

What Erin twp. council did:

At the regular meeting, Tuesday, April 3, Erin township council:

—Advised Ivan Fisher, who owns a lot at the corner of the 17 Skidroad and 7th Line, that they could not give approval to his building a barn to house machinery.

—Reeve Lloyd Lang pointed out that this would be against the bylaw, as there is no existing house on the lot. He added "It isn't fair, maybe, but what else can we do? The bylaws are passed to protect you as well as your neighbours, and is quite explicit."

—Read a letter from Alfred Povis objecting to certain points in the Official Plan.

—Heard from the Ministry of Natural Resources regarding Niagara Escarpment Act. The Department said that in 1971 the Pits and Quarry Act came into force to cover the entire township.

—Read a letter from the Sierra Club of Ontario regarding the Hydro line.

—Received a bill for \$2,408.56 for the Road Needs Study.

—Received notification from the Grand River Conservation Authority of a summer camp for students 15 and 16 years of age, interested in conservation. More information could be obtained from the office in Cambridge.

—Was informed by Deputy-Reeve Donald Matheson of progress with the Hillsburgh Medical Centre. Members named for obtaining a charter were William Sherratt, Frank Gray, Mrs. Donald Gray, Gladys Gray, Harry Burt, Howard Barbour.

Proposed cost is \$50,000 and one-third has already been raised. The Wellington Medical Co-Op has offered to match all personal donations dollar for dollar.

The white brick one-storey building will house three doctors, and one is confirmed to start August 1.

The site is also confirmed, and the committee will call for tenders. Reeve Lang added that all plans had come along twice as quickly as expected.

—Met with engineer Mike Brodigan concerning the new Hillsburgh subdivision. Mr. Brodigan confirmed that the roads would be 1 1/2-inch asphalt instead of surface treatment, there would be a hook-up for the medical centre, the maximum number of homes would not exceed 35 per year, the walkway to the park would be fenced in chain-link fence, and the new culverts would be 14 gauge round, 24 foot culvert, 18", and in deeper ditches.

—In the following question period Mr. Brodigan agreed to install pavement on the section of street that will bear the heaviest traffic.

—Discussed a request for a building permit at the Third Line and 24 Highway area. Building Inspector Jim Delaney said there was no way anybody could build there. "The only thing they could build is a boathouse."

Deputy-reeve Matheson added that there might be dry land on the lot somewhere, but they'd need pontoons to find it.

A request to build a greenhouse on lot 19, Town Line, was judged to conform with agricultural use.

—Received tenders for calcium and passed a motion to accept the tender of Pollard Brothers which was five cents less than the \$55.65 bid of Miller Paving.

Tenders for gravel will be held until more information is obtained. Bids from Cox Construction, Mann Construction and Holman Construction were all incomplete as no prices "off the belt" were given.

—Consulted with Bob Cheyne, representing the Hillsburgh Potato Festival Committee, regarding their request for a liquor plebiscite. The request was then put forward in the form of a motion.

—While there, Mr. Cheyne advised council of specifications for a new tanker truck for the Hillsburgh Fire Department. With an order now and \$24,600, next spring would bring a new tanker holding 12,000 or 15,000 gallons, which would be capable of delivering 200 gallons at 150 pound pressure, with 3 inch hose, siren, and 3,000 watt generator.

Mr. Cheyne also told council that for around \$55, 4,000 stickers could be obtained for residents' telephones in the Hillsburgh fire area, with fire department number, and the residents own lot number and line on it. Other fire areas will also be contacted with this idea.

Clerk Elmer McKinnon suggested that before anything was decided regarding the new tanker, that council find out the feelings of Acton fire area. "Also", he said, "We should do nothing till after our auditor's report."

—Was advised by road superintendent Ed Bardon that council must have a meeting with East Garafraxa regarding the town line. Reeve Lang suggested an "on-the-spot" meeting to view the road.

—Met with Jim Ritchie of Cedar Valley who requested a permit to build an extension on his store for a garage.

He was advised to check measurements on how close the building would come to the lot line to make sure he was contravening no bylaw.

—Passed a motion to grant the Federation of Agriculture \$800.

—Passed a motion to grant approval to the Hillsburgh Medical Board to build the centre on municipal land.

Scouts launch another tree planting program

The 400 Boy Scouts, Cubs and Venturers from the North Halton district are planning another TREES FOR CANADA project on Saturday, April 28, when they will again plant thousands of trees.

The project has been made possible through the co-operation of the Credit Valley Conservation Authority, which has provided land at Silver Creek, the Monora Conservation area and the lake at Orangeville dam, and the Department of Lands and Forests, from whom the trees are being purchased.

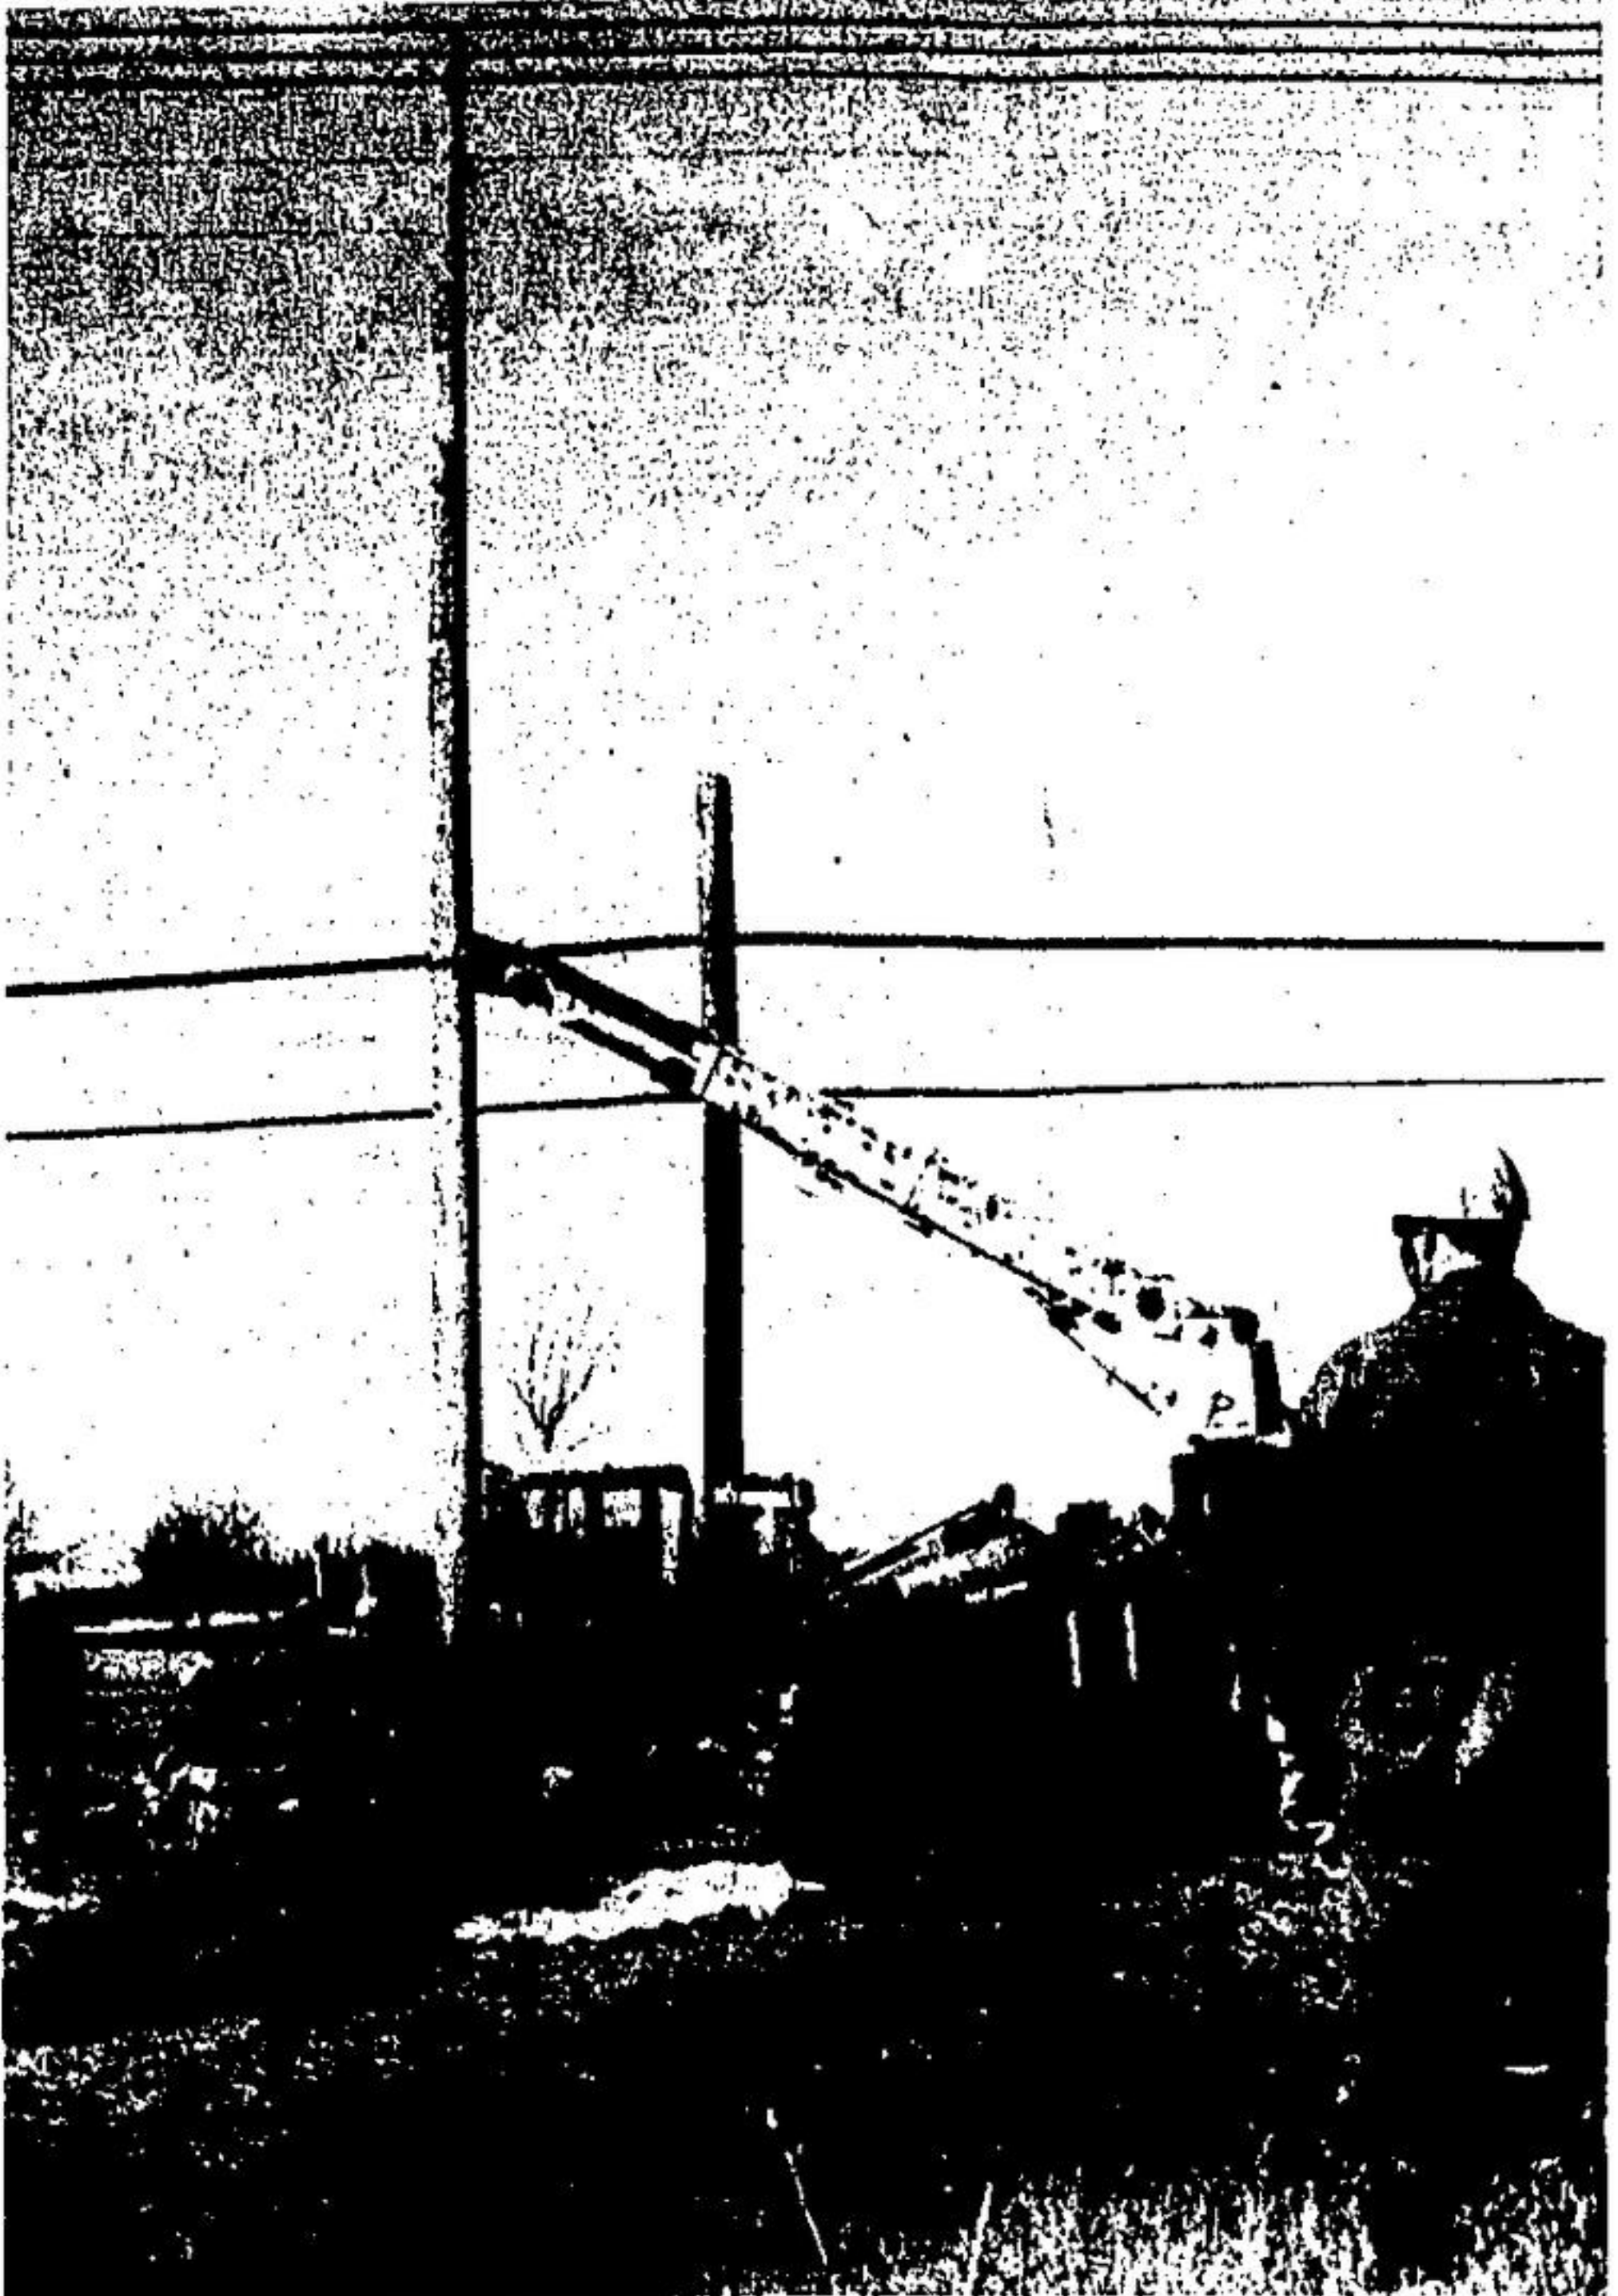

Dave Williams, publicity convener for the North Halton scout district, said, "Not only is this a fund raising campaign to assist in furthering Scouting but also to provide much needed

re-forestation, creation of new wildlife habitats, prevention of land erosion and the provision for water preservation areas."

Shrubs are to be planted at the Orangeville dam to encourage wildlife by providing shelter and food and red pine will be planted at the Monora Conservation area to provide windbreaks and shelter for birds. Cleared areas will be planted in white pine and white spruce to replenish them.

Cubs, Scouts and Venturers will be calling on residents in their own communities to recruit sponsors for the tree planting project. They hope to gain the same type of support they received last year which resulted in thousands of trees being planted despite unfavorable weather.

ADMISSION 4.00 COUPLE

ONTARIO HYDRO men are installing a new heavy duty transmission line from Guelph to Acton along the CN right-of-way. Machines and men have been busy the past few weeks digging post holes and sitting huge poles in them along the transportation corridor. Visual pollution—perhaps, but necessary due to increasing electrical needs of Acton and district.

Nassagaweya bids central

Nassagaweya Township went on record Thursday as preferring that the bulk of their township be incorporated within the Central Halton Borough under regional government.

The township brief on regional government was presented Thursday at a meeting of county Councillors and the mayors of the five towns in Halton. Nassagaweya agrees with other Halton municipalities that a three borough region would be more acceptable than four.

Accepting the idea of a fourth borough as a reality and realizing that much of the assessment from Nassagaweya will go to the central borough the township council agreed the same borough should enhance the northern part of the township.

The brief indicates land south of lot 24 in Nassagaweya should become part of the Central borough while land north of that including the Village of Eden Mills should become part of Wellington.

Milton Council's brief suggested there may be some merit in that area south of Lot 24 in Nassagaweya becoming part

of Central Halton. The author notes fire services for the area north of Lot 15 may have to be purchased from the North Halton Borough.

Province says Provincial proposals released in January had suggested Nassagaweya should be split with that portion of the township north of a point half way between lot 10 and 11 going into north Halton and the balance in Central Halton.

Nassagaweya Reeve Mrs. A. MacArthur has said she feels

Bid high

One of the town's Weight Watchers was playing cards on the weekend when her rings flew right off her slimmed-down finger! And she hadn't even bid diamonds.

Wet weather stops rash of grass fires

Acton firefighters ran into a rash of blazing grass fires last week but a change in the weather which brought tons of precipitation with it, limited them to five rides into the countryside.

They answered three alarms last Tuesday, one of them a recall to the area south of the First Line, Esquesing, and 25 Skidroad, and another at the electrical railway museum off the Guelph Line in Nassagaweya.

Wednesday afternoon they were summoned to a raging blaze at a farm near Moffat on the First Line, Nassagaweya, below 20 skidroad. There they were joined by a Milton truck and a crew of firefighters from the county town in fighting the flames which burned off many acres.

That same evening grass along the CN railway tracks just opposite Goy Carriage caught fire and the brigade squelched it in a few minutes.

The resulting wet weather has obliterated the threat for the present but those burning off grass are reminded to exercise caution in order to prevent further alarms.

Morrow refuses raise

Ric Morrow, Reeve of Georgetown won't accept the \$1,000 raise county councillors voted for themselves last week.

Morrow who was absent when the raise was voted in, said the whole thing was a sham and showed no responsibility on the part of county council. He noted the salaries had gone up from a total of \$19,500 for the 13 councillors in 1970 to \$52,000 now.

Out of order Morrow who raised to ask a question was ruled out of order a number of times by Warden Anne MacArthur who claimed a question was in order and a speech wasn't.

Morrow was advised by administrator that the \$1,000 would

have to be claimed as an income and the Canada Pension Plan would have to come off it anyway. He noted in answer to Morrow's question he was free to do with it as he wished. Morrow said he might donate it to Georgetown.

11 collisions

Police officers from Milton Detachment of the Ontario Provincial Police investigated 11 motor vehicle collisions involving 17 vehicles last week.

Two persons were injured in two of these collisions, however no one was killed. Total property damage was estimated to be \$5,840.
