

O.P.P. report

Traffic offenses apply to bikes

During the reporting week of October 15 to October 22 officers of the Acton Detachment of the Ontario Provincial Police, investigated a total of 18 general occurrences and four motor vehicle collisions.

Two wanted persons were arrested for offences that were investigated in recent months. Two persons reported missing were located. Officers investigated two reports of willful damage, involving broken windows in private residences. There was one request for assistance, the result of a disturbance.

Other occurrences investigated ranged from insecure premises to driving complaints.

Charges laid
Nine by-law charges were laid during the reporting week. Enforcement of parking by-laws is one area receiving special attention.

Of the four motor vehicle collisions reported, two were hit and run collisions which are still under investigation. The other two accidents resulted in property damage only. Total damage resulting from the four collisions was estimated at \$1700. Two charges of 'Careless Driving' have been laid as a result of the collisions.

Cycle safety
In recent years cycling has become an increasingly popular means of transportation and recreation. With the growing popularity of cycling, concern for the safety of the cyclist has increased. A bicycle as defined in

the Highway Traffic Act, is a 'Vehicle' and therefore must be operated in accordance with the act. This means that the operator of a bicycle may be charged with certain traffic offences, as would the driver of a motor vehicle. Although bicycle safety is taught to children attending school, parents should make an effort to encourage their children to practice bicycle safety. Remember the cyclist of today, may be the driver of tomorrow.

Officers of the Acton Detachment of the Ontario Provincial Police, are authorized to issue 'Parking Tags' for parking violations within the Town of Acton. Failure to pay the parking tag, may result in a charge under the Highway Traffic Act, thereby resulting in an increased penalty upon conviction.

Const. Paul Brown

In Halton-Wentworth riding, returning officer Gordon Goodrow and his staff counted 76,000 eligible voters.

ACTON HIGH cheerleaders sported badges for all three parties and candidates, as they provided an attractive lead for the parade prior to Thursday night's Meet the Candidates

night here. The parade with Acton Citizens Band supplying music made its way from the Acton Music Centre to the Robert Little school. (Photo by D. Gibbons)

Most councillors will run again

With a newly-installed pacemaker in his chest, Acton's reeve is returning to good health and says today it is his sincere hope he will be in Acton's election race again this year. Dr. Frank Oakes would like to be with his fellow-county councillors when regional government comes to the county, since he has been involved since the beginning. Since he was taken ill with a

heart block some weeks ago, he had a pacemaker implanted in his chest at Hamilton and says the heart specialist assures him he will be able to lead the same kind of life he did before.

Dr. Oakes did not attend Tuesday's council meeting, when fellow-councillors also said they would be seeking re-election.

Polled by the Free Press,

councillors replied in a range from "yes" to "probably".

Councillor Masales said his decision was not yet firm but he would probably run.

"I've got to keep out of mischief" laughed deputy-reeve McKenzie, who's headed for retirement from his principalship.

Answered councillor Marks,

"I'll be running for something, yes."

The mayor, in that office for the past decade and on council for 13, naturally wishes to maintain his interest till the advent of regional government.

Councillor Greer, who missed the meeting due to illness, was contacted by phone and says he hasn't made up his mind yet.

Mediators enter strike picture

Representatives of Ajax Engineers Ltd. and Local 7515 United Steelworkers will meet in Toronto tomorrow (Thursday) with Department of Labor mediators.

The department requested the meeting in an effort to settle the month old strike of 20 Ajax employees, all members of Local 7515 against the company.

Employees walked off the job September 22, after rejecting a 7 per cent hourly wage increase offered by the company. Hourly rates at the plant under the old contract which expired July 2

ranged from \$2.76 for laborers up to \$3.36 for the top job classification.

Union and management negotiators met October 4, but the meeting lasted only a short while, as neither side could agree.

Union members have been receiving strike pay weekly. Daytime picketing of the plant on Queen St. continues.

Local 7515 president Doug Vickery said this week he knows of no trucks crossing picket lines, since October 5 when two trucks entered the plant grounds and removed two towers for delivery.

UNICEF Jogalong

Details of this Saturday's Jogalong for UNICEF are being finalized at the schools. Hundreds of sponsors are being sought by grades 4 to 8 students taking part at a selected sum per mile. All Jogalong money will be turned in at the public schools after the event.

The Jogalong is a version of a walkathon-without having children on the highways. "It's going to be great," organizers predict.

17 1/2 miles
The jogging begins at the park at 9 a.m. Saturday, and the maximum number of laps permitted is 35—that's 17 1/2 miles. The laps will be checked off by a judge. Enthusiasm seems to be high already.

Children in the lower grades, not eligible for the Jogalong, may sign out UNICEF boxes to take with them door to door. These boxes will be turned in at the schools the next day, Wednesday.

If the Jogalong is rained out it will be postponed to the following Saturday, November 4.

Information has gone home from the schools to parents explaining the project.

Why UNICEF?

Every few seconds somewhere a child dies from disease, hunger or neglect.

32,000,000 children are suffering from malnutrition. Diseases such as malaria, yaws, tuberculosis and trachoma are common.

Three-quarters of the children in developing countries get no education beyond Grade 3. 700,000,000 children in 112 developing countries of the world have been helped by U.N.I.C.E.F.

92¢ of each dollar contributed to U.N.I.C.E.F. goes into programs and services. 123 countries raised \$54 million and Canada \$1.6 million last year.

New clerk from Whitby

Nassagaweya Council has engaged a man to replace their clerk, administrator, treasurer and tax collector Campbell Thompson when Mr. Thompson leaves his township post to become Deputy Clerk of Milton this weekend.

The job went to Earl Cudde, 31 of Whitby. Council agreed to engage Mr. Cudde at a special meeting of council, held Saturday morning. Mr. Cudde is expected to take up his duties in Nassagaweya in mid-November. Until he arrives on the job S. W. Savage, the township's zoning administrator and building inspector, will act as interim clerk.

Mr. Cudde has experience in municipal work with the town of Whitby and is currently executive secretary for a Toronto construction company.
