The Commission has called the meeting to introduce Bruce Howlett, U.S. planning expert retained to prepare an expanded study of possible routes for the Nanticoke to Pickering hydro power line. Mr. Howlett is expected to explain his plans and initiate discussions. The proposed 500,000 volt Ontario Hydro power corridor received a setback recently when the commission called for an environmental study. Commission chairman Dr. Omond Solandt suggested the Howlett study should put primary emphasis on environmental factors in key areas such as the crossing of the Niagara escarpment in making the route selection. He said the aim is not to choose what is theoretically the best route but to choose a good route along which the line can be built quickly with the minimum of environmental damage and local opposition. The December 7 meeting will be held in the Huron Room, MacDonald Block of Queen's Park on Wellesley St.</p>	<p><b>PRINTING</b></p> <ul style="list-style-type: none"> <li>• BROCHURES</li> <li>• PUBLICATIONS</li> <li>• OFFICE STATIONERY</li> <li>• WEDDING INVITATIONS</li> <li>• PERSONALIZED CARDS</li> <li>• RUBBER STAMPS</li> </ul> <p>A Complete Design and Production Service 853-2010 Dills Printing &amp; Publishing Co.
