat, goggle man with a torch. He is a highly skilled person holding a responsible position in industry between professional positions and skilled tradesmen. He possesses knowledge in the forty processes or methods used in the joining of metals.

Job opportunities exist in testing laboratories, production, weld inspection, quality control, research and development, maintenance and technical sales.

MATERIALS MANAGEMENT (3 Year Program)

If you are looking for an exciting career with a challenge, and enjoy working with people, then this three-year, co-educational program is designed for you. The course has been uniquely developed and encompasses basic technical matter along with realistic and applied business topics.

Employment opportunities exist in administration, purchasing, production planning, inventory control, traffic distribution and warehousing.
