

# Notes and Quotes

from the world of sport

by Denis Gibbons

Minor hockey officials in charge of registration observed an interesting point on the first day of registration September 30. Of the 210 boys signed up, 109 listed address outside the limits of the town of Acton.

While residents of the surrounding district have been using local recreational facilities for years, only recently have some township councils begun contributing financially to the always hard-pressed Acton Parks and Recreation Committee.

Esquing Council led the way two years ago when they responded to a plea from the committee with a cash donation. Eramosa Council followed suit this year with a smaller financial contribution. Understand the committee has had no favorable response from Nassagaweya Council or the Rockwood village trustees.

Dave Dawson's mosquitoes and Paul Gallant's squirrels both made "gallant" efforts, before bowing out of the Halton-Peel Minor Soccer league playoffs against Georgetown Sunday. Dawson's eleven lost in overtime and Georgetown had to score in the final minute to win 1-0 in the squirt game.

Rumors are rife the Acton association may pull out of Halton-Peel next year. League organization left a lot to be desired this year. I haven't yet seen a set of standings in any one of the age groups and playoff arrangements were changed at least three times. John Toebes did his usual excellent job reporting what he was able to find out for the Free Press.

Speaking of missing standings, a copy of the Central minor lacrosse league midget stats still hasn't arrived at the office. League officials promised to mail me one back in August and further suggested the stats would prove why Acton's first year team was classified "C" and Orangeville's established club which beat the locals four games

## No change in county apportionment

No changes in the method of calculating Halton's county apportionments for individual municipalities will be processed, for this year at least.

Georgetown Reeve Rick Morrow started a move to have figures for assessment purposes updated. In his speech at county council a month ago he pointed out the figures used for county apportionment were two years old and would not reflect the growth in any specific town for the previous year.

Good example Morrow used Milton as an example and suggested Milton had considerable growth in 1972 and that growth should be reflected in the 1973 apportionment.

After checking with Queen's Park and the regional assessment office, county treasurer Jim McQueen said there was no legislation that would permit extending the date for submitting proposed apportionments to Queen's Park.

Administration committee of county council agreed to have the matter taken up at the ACRO convention in an effort to have legislation changed.

## Consider your horse's health

The fall is an excellent time to give consideration to your horse's health in preparation for winter and next summer use. Of particular interest at this time of year is the control of internal parasites (bots, etc.).

The most common type of bot found in the stomach of horses in southern Ontario is the maggot of the fly *Gasterophilus intestinalis* (bot fly). To determine if your horse is infected, carefully examine the hair of the front legs, chest and under the chin for the tiny white fly eggs (during summer and fall). These maggots which grow in the tongue and stomach may cause ulcers and pain, resulting in the horse refusing to eat.

Treatment The use of an internal drug against bots in the stomach is recommended four to six weeks after the first substantial frost.

## 400 club

Lucky winners in last week's 400 club draw were, M. Gervais, W. Duval, M. Jordan, J. Elliott and E. Felner.

out of four was allowed to play in the "D" series.

Coach John Goy Jr., you may remember, withdrew his team from further play rather than go up against a team from Ottawa following the incredible OMLA decision.

One official claimed Orangeville won only six league games. We know for a fact they won four of them against Acton and clobbered Burlington an "A" team 17-5 in another. That would allow them only one victory over the rest of the schedule—Hard to believe! Acton won four games, two of them against the lowly Port Credit club.

Heard by the grapevine the Acton Industrial Hockey League may expand to six teams this year. Hockey interest is high following the Canada-Soviet Union series and many shiny vets are dusting the blades already. Some real enthusiasts have been renting ice in Guelph since early September.

Two suggestions for AIHL execs. Make it compulsory for all players to wear helmets and even if the cost has to be passed on to the players try to arrange for reliable referees who will call the game according to international rules. It's a fun league but things have been getting far too serious in some games.

Registration will be held this Sunday, October 15 at the community centre from 12 noon until 2. If the league expands two additional team sponsors will be needed. Players from the age of 16 up are welcome.

## Wi' Rock and Broom

(mostly corn)

By Bob MacArthur

Have you filled in your questionnaire yet? I mean the one that tells the curling committee when you would prefer to curl this winter. It has been laying around for the past three weeks, so you better make up your mind soon.

All curlers will not be able to have the nights and hours that they prefer, but the curling committee will do their utmost to accommodate the tastes of the individual curlers. The request for the return of the forms deadline is next Sunday, October 15.

This week we will give you a thumbnail sketch of the ladies' and Men's club treasurers. They are Mrs. Harry (Helen) Otterbein and Charles Davidson.

Charles Davidson

Charles is a westerner. He was born at Borden, Sask. and got his education there and at Battleford, Sask. His wife is Gladys M. Charles has been employed in banking, farming and as a laboratory worker. He now resides on Main Street, North, R. R. No. 3. He has been curling since 1967. Charlie will look after the finances for the coming year.

Helen Otterbein

Helen Otterbein is a native of Guelph and got her education in both Acton and Guelph. She has lived most of her life in town. Helen is now accountant at the Goy Cartage and has been there since 1959. She is married to Harry Otterbein and they have one son. She started to curl in 1961. Now she is treasurer of the ladies' section and automatically a director of the club. Among Helen's specific assignments this season is looking after trophies and records. She lives in Lakeview subdivision.

## Glen needs just one win

Glen Williams moved to within a game of winning the Intercounty Fastball league championship when they whipped Fergus Merchants 8-3 in Fergus last night (Tuesday). The Glen now leads the best of seven series 3-2. Next game is scheduled for Glen Williams Friday night.

## Apple underway

By E. N. Estabrooks  
 Harvesting of McIntosh apples is now in full swing. Picking has been underway for about a week to 10 days and will probably continue for at least another week.

Apples have been slower in maturing than usual this year but color has generally been much improved.

Down Across Ontario the McIntosh crop is down in volume from the large harvest of last year. In the Toronto-Hamilton area the McIntosh crop is near normal.

Red Delicious, the next big variety to be harvested, is expected to be ready for harvest about Oct. 12.

It's going to be a long winter! So why not make the most of it at the attractive North Halton Golf & Country Club?
